DEPARTMENT OF THE INTERIOR,
Washington, May 21, 1910.

SIR: In compliance with Senate resolution of January 27, 1910, directing that the Senate be informed what contracts were in force at the time of the approval of an act entitled "An act prohibiting the selection of timber lands in lieu of lands in forest reserves" (33 Stat., 1264), and requesting further information with respect to said contracts, etc., I have the honor to submit—

The records of this department do not disclose that any formal contracts had been entered into between the Secretary of the Interior or other government officer and any person, firm, or corporation coming within the saving clause of the aforesiad act; but it is disclosed that on May 16, 1905 (33 L. D., 558), Mr. Secretary Hitchcock approved a circular letter addressed to "Registers and receivers, United States land offices," explaining and construing the provisions of said act, wherein it was stated:

> In providing that "the validity of contracts entered into by the Secretary of the Interior prior to the passage of this act shall not be impaired," Congress referred to, recognized, and authorized the consummation of certain agreements entered into between the Secretary of the Interior and the owners of certain odd-numbered sections of land in the San Francisco Mountains and Grand Canyon forest reserves in Arizona, and the owners of certain lands, not theretofore reserved but included by the President's proclamation of December 22, 1903, within the Santa Barbara Forest Reserve in California. Under this provision selections are still authorized to be made in satisfaction of tracts relinquished, or to be relinquished, as follows: First, of odd-numbered sections within the San Francisco Mountains Forest Reserve, Arizona, relinquished or to be relinquished, to the United States, either by the Santa Fe Pacific Railroad Company, the Aztec Land and Cattle Company, the Saginaw and Manistee Lumber Company, William F. Baker, or Edward B. Perrin; second, of odd-numbered sections within the Grand Canyon Forest Reserve, Arizona, relinquished or to be relinquished to the United States by the Santa Fe Pacific Railroad Company; and, third, lands of both even and odd numbered sections within the Santa Barbara Forest Reserve, California, as defined by the President's proclamation of December 22, 1903, but which were not included within the former Pine Mountain and Zaca Lake Forest Reserve nor within the former Santa Ynez Forest Reserve, and relinquished or to be relinquished to the United States by either the Santa Barbara Water Company or Jed L. Washburn. Upon the presentation of such relinquishments, with applications to select lands in lieu thereof, in accordance with instructions of July 7, 1902 (31 L. D., 372), you will accept same if otherwise unobjectionable.

As three several agreements entered into between Mr. Secretary Hitchcock and certain persons and corporations were construed by him and have since been accepted by the department as constituting contracts within the meaning of said act of March 3, 1905, copies of letters, petitions, and other documents accompanying the several applications, and the replies of the department with respect thereto culminating in and evidencing the agreements are furnished herewith.

Under the agreements the owners of the land in the San Francisco Mountains Reserve were to surrender all their holdings, with certain exceptions, necessary for business purposes, to use a certain number

of acres, known as restricted base, in selecting nontimbered land south of thirty-seventh standard parallel of latitude and the Tehichipa range of mountains. The right to cut the timber from certain areas of the land surrendered was also retained, as shown by the following table:

Owner.	Amount owned.	Restricted base.	Right to cut over.
	Acres.	*Acres.*	*Acres.*
Aztec Land and Cattle Co. (Limited)	132,000	28,600	.....
Saginaw and Manistee Lumber Co	40,720	.....	31,960
Wm. F. Baker	79,296	17,600	.....
Perrin Brothers	134,000	32,120	48,500
Santa Fe Pacific R. R. Co	552,358	146,680	45,000
Total	938,374	225,000	125,460

The same agreement was made by the Santa Fe Pacific Railroad Company as to its lands in the Grand Canyon Reserve without the timber-cutting privileges: Amount owned, 375,000 acres; restricted base, 260,000 acres; right to cut over, ———. The right of the company in so far as this reserve is concerned was practically exhausted prior to March 3, 1905.

Jed L. Washburn, owning 31,760 acres, and the Santa Barbara Water Company, 16,960 acres, in the Santa Barbara Reserve, California, agreed to select in lieu thereof an equal area of nontimbered land without restriction as to location and with no timber-cutting right over the surrendered land.

The above figures are those furnished by the various owners, but they do not agree with subsequent computations by this office, which show 1,024,540 acres owned by said parties in the San Francisco Mountains Reserve, and 381,120 acres in the Grand Canyon Reservation.

There is transmitted herewith a detailed statement showing by States the total amount of land selected by all parties combined prior to and subsequent to the repeal of the act of June 4, 1897 (30 Stat., 36), by the act of March 3, 1905 (33 Stat., 1264); statement, by States, of land selected by individual parties in lieu of land in a specific reserve, also statement showing the amount of "restricted and unrestricted land, by States, selected by each individual; statement by legal subdivisions, township, range, land district, State (or Territory), name of selector, and land surrendered in lieu thereof." The area selected in each land district, State, and total areas so selected are also shown.

In the San Francisco Mountains Reserve, 815,976.16 acres of the 938,374 acres claimed, have been used, leaving 122,397.84 acres available, and of the 48,720 acres in the Santa Barbara Reserve, 44,445.31 acres have been used, leaving 4,274.69 acres available, or a total of 126,672.53 acres.

In the Grand Canyon Reserve 380,352.25 acres were used, such amount being 5,352.25 acres in excess of the 375,000 acres claimed, accounted for as follows: At the time the company submitted its figures a large part of its lands was unsurveyed and the area was merely estimated. The subsequent survey disclosed the additional area which could be used under the agreement.

As to what amount of this area will be eventually used, this department is unable to state, as the question of what lands are to be retained for business purposes is still unsettled.

The history of the creation of the San Francisco Mountains Forest Reserve was set forth by House Document 613 (Fifty-ninth Congress, first session) with the exception of the timber-cutting contracts referred to therein, copies of which are transmitted herewith. The matter of the Grand Canyon Forest Reserve was also gone into by House Document 613, and copies of the correspondence are inclosed.

Copies of the entire record, so far as available from the records of the department, of the inclusion of the Rancho Los Prietos y Najalayegua in the Santa Barbara Forest Reserve, are forwarded herewith.

It will be found that all of the correspondence and data above referred to are arranged alphabetically and chronologically, the papers in each proposition constituting a separate set.

The statistical data are arranged alphabetically and numerically.

Very respectfully,

R. A. Ballinger,
Secretary.

Hon. James S. Sherman,
President of the Senate.

Report made by the Secretary of the Interior March 10, 1906, on the facts and circumstances in connection with the formation and enlargement of the San Francisco Mountains Forest Reserve (H. Doc. No. 613, 59th Cong., 1st sess.).

NOTE.—By order of the Senate Committee on Printing there is not reprinted in this publication House Document No. 613, Fifty-ninth Congress, first session, transmitted with this document.

TIMBER-CUTTING CONTRACTS IN SAN FRANCISCO MOUNTAINS NATIONAL FOREST.

SECRETARY'S CONTRACT NO. 17818: SANTA FE PACIFIC RAILROAD COMPANY, WITH ARIZONA LUMBER AND TIMBER COMPANY, DATED OCTOBER 11, 1898; EFFECTIVE JANUARY 1, 1899.

CONTRACT OF SALE: SALE OF STANDING TIMBER, ETC.

Memorandum of agreement, made and entered into this eleventh day of October, 1898, between the Santa Fe Pacific Railroad Company, a corporation organized under the laws of the United States, party of the first part, and the Arizona Lumber and Timber Company, a corporation organized under the laws of the Territory of Arizona, party of the second part, witnesseth that

Whereas the first party is the owner of certain sections and parts of sections of land, situated in the county of Coconino, Territory of Arizona, and the second party has, under certain agreements with the first party, acquired title to the standing timber thereon, which said sections and parts of sections are described as follows, to wit:

The southwest quarter (¼) of section seventeen (17), all of section nineteen (19), a part of section twenty-one (21), all of section twenty-nine (29), and all of section thirty-one (31), all in township twenty-one (21) north, range six (6) east; also all of section thirteen (13), in township twenty-one north, range five (5) east; also all of section five (5), all of section seven (7), all of section nine (9), all of section fifteen (15), all of section 23, all of section twenty-five (25), all in township twenty (20) north, range seven (7) east; also all of section twenty-nine (29), all of section thirty-one (31), and all of section thirty-three (33), in township twenty-one (21) north, range seven (7) east; and

Whereas the party of the first part is the owner of that certain timber standing on sections and parts of sections of land situated in the county of Coconino, Territory of Arizona, and described as follows, to wit:

Sections nine (9), fifteen (15), seventeen (17), twenty-one (21), twenty-three (23), twenty-five (25), twenty-seven (27), twenty-nine (29), thirty-one (31), thirty-three (33), and thirty-five (35), all in township twenty-one (21) north, range five (5) east; all sections one (1), three (3), eleven (11), thirteen (13), seventeen (17), twenty-one (21), twenty-seven (27), twenty-nine (29), thirty-one (31), thirty-three (33), and thirty-five (35), all in township twenty (20) north, range seven (7) east; also sections nineteen (19), twenty-five, twenty-seven (27), and thirty-five (35), all in township twenty-one (21) north, range seven (7) east; also sections one (1), three (3), five (5), seven (7), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), nineteen (19), twenty-one (21), twenty-three (23), twenty-five (25), twenty-seven (27), twenty-nine (29), thirty-one (31), thirty-three (33), and thirty-five (35), all in township twenty (20) north, range five (5) east; also sections one (1), five (5), and the south half

($\frac{1}{2}$) and the northeast quarter ($\frac{1}{4}$) of section three (3), and sections seven (7), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), nineteen (19), twenty-one (21), twenty-three (23), twenty-five (25), twenty-seven (27), twenty-nine (29), thirty-one (31), thirty-three (33), and thirty-five (35), all in township twenty (20) north, range six (6) east; also sections twenty-five (25), twenty-seven (27), thirty-three (33), and thirty-five (35), all in township twenty-one (21) north, range six (6) east; also sections twenty-one (21), twenty-three (23), twenty-seven (27), and twenty-nine (29), in township twenty-one (21) north, range eight (8) east; and also sections nineteen (19) and thirty-three (33), in township twenty (20) north, range eight (8) east; all of said townships and ranges being north and east of the Gila and Salt River base and meridian; and

Whereas the number of feet of timber owned by the party of the first part, as aforesaid, upon each of said sections and parts of sections has been estimated to be as follows, the number of feet being set opposite to the section or part of section thereof, to wit:

In Township 20 North, Range 7 East.

Now, therefore, it is mutually agreed and understood between the parties hereto as follows, to wit:

1. That the estimates of the amount of timber on such sections and parts of sections as above set forth are correct.

2. The party of the first part shall sell and transfer, at the prices and upon the terms and conditions hereinafter set forth, to the party of the second part, and the party of the second part shall buy from the party of the first part, within eight years from the date hereof, all of the timber owned as aforesaid by the party of the first part upon the sections and parts of sections of land above set forth, which shall

be required or needed by the party of the second part or which it may use in carrying on its business, during the term or period of this agreement, and during such period hereinafter mentioned as the party of the second part shall have the right of removal of such timber from the land upon which the same may be standing. The party of the second part shall pay for said timber as hereinafter provided, within said period of eight years from the date hereof, the price of one dollar and twenty-five cents ($1.25) per thousand feet, board measure, according to the number of feet of timber on said sections and parts of sections, as above estimated. The payment or payments therefor shall be made in the following manner, to wit:

As and when the timber from any one section or part of a section shall have been cut, payment therefor shall be immediately made, and said party of the second part shall not cut nor shall it have the right to cut upon more than three section at any one time where the timber upon the same has not been paid for; and after said party of the second part shall have commenced cutting timber upon any three sections it shall not have the right to cut or commence to cut any timber upon any other sections until payment shall have been first made for all the timber upon one of the sections upon which the cutting shall have commenced.

3. The party of the second part shall deliver to the party of the first part not less than five-eighths ($\frac{5}{8}$) of all the native pine piling, lumber, and sawed ties required by said party of the first part in the construction and maintenance of its railroad, and such additional quantity as is provided for in the agreement in writing of even date herewith, free on board cars at the station or sidetrack of the railroad of said party of the first part nearest to the place of manufacture thereof by said party of the second part, of the kind and quality and upon the terms and conditions contained in said agreement of even date herewith, during the period of four years from the first day of January, 1899, at the following prices, to wit:

Cross ties, 7 x 8 x 8, 33½ cents per tie.
Cull ties, 7 x 8 x 8, 16¾ cents per tie.
Piling, 6 cents per lineal foot up to 30 feet, inclusive, and 8 cents per lineal foot, 32 feet to 60 feet, inclusive.
Rough, clear lumber, $19 per M feet.
Clear surfaced, one or two sides, $20.50 per M feet.
Special shiplap car flooring, $12 per M feet.
Clear flooring, ceiling and rustic siding, $20.50 per M feet.
4 feet plastering laths, $2 per M pieces.
Common lumber and timbers, including switch ties, $9.50 per M feet.
Surfacing, one or two sides, $1.50 per M feet.
Surfacing, three or four sides, $2.50 per M feet.

4. Should the party of the first part so elect, the party of the second part shall then also furnish to the party of the first part not less than five-eighths ($\frac{5}{8}$) of all such piling, lumber, and ties, and such additional quantity as may be provided for in said agreement of even date herewith as said party of the first part may require for the further term of four years from the first day of January, 1903, at the prices above mentioned and set forth, and upon the terms and conditions contained in said certain agreement in writing of even date herewith, made and entered into by the parties hereto; provided, however, that the said party of the first part shall, prior to the first day of January, 1903, give to the party of the second part notice of its election to have

said party of the second part furnish such piling, lumber, and ties for such further period.

5. If, at any time before said timber agreed to be sold by the party of the first part to the party of the second part as aforesaid shall have been fully paid for, the party of the second part shall fail, for a period of six months at any one time, to manufacture lumber from the timber so agreed to be sold as aforesaid, or if said party of the second part shall fail at any time to make payments for such timber in the manner and as herein provided, then and in such event, at the election of the party of the first part, all the right of the party of the second part to purchase such or any timber not then paid for or any part thereof, and the obligation of the party of the first part to further sell the same, shall forthwith cease, and said party of the second part shall have no further right or interest therein; but the same shall revert to and reinvest in the party of the first part, and said party of the first part may, at its option, terminate this contract, and payment for all timber which shall then have been cut and for which payment shall not have been made shall immediately become due and be paid by the party of the second part to the party of the first part.

6. The party of the second part shall have the right to enter and work upon said sections hereinbefore mentioned for the purpose of cutting timber as herein provided, whether owned by the party of the first part or the party of the second part as hereinabove recited; and also, for the same purpose, the party of the second part shall have the right to make and maintain logging roads and spur tracks upon all of said sections, to remove timber which shall be cut, and shall also have the right to use such springs and water tanks on said lands as may be necessary for the carrying out of this contract, subject, however, to any former contracts which may have been made by the party of the first part and to the rights created thereby respecting such water; provided, however, that said party of the second part shall cut and remove all timber for which it shall have paid within five years from the expiration of said term of eight years from the date hereof; or if this contract be sooner terminated or the obligation of the party of the second part to further sell shall cease and be determined, as above provided, then within five years from such termination and upon the expiration of five years all right of the party of the second part to cut and remove any timber from any of said sections of lands hereinbefore recited, whether such timber may have been heretofore or may hereafter be paid for by said party of the second part, and all other rights hereby granted to it shall forthwith cease and determine, and said party of the second part shall thenceforth have no interest or right whatsoever in said or any timber remaining upon said sections heretofore recited or set forth, or any part thereof; but all interest or title of the party of the second part in or to any timber remaining standing upon, uncut, or not removed before the expiration of said five years from any of said sections or parts of sections hereinbefore recited, whether paid for or not by the party of the second part, shall, immediately upon the expiration of such five years, revert to and reinvest in the said party of the first part.

7. The party of the first part shall have the right, and the same is hereby reserved to it, to sell or lease said lands hereinbefore described and recited, or any part thereof, subject only to the rights of the party of the second part hereby created.

8. Any stumpage paid for by the party of the second part on hewn ties or piling cut upon any of the above sections prior to the first date of January, 1899, under the contract made between the parties hereto, dated April 16th, 1898, shall be credited upon the amount due on the sections from which such ties or piling has been cut.

9. This contract and the provisions thereof shall take effect and shall be operative on and after the first day of January, 1899, and on and after said date last-mentioned that certain agreement dated April 16th, 1898, made between the parties hereto, and that certain agreement dated August 13th, 1896, made between the receiver of the Atlantic and Pacific Railroad Company and Greenlaw Brothers (the interest of the said second part), and that certain agreement dated October 20th, 1896, between the receiver of the Atlantic and Pacific Railroad Company and the second party hereto, as well as any other agreement or agreements which may be binding between the parties hereto, concerning the sale of standing timber by the party of the first part to the party of the second part, and all provisions in such agreements contained, shall be superseded by this agreement and shall cease to have further force and effect between the parties hereto, except that the party of the second part shall pay the party of the first part for all timber cut thereunder up to January 1st, 1899, for which payment has not already been made, in accordance with the terms thereof.

10. Where the timber upon any section or sections has not been estimated and set forth in the recital hereof, but the same is still to be estimated, the parties hereto shall, at their early convenience, estimate the timber upon each of said sections and fix the same, and thereupon the timber upon such sections shall become and be subject to all the terms and provisions of this agreement.

11. In the event of a change in the present monetary standard of the United States during the existence of this agreement, the prices herein provided for the sale of standing timber, except as to timber which may theretofore have been paid for, as well as the prices hereinbefore stated for the sale of ties, piling, and lumber, except as to such as may have theretofore been paid for, shall be subject to readjustment as may be then agreed upon, in order to conform to such change, by making the prices so changed equivalent in value to the present standard. Should the parties hereto fail to agree upon such readjustment of prices, then their differences in such respect shall be submitted to arbitration as follows:

The party demanding arbitration shall select one arbitrator and notify the other party thereof in writing, and such other party shall, within ten days after receiving such notice, select another arbitrator, and the two arbitrators so selected shall select a third. Should such two arbitrators fail within thirty days to select a third arbitrator, then such third arbitrator shall be selected or appointed by the judge for the time being of the district court of Coconino County, Arizona. The arbitrators shall then notify the parties hereto of the time and place of hearing, at which time and places the parties hereto may be present and present their views and such evidence as they may desire bearing upon the questions submitted. Such arbitrators shall then, with reasonable diligence and expedition, make their decision in the matter, which decision shall be in writing. The decision of any of

the two arbitrators shall be deemed the decision of the arbitrators, and shall be final and conclusive upon the parties hereto.

12. The party of the second part shall not have the right to, nor shall it, assign this contract or any interest therein, or in any of the timber remaining uncut and unremoved from the section upon which the same may be, without the consent in writing of the president of the party of the first part, and any assignment attempted to be made by said party of the second part without such consent in writing shall be without validity, force, or effect.

This contract, and each and all of the covenants and conditions thereof, shall inure to the benefit of and be binding upon the successors and assigns of the party of the first part; and in case of the assignment hereof by the party of the second part, with the consent in writing of the president of the party of the first part, as above provided, then this contract and each of the covenants and provisions thereof shall also inure to the benefit of and be binding upon the successors and assigns of the party of the second part.

In witness whereof the parties hereto have caused this agreement to be executed in duplicate the day and year first above written.

TOPEKA, KANS., *May 31, 1906.*

SECRETARY'S CONTRACT NO. 17818-B: ARIZONA LUMBER AND TIMBER COMPANY WITH SANTA FE PACIFIC RAILROAD COMPANY MAY 1, 1903.

CONTRACT: SUPPLEMENTAL TO AND MODIFYING AGREEMENT OF OCTOBER 11, 1898.

This agreement, supplemental to an agreement dated October 11, 1898, between the same parties, made and entered into this first day of May, 1903, between the Santa Fe Pacific Railroad Company, a corporation organized under the laws of the United States, party of the first part, and the Arizona Lumber and Timber Company, a cor-

poration organized under the laws of Territory of Arizona, party of the second part:

Witnesseth, that

Whereas under an agreement dated October 11, 1898, between the parties hereto, the party of the second part was given the right to cut certain timber on certain conditions and terms in said agreement fully set forth, from lands described as follows:

The SW. ¼ of sec. 17, all of section 19, part of section 21, all of section 29, and all of section 31, all in township 21 N., R. 6 E.; also all of section 13 in township 21 N., R. 5 E.; also all of section 5, all of section 7, all of section 9, all of section 15, all of section 23, all of section 25, all in township 20 N., R. 7 E.; also all of section 29, all of section 31, and all of section 33, in township 21 N., R. 7 E., and sections 9, 15, 17, 21, 23, 25, 27, 29, 31, 33, and 35, all in township 21 N., R. 5 E.; also sections 1, 3, 11, 13, 17, 21, 27, 29, 31, 33, and 35, all in township 20 N., R. 7 E.; also sections 19, 25, 27, and 35, all in township 21 N., R. 7 E.; also sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35, all in township 20 north, R. 5 E.; also sections 1, 5, the S. ½ and the NE. ¼ of section 3, and sections 7, 9, 11, 13, 15, 17, 19, 21, 25, 27, 29, 31, 33, and 35, all in township 20 N., R. 6 E.; also sections 25, 27, 33, and 35, all in township 21 N., R. 6 E.; also sections 21, 23, 27, and 29, in township 21 N., R. 8 E.; and also sections 19 and 33, in township 20 north, R. 8 E., all of the said townships and ranges being north and east of the Gila and Salt River base and meridian; and

Whereas the party of the first part has agreed to convey the title to said land to the United States of America, subject to the right of the party of the second part to cut the timber off said land under certain rules and regulations reading as follows:

1. All trees to be cut shall be marked by the Government at its expense within sixty days after written notice to the Secretary of the Interior of the intended cutting; and no trees unmarked shall be cut, except that if the Government as to any section fails to mark the trees within the time named, cutting may proceed as to that section in advance of or without marking. Notices of intention to cut, marking and cutting, shall be by sections from time to time as the interests of those having the right to cut may suggest.

2. Trees marked may be left standing at the discretion of the lumberman.

3. Trees less than eleven inches in diameter of wood eighteen inches above ground shall not be marked unless defective or unless for other reasons satisfactory to the Government their removal shall be advantageous to the forest. All trees eleven inches in diameter and upward, eighteen inches above ground, except as provided in rule 4, shall be marked for cutting by the Government.

4. The right to retain two seed trees on each acre above fourteen inches in diameter shall be reserved to the Government when necessary for the good of the forest. Such trees shall be chosen from individuals unsound or otherwise undesirable for lumber.

5. Small timber necessary for use in logging may be avoided as far as it is reasonably possible to do so.

7. No tops shall be thrown against unmarked, standing trees, when possible to avoid it, and when thrown against or near such

trees all tops shall be dragged away by the lumberman far enough to prevent injury to standing timber by heat when the tops are burned.

8. All reasonable precautions shall be taken by the lumberman to prevent unnecessary damage to young growth and to guard against fire, and the lumberman and those employed by him in the forest shall be required, without expense to the Government, to assist in extinguishing fires, whenever necessary.

9. Employees of the Government shall at all times have free access for the purpose of lopping and burning tops, which shall be at the expense of the Government for all other purposes involved in these rules, and for all purposes incident to the administration of the forest reserve and the laws and regulations pertaining thereto.

10. The Government shall, under no circumstances, be liable for injury by fire to timber standing or fallen, the right to remove which has been reserved.

11. The cutting and removal of timber shall be under the supervision of a forest officer representing the Secretary of the Interior, and all questions arising in connection with the cutting or removal of the timber shall be determined by him, under the direction of the Secretary of the Interior. His decision shall be final except as provided in rule 12.

12. If the lumberman feels aggrieved at any decision of the forest officer representing the Secretary of the Interior, he must notify that forest officer in writing within ten days after the decision, and thereupon the matter in controversy shall be referred to a committee of three disinterested persons, to be agreed upon by the forest officer and the lumberman, or to be named by the justice of the supreme court of the Territory of Arizona whose district includes the lands in question, where the forest officer and the lumberman are unable to agree. The finding of this committee shall be reduced to writing and transmitted to the Secretary of the Interior, whose decision in the premises will be promptly given and shall be final. The compensation and reasonable expenses, if any, of the committee shall be equally divided between the lumberman and the Government.

And whereas the party of the second part is willing to cut timber off said lands under the rules and regulations, provided the following described lands, to wit: Section 19, township 20 north, range 7 east; sections 3, 7, 9, and 17, township 19 north, range 8 east; sections 1, 3, 9, 11, and 13, township 19 north, range 5 east; sections 4, 5, 7, 9, and 17, township 19 north, range 6 east, be substituted for the following described lands embraced in the agreement of October 11, 1898, aforesaid, to wit:

Sections nineteen (19) and twenty-seven (27), township twenty-one (21) north, range seven (7) east; sections five (5), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), twenty-one (21), twenty-five (25), twenty-seven (27), and thirty-five (35), township twenty (20) north, range seven (7) east; sections nineteen (19), twenty-seven (27), twenty-nine (29), thirty-one (31), and thirty-three (33), township twenty (20) north, range eight (8) east; section five (5), township nineteen (19) north, range eight (8) east; sections twenty-one (21), twenty-three (23), twenty-seven (27), and twenty-nine (29), township twenty-one (21) north, range eight (8) east.

Whereas the number of feet of timber owned by said party of the first part standing upon each of the following sections has been estimated to be as follows, to wit:

	Feet.
On section 19, T. 20 N., R. 7 E	1,845,000
On section 1, T. 19 N., R. 5 E	3,250,000
On section 3, T. 19 N., R. 5 E	2,655,000
On section 9, T. 19 N., R. 5 E	2,215,000
On section 11, T. 19 N., R. 5 E	2,575,000
On section 13, T. 19 N., R. 5 E	3,030,000
On section 3, T. 19 N., R. 6 E	2,225,000
On section 5, T. 19 N., R. 6 E	4,135,000
On section 7, T. 19 N., R. 6 E	5,000,000
On section 9, T. 19 N., R. 6 E	2,480,000
On section 17, T. 19 N., R. 6 E	3,000,000
On section 3, T. 19 N., R. 8 E	2,290,000
On section 7, T. 19 N., R. 8 E	2,765,000
On section 9, T. 19 N., R. 8 E	1,090,000
On section 17, T. 19 N., R. 8 E	2,100,000

Now, therefore, it is mutually covenanted and agreed between the parties hereto as follows, viz:

First. That the agreement of October 11, 1898, no longer applies or has any force as to the following lands described aforesaid, to wit:

Sections nineteen (19) and twenty-seven (27), township twenty-one (21) north, range seven (7) east; sections five (5), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), twenty-one (21), twenty-five (25), twenty-seven (27), and thirty-five (35), township twenty (20) north, range seven (7) east; sections nineteen (19), twenty-seven (27), twenty-nine (29), thirty-one (31), and thirty-three (33), township twenty (20) north, range eight (8) east; sections twenty-one (21), twenty-three (23), twenty-seven (27), and twenty-nine (29), township twenty-one (21) north, range eight (8) east.

Second. That the agreement of October 11, 1898, shall be operative in all respects upon the following described land, not previously embraced therein, the same as though said lands had been originally described therein, to wit:

Section 19 of township 20 north, range 7 east; sections 3, 7, 9, and 17 of township 19 north, range 8 east; sections 1, 3, 9, 11, and 13 of township 19 north, range 5 east; sections 3, 7, 9, and 17, in township 19 north of range 6 east.

Third. That the estimates as above set forth correctly state the amount of timber standing on the sections hereby substituted as aforesaid for the certain lands hereby released, as aforesaid, from the provisions of the said agreement of October 11, 1898.

Fourth. That the period within which said party of the second part is given the right to purchase and pay for timber standing upon the lands described in said agreement of October 11, 1898, as modified hereby, is hereby extended until the 11th day of October, 1911; and the time within which said party of the second part may remove timber purchased and paid for by it prior to said October 11, 1911, is hereby extended until October 11, 1916.

Fifth. That as to all lands embraced in said agreement of October 11, 1898, as hereby modified, the party of the second part covenants that it will cut all timber off said land under the rules and regulations hereinbefore set forth; and this covenant and agreement is made for the benefit of the United States of America, in case it shall hereafter

become the owner of the lands aforesaid, as well as for the benefit of the party of the first part.

Sixth. That nothing herein contained shall be construed as granting to the party of the second part the right to cut or remove any timber which shall not have been fully paid for prior to October 11, 1911, nor to enter upon said lands for any purpose or to remove any timber therefrom on or after October 11, 1916; it being the understanding of the parties hereto that the party of the first part shall purchase and pay for such of the timber as it may require prior to said October 11, 1911, and remove the same prior to October 11, 1916.

Seventh. That said agreement of October 11, 1898, except as hereinbefore expressly modified, shall remain in full force and effect.

In witness whereof, the parties hereto have caused these presents to be executed by their respective officers thereunto duly authorized the day and year first above written.

TOPEKA, KANSAS, *May 31, 1906.*

CONTRACT OF SALE: ATLANTIC AND PACIFIC RAILROAD COMPANY, FIRST PARTY, TO E. B. PERRIN, SECOND PARTY, JULY 1, 1887.

Whereas the said first party, by an instrument in writing, dated January 12th, 1886, sold to said second party 176,000 acres, more or less, of its lands situated in the Territory of Arizona, at the net price of 70 cts. per acre; and

Whereas said second party is desirous of surrendering a portion of the land thus purchased by him, and to exchange it for an equal amount of land, adjacent to that already purchased by him, and also wishes to purchase additional land;

Now this indenture witnesseth: That the first party is the owner of a large amount of land situate, lying, and being in the Territories of New Mexico and Arizona, between the Rio Grande in New Mexico and the Colorado River on the western boundary of Arizona, which said lands said first party owns by virtue of the act of Congress, approved July 27th, 1866, entitled "An act granting lands to aid in the construction of a railroad and telegraph line from the States of Missouri and Arkansas to the Pacific Ocean."

That the first party did, on the 1st day of July, 1880, make, execute, and deliver unto the United States Trust Company of New York, trustee, a first mortgage on all of said land, to secure bonds at the rate of $25,000 a mile for the purpose of constructing its railroad;

That the third article of said mortgage, providing for the release of lands sold upon certain conditions, as set forth, viz:

"ARTICLE 3." "The party of the first part shall at its discretion, from time to time, sell the lands received from the United States under said first named act of Congress, and any and all acts subsequent thereto, to aid in the construction of said road and telegraph, and included in the mortgage at just and reasonable prices. The party of the second part, its successors or assigns in said trust, shall upon demand, from time to time, release the lands thus sold, to first party, or to the purchaser thereof; provided also, that the net cash

proceeds of said lands shall be deposited with, and all notes and securities taken therefor shall be held subject to the control of the United States Trust Company of New York, trustee, or its successors or successor in said trust.

That the parties hereto agree that the agreement made between them dated January 12th, 1886, be altered, as is hereinafter set out, but that said former agreement shall be and remain in full force and virtue except where it may hereby be changed.

That first party has sold the second party, and agrees to convey to said party by deed or deeds of general warranty, as soon as the lands hereinafter described shall be patented to the party of the first part by the United States Government, that portion of the land owned by said party of the first part in said Territory of Arizona, as appears by the map of the Atlantic and Pacific land grant in Arizona, bounded and described as follows, viz:

Beginning at a point on the southwestern corner of section 7 in township 19 north, range 3 east; thence easterly one mile, more or less, along the southern boundary line of said section, to a point on the southeastern corner of section 7, township 19 north, range 3 east; thence northerly eight miles, more or less, along the western boundary lines of sections 7 and 6, in township 19 north, range 3 east, and sections 31, 30, 19, 18, 7, and 6, in township 20 north, range 3 east, to a point on the township line between townships 20 and 21 north; thence easterly along said township line eleven miles, more or less, to a point on the southeastern corner of section 36, in township 21 north, range 4 east; thence northerly nine miles, more or less, on the range line between ranges 4 and 5 east, to a point on the southeast corner of section 13, in township 22 north, range 4 east; thence westerly six miles, more or less, along the northern boundary line of sections 19, 20, 21, 22, 23, 24, in township 22 north, range 4 east, to a point on the northwest corner of section 19 in said township; thence northerly four miles, more or less, on the range line, between ranges 3 and 4 east, to a point on the southwest corner of section 30 in township 23 north, range 4 east; thence easterly six miles, more or less, along the southern boundary lines of sections 30, 29, 28, 27, 26, and 25, in township 23 north, range 4 east, to a point on the southeast corner of section 25 in said township; thence northerly three miles, more or less, on the range line, between ranges 4 and 5 east, to a point on the northeast corner of section 13, in township 23 north, range 4 east; thence westerly 12 miles, more or less, to a point on the northwest corner of section 18 in township 23 north, range 3 east; thence southerly 24 miles, more or less, along the range line between ranges 2 and 3 east, to a point or place of beginning, and comprising the odd-numbered or railroad sections or parts of sections in the land grant of said Atlantic and Pacific Railroad, embraced in townships numbered as follows:

Sections 13, 15, 17, 19, 21, 25, 27, and 29, in township 23 north, range 4 east.

Sections 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 23 north, range 3 east.

Sections 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 22 north, range 4 east.

All odd-numbered sections in township 22 north, range 3 east.

All odd-numbered sections in township 21 north, range 4 east.

All odd-numbered sections in township 21 north, range 3 east.
Sections 7, 19, and 31, in township 20 north, range 3 east.
Section 7, in township 19 north, range 3 east.
(Also certain other land.)

Saving and accepting from such sale such lands as may hereafter be ascertained to have been granted, sold, reserved, occupied by homestead settlers, or preempted or otherwise disposed of prior to the definite location of the Atlantic and Pacific Railroad as provided by said act of July 27, 1866, and also saving and excepting such springs of water and other water supply as the party of the first part may be using for operating its railroad, together with 160 acres of land embracing each of such springs of water supply, and also reserving and accepting the right of said party of the first part for fifteen years from the date hereof, to enter, cut down, and remove any and all trees and timber standing or growing on said lands, or any of them, it being, however, agreed that said party of the second part may use some of the small trees growing on said land for the purpose of fencing said land or building ranch houses thereon, during said period of fifteen years; and also reserving and excepting for the exclusive use and benefit of said first party, for its own line or lines or for any branch road or roads in which it may become interested, all rights of way through said lands or any of them, and such additional land adjoining the same as may be required for the operation and protection of its railroad, together with ten acres of land for stations, sidetracks, and other purposes of the company at each station now established or which may be established within ten years from the date hereof; and also saving and reserving from such sale all mineral lands as do not pass to the party of the first part under said act of July 27th, 1866.

That the said Perrin hereby surrenders, sells, assigns, transfers, and sets over unto said party of the first part all the right, title, and interest in and to the lands hereinafter described as lands to be surrendered, which he has or may have by virtue of said agreement between himself and the said party of the first part, dated January 12th, 1886, and hereby releases it from all obligations and conditions with respect to said lands which it has assumed by the terms of said agreement of January 12th, 1886. And first party accepts the land thus surrendered, and agrees to receive the same at the price hereinafter named, in lieu of cash, in payment of a portion equal in amount of the land hereby purchased by said Perrin and hereinafter described.

The land to be surrendered to said party of the first part by said party of the second part as hereinbefore stated, is bounded and described as follows, as appears upon said map of the Atlantic and Pacific land grant in Arizona, viz:

(Property set forth in original instrument, but not the property described in caption.)

That the net cash price to be paid by E. B. Perrin is seventy cents per acre, and is to be based upon the estimated difference in acreage between the additional lands hereby sold to him and the land hereby surrendered by him.

That it is understood and agreed by both parties hereto, that it is the intention of the party of the first part, in making this contract of sale, to sell the lands herein agreed to be sold for a present cash value as agreed upon, and to convey the same to the purchaser, or to

his or their heirs and assigns, within the time herein agreed upon, or at the option of second party, in a shorter time, as fast or as soon as the title can be procured by patents from the United States, and at the time of such conveyance to receive payment per acre at the price agreed upon and herein named; together with interest thereon at the rate of 6 per cent per annum, payable annually from January 12th, 1886, to date of payment by purchaser or his or their heirs or assigns.

It is further agreed that if from any cause beyond its control, the first party shall be unable to convey all of the lands herein intended to be sold to second party as herein agreed within the time named, then with respect to such part which said first party shall be unable to convey as aforesaid, this contract shall be void and amount due and to become due shall be so adjusted, both as to principal and interest as if such part had not been included or estimated in this sale. Both parties agreeing that any diminution or excess in acreage which may be ascertained when the surveys are made and returned by the proper officers of the United States, shall be adjusted upon the basis of the price herein named per acre, by adding the excess, or subtracting the decrease from the gross number of acres sold as herein estimated, the acreage as returned to the General Land Office by the proper surveyors-general to be conclusive as to area.

Purchase price of the above-described lands to be paid in three equal installments of $6,794.66 each, with interest at 6 per cent per annum, payable annually to treasurer of first party, or from time to time at the option of the second party earlier than the date above fixed according to the terms of the promissory notes of second party, each of said notes bearing even date herewith and being for above-mentioned sum, the first to be due and payable Jan. 1, 1888, second to be due and payable Jan 1, 1889, and the third to be payable Jan. 1, 1890.

That if there shall be any default in the payment of the purchase money as herein provided, first party may enter upon and take and possess the lands herein named and sold and collect and receive the rents, issues, and profits thereof in the same manner it would if it were a mortgage, and for the purpose of suit or suits, it shall be deemed and held to be a mortgage to secure the purchase money agreed to be paid for the land named in this contract of sale.

Upon default or failure by second party to make any payment of the balance of the purchase money, according to the agreement herein contained, first party may at its option elect and determine that all of the notes herein named given for the balance of the purchase money shall become due if such default shall continue for more than three months.

Dated July 1st, 1887.

(Signed) ATLANTIC AND PACIFIC RAILROAD COMPANY.

[SEAL.] By H. C. NUTT, *President.*

H. W. GARDINER, *Secretary.*

(Signed) E. B. PERRIN.

By his attorney in fact,

THOMAS DE WITT CUYLER.

[Certificate of J. A. Williamson, land commissioner of the Atlantic and Pacific Railroad Company, to the effect that the price named for the land described in the above contract of sale is just and reasonable.]

The United States Trust Company of New York, trustee, does hereby release unto said railroad company all of the lands described in the above contract of sale from the operation of a certain mortgage made and delivered by said railroad company to said United States Trust Company of New York, trustee for the bondholders under said mortgage, of date July 1st, 1880.

This release is made in compliance with article 3 of said mortgage. Dated September 28th, 1887.

(Signed) UNITED STATES TRUST COMPANY OF NEW YORK.

[SEAL.] By JOHN A. STEWART, *President.*

Attest:

H. L. THORNELL, *Secretary.*

Acknowledged: By Henry L. Thornell, before Henry C. Kennedy, notary public, Kings County, N. Y. (cert. filed in N. Y. County), on September 28th, 1887. (Acknowledged as secretary of United States Trust Company of New York.) Also certifies that signature of John A. Stewart on the foregoing instrument is genuine. (Notarial seal.)

Acknowledged: By H. C. Nutt as president and H. W. Gardiner as secretary of the Atlantic and Pacific R. R. Co., before Geo. L. Goodwin, notary public, Suffolk County, Massachusetts, on Sept. 26th, 1887. (Seal.)

Acknowledged: By Thomas De Witt Cuyler, as attorney in fact for E. B. Perrin, before Joseph B. Bramen, commissioner of deeds for Territory of Arizona, residing in New York City, State and county, on July 19th, 1887. (Seal.)

"Certified copy" signed by John C. Lamb, notary public, Philadelphia County, Pa. Dated Sept. 30, 1887. (Seal.)

Recorded: April 1st, A. D. 1889, at 11 o'clock a. m., in book 2 of agreements, pages 13–33, Records of Yavapai County, Arizona.

WARRANTY BOND: THE ATLANTIC AND PACIFIC RAILROAD COMPANY TO THE ARIZONA CATTLE COMPANY.

ATLANTIC AND PACIFIC RAILROAD CO.,
WESTERN DIVISION.

This indenture made this nineteenth day of March, one thousand eight hundred and eighty-eight, by and between the Atlantic and Pacific Railroad Company, a corporation created by and doing business under the act of Congress approved July 27th, 1866, entitled "An act granting lands to aid in the construction of a railroad and telegraph line from the States of Missouri and Arkansas to the Pacific coast" and the United States Trust Company of New York, trustee, as hereinafter stated, parties of the first part, and The Arizona Cattle Company, a corporation of the State of New Jersey, having its principal office in the city of Jersey City of the County of Hudson and State of New Jersey, party of the second part:

Witnesseth, that the said Atlantic and Pacific Railroad Company for and in consideration of the sum of one thousand four hundred and ninety-six and fifty-six hundredths (1,496–56/100) dollars to be

duly paid by the said Arizona Cattle Company, the receipt whereof is hereby acknowledged, hath granted, bargained, and sold, and by these presents doth grant, bargain, sell, and convey, unto the said Arizona Cattle Company, their heirs and assigns forever, all those tracts, pieces, and parcels of land situated in the county of Yavapai, in the Territory of Arizona, to wit:

Being and lying on the north side of the right of way of the Atlantic and Pacific Railroad in township twenty-one north, in ranges V and VI east of the Gila and Salt River base and meridian as follows:

So much of section one (1), township twenty-one (21) north, in range five (5) east, as lies north of said right of way three hundred and seven and seventeen hundredths (307–17/100) acres. And so much of the following sections in township twenty-one (21) north, in range six (6) east, as lie north of said right of way, section seven (7) seventy-eight and ninety-three hundredths (78–93/100) acres, section thirteen (13) five hundred and forty-seven and thirty-five hundredths (547–35/100) acres. Section fifteen (15) five hundred and sixty-two and forty hundredths (562–40/100) acres. Section seventeen (17) seventy-one hundredths (0.71/100) acre, Gila and Salt River base and meridian, amounting in all to one thousand four hundred and ninety-six and fifty-six hundredths (1,496–56/100) acres.

The said party of the first part reserves the right at any time within fifteen years, from the seventh day of June, 1886, to cut and remove from said lands any trees now standing thereon which, measured at two feet from the ground, have a diameter of eighteen inches or more, provided that the party of the first part shall measure and mark such trees within three years from the said seventh day of June, 1886, and no trees not so measured and marked within said three years shall be removed or cut, and provided further that no tree shall be cut or removed after the expiration of said fifteen years.

And also reserving to the said Atlantic and Pacific Railroad Company all that portion of the land herein described (if there be any such) which lies within lines drawn parallel with, and one hundred feet in width on each side of the center line of its railroad as now constructed, or hereafter to be constructed, and any greater width where necessary permanently to include all their cuts, embankments, and ditches and other works necessary to secure and protect the main line of said railroad, and also reserving the station grounds, if any there be, within the above-described lands.

To have and to hold the said premises, with the appurtenances, unto the said Arizona Cattle Company, their heirs and assigns forever. And the said Atlantic and Pacific Railroad Company doth hereby covenant with the said Arizona Cattle Company, their heirs and assigns, that it is lawfully seized of all the premises aforesaid; that said premises are free and clear of all incumbrances whatsoever; and the said Atlantic and Pacific Railroad Company will forever warrant and defend the same, with their appurtenances, unto the said Arizona Cattle Company, their heirs and assigns, against the lawful claims of all persons whomsoever, except taxes that may have been levied thereon since the seventh day of June, A. D. 1886.

And this indenture also witnesseth: That J. A. Williamson, land commissioner of the Atlantic and Pacific Railroad Company, does hereby certify that the price named for the land described in the foregoing deed is just and reasonable. This certificate being made in compliance with article three of the mortgage made by said railroad company to the United States Trust Company of New York, trustee, dated July 1st, 1880.

In witness whereof the said land commissioner has subscribed his name this fifth day of December, A. D. 1887.

J. A. WILLIAMSON,
Land Commissioner.

And this indenture also further witnesseth, that the said United States Trust Company, trustee, under a mortgage dated July 1st, A. D. 1880, executed and delivered to it by the said Atlantic and Pacific Railroad Company in consideration of one thousand four hundred and ninety-six and fifty-six hundredths (1,496.56 100) dollars (being the proceeds of sale of the herein conveyed premises) to it paid by the said railroad company, the receipt whereof is hereby acknowledged, does, as such trustee under said mortgage, hereby release and forever discharge the hereinbefore conveyed premises from the lien and incumbrance created thereon by the said mortgage.

In witness whereof, the said United States Trust Company has caused the release to be signed by its president and attested by its secretary and sealed with the common seal of said corporation this twentieth day of March, A. D. 1888.

UNITED STATES TRUST COMPANY,
By JOHN A. STEWART, *President.*

Attest:
L. G. HAMPTON,
Asst. Secretary.

Acknowledged March 20th, 1888, before Edwin F. Corey, a commissioner of deeds for Arizona Territory, residing in the City of New York, State of New York, by the United States Trust Company of New York, by John A. Stewart, its president, and L. G. Hampton its assistant secretary, as their free and voluntary act and the free and voluntary act of the corporation above named.

In witness whereof, the said Atlantic and Pacific Railroad Company has caused this deed to be signed by its president and attested by its secretary and sealed with the common seal of the corporation, this nineteenth day of March, A. D. 1898.

ATLANTIC AND PACIFIC RAILROAD COMPANY
By H. C. NUTT, *President.*

Attest:
H. W. GARDINER,
Secretary.

[SEAL.]

Acknowledged March 19th, 1888, before Chas. Hall Adams, a commissioner of deeds for Arizona Territory, residing in the State of Massachusetts, by the Atlantic and Pacific Railroad Company, by H. C. Nutt, its president, and H. W. Gardiner, its secretary,

as their free and voluntary act and the free and voluntary act of the corporation above named.

Recorded at the request of John C. De La Vergue, May 23rd, A. D. 1888, at 12.15 o'clock, M., in Book 24 of Deeds, pages 488 to 493.

AGREEMENT; THE ARIZONA CATTLE COMPANY AND THE ARIZONA LUMBER COMPANY; DECEMBER 19, 1889.

Recitals: That Arizona Cattle Company is a corporation created and existing under the laws of the State of New Jersey; and that the Arizona Lumber Company is a corporation created and existing under the laws of the Territory of Arizona. That Arizona Cattle Company is the owner of certain lands, and hereby sells to Arizona Lumber Company all the timber on said lands, for the consideration of one dollar and of the premises, that will make merchantable lumber.

That the lands covered by agreement are situated in Yavapai County, Arizona, to wit:

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 33, and 35 in township 22 north, range 5 east, lying north of the A. & P. R. R. Co.

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 23 N., range 5 east.

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 24 N., R. 5 east.

Sections 1, 3, 5, 9, 11, 13, and 15 in township 21 N., R. 6 east, lying north of the A. & P. R. R.

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 27, 29, 31, 33, and 35 in township 22 N., R. 6 east.

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 23 N., R. 6 east.

Sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township 24 N., R. 6 east.

Sections 5, 7, and 9 in township 21 N., R. 7 east, lying north of the A. & P. R. R.

Sections 5, 7, 9, 17, 19, and 21 in township 22 N., R. 7 E.

Sections 5, 7, 9, 17, 21, 29, 31, and 33, in township 23 N., R. 7 east.

Sections 5, 7, 9, 17, 19, 21, 29, 31, and 33 in township 24 N., R. 7 east.

Cutting to be done within twenty-five years from date, price to be paid, $1.50 per thousand feet, board measure. Cutting to be in proportion to that done on the lands of the A. & P. R. R. Co. and of the Aztec Land & Cattle Company, at an agreed ratio.

Detail agreements as to terms, manner of cutting, payment, etc. Also that this agreement shall not be assigned by second party without the consent of the first party in writing; except that said party second part may within one year from the date hereof, transfer without such consent this agreement to a new company proposed to be incorporated for the purpose of reorganizing the business of the party of the second part.

In witness whereof the parties hereto have caused these presents to be respectively signed by their presidents and attested by their

secretaries, and their respective corporate seals to be hereunto affixed the date and year first above written in duplicate.

Assignment: Indorsed on back of agreement is the following:

FLAGSTAFF, ARIZONA, *August 20th, 1902.*

I hereby certify that by virtue of a resolution passed by the board of directors of the Arizona Lumber Company at a meeting held on Saturday, January 25th, 1890, the within contract between the Arizona Lumber Company and the Arizona Cattle Company was assigned, for value received, to the Arizona Lumber and Timber Company.

M. J. RIORDAN,
Secretary Arizona Lumber Company.

(Corporate seal, Arizona Lumber Company.)

Acknowledged: August 20, 1902, by said M. J. Riordan, as such secretary of said Arizona Lumber Company, as executed by him voluntarily and as the free act and deed of said company, before F. C. Reid, Clerk Probate Court, Coconino County, Arizona. (Seal.)

Recorded: Both contract and assignment Aug. 20, 1902, at 1 o'clock p. m., in book 1 of agreements, pages 333 to 343, inclusive, records of Coconino County, Arizona.

ASSIGNMENT OF AGREEMENT: ARIZONA LUMBER COMPANY TO ARIZONA LUMBER AND TIMBER COMPANY.

FLAGSTAFF, ARIZONA, *January 25, 1890.*

For and in consideration of the sum of five dollars ($5.00) to it paid, the receipt whereof is hereby acknowledged, the contract entered into December 19th, 1889, between the Atlantic and Pacific Railroad Company and the Arizona Lumber Company is hereby assigned and transferred to the Arizona Lumber and Timber Company.

(Signed:) ARIZONA LUMBER COMPANY,

Attest:
M. J. RIORDAN, *Secretary.*

Recorded: Feby. 13, A. D. 1890, at 9.15 o'clock a. m., in Book 2 of Agreements, page 91, Records of Yavapai County, Arizona.

AGREEMENT: ATLANTIC AND PACIFIC RAILROAD COMPANY, FIRST PARTY, WITH ARIZONA LUMBER COMPANY, SECOND PARTY.

CONSIDERATION: $1.00 AND OF THE PREMISES AND AGREEMENTS HEREINAFTER CONTAINED.

Said party agrees to and does sell to the party of the second part all the timber trees that will make merchantable lumber, standing, lying, and being on those tracts of land situate in the Territory of Arizona, and more particularly described as follows, to wit:

All the odd-numbered or railroad sections of land situate in townships 20, 21, 22, and 23 in range four (4) east; and in townships 20, 21, and 22 north, in range two (2) east; and in townships 20, 21, and 22 in range one (1) east. The townships heretofore referred to lie north and east of Gila and Salt River base and meridian.

The second party agrees within twenty-five years from the date hereof (except as hereinafter provided) to cut and remove said timber trees and to work and manufacture the same into merchantable lumber.

It is further agreed by and between both parties hereto, that second party shall cut and remove all the timber of any value as saw or tie timber now on the following-described lands within eleven (11) years from the date hereof.

Sections 1, 3, 5, 7, 11, and 13 and sections 15 and 17 in township twenty (20) north, in range four (4) east; all the odd-numbered or railroad sections in township twenty-one (21) north, in range four (4) east; sections 19, 21, 23, 25, 27, 29, 31, 33, and 35 in township twenty-two north, in range four (4) east; sections 13, 15, 17, 19, 21, 23, 25, 27, and 29 in township twenty-three north, range four (4) east.

Sections 7, 19, and 31, in township twenty (20) north, range three (3) east.

All the odd-numbered or railroad sections in townships 21 and 22 north, in range three (3) east.

Sections 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, and 33 in township twenty-three (23) north, range three (3) east.

All the odd-numbered or railroad sections in townships 20, 21, and 22 north, in ranges two (2) east; tps. 20, 21, and 22, in range 1 east.

The townships and ranges heretofore referred to lie north and east of the Gila and Salt River principal base line and meridian.

(Also other large tracts of land.)

It is further agreed by and between both parties hereto that all contracts heretofore made by and between the Atlantic and Pacific Railroad Company, Ed. E. Ayer, or the Ayer Lumber Company, to which the contracts with Ayres may have been assigned, or original contracts with the Ayer Lumber Company, or with the Arizona Lumber Company, shall be and are hereby annulled and canceled.

DEED OF TRUST: ARIZONA LUMBER AND TIMBER COMPANY TO FARMERS LOAN AND TRUST COMPANY, TRUSTEE, FEBRUARY 10, 1890.

Given to secure the payment of an issue of coupon bonds to the amount of $500,000.00, bearing date March 1st, 1890, interest at 6 per cent per annum. Bonds payable in from one to ten years after date, according to their number.

PROPERTY DEEDED IN TRUST.

All its saw mills, planing mill and machinery, shops, lumber, standing timber, and other property situated in sec. 21, township 21 north, range 7 east, Gila and Salt River meridian, and all of the timber trees, standing, lying, or being on those tracts, pieces, or parcels of land situate in the Territory of Arizona, and more particularly described as follows, to wit:

All the odd-numbered or railroad sections of land situate in townships 20, 21, 22, and 23 north in range 4 east; and in townships 20, 21, 22, and 23 north in range 3 east; in townships 20, 21, and 22 north in range 2 east; in townships 20, 21, and 22 north in range 1 east of Gila and Salt River base line and meridian.

Also all contracts, franchises, leases, and privileges, with the rents, issues, and revenues thereof.

(And certain other property.)

"The Farmers Loan and Trust Company, trustee herein, second party, in consideration of the premises, accepts the trust created by the above and foregoing indenture."

[L. S.] THE FARMERS LOAN AND TRUST COMPANY,
By R. G. ROLSTON, *President.*

Attest:
E. S. MARSTON, *Secretary.*

Acknowledged: By D. M. Riordan, as president of Arizona Lumber and Timber Co., before Simeon W. King, commissioner of deeds for Arizona, at Chicago, Ills., on February 14th, 1890. (L. S.)

Acknowledged: By M. J. Riordan, secretary of Arizona Lumber and Timber Company, before T. G. Norris, notary public, Yavapai County, Arizona, on February 27th, 1890. (L. S.)

Recorded: March 1st, A. D. 1890, at 9 o'clock a. m., in Book 5 of Mortgages, pages 352–365, Records of Yavapai County, Arizona.

AGREEMENT: ATLANTIC AND PACIFIC RAILROAD COMPANY, FIRST PARTY, WITH J. C. BROWN, SECOND PARTY, DECEMBER 1, 1892.

Consideration: $75,000, according to the terms of 3 certain promissory notes of even date for $25,000 each, due in one, two, and three years, respectively, with 6 per cent interest per annum.

Recites: That first party has this day sold to second party all of the timber standing or being in the following described land, subject to the rights and limitations of the first party as to the time of cutting and removing the same. Said land is described as follows, to wit:

Property described in caption (and other property).

[L. S.] ATLANTIC AND PACIFIC RAILROAD COMPANY.

Attest:
H. W. GARDINER, *Secretary.*
(Signed) J. C. BROWN. [L. S.]

Acknowledged: By A. Manvel, as president of the Atlantic and Pacific Railroad Company, before William F. Taliaferro, commissioner of deeds for Arizona Territory, residing in Cook County, Illinois, on December 5th, 1892. (L. S.)

Acknowledged: By J. C. Brown, before William F. Taliaferro, commissioner of deeds for Arizona Territory, residing in Cook County, Illinois, on December 2nd, 1892. (L. D.)

Acknowledged: By H. W. Gardiner, as secretary of the Atlantic and Pacific Railroad Company, before Chas. Hall Adams, commissioner of deeds for the Territory of Arizona, residing in Suffolk County, Mass., on December 9th, 1892. (L. S.)

Recorded: Mch. 29, A. D. 1893, at 9 o'clock a. m. in book 2 of agreements, pages 224-235, Records of Yavapai County, Arizona:

AGREEMENT: ATLANTIC AND PACIFIC RAILROAD COMPANY TO J. C. BROWN, DECEMBER 1, 1892.

Consideration: See Recitals.

Recitals: That party of the first part is a corporation duly organized under an act of Congress approved July 27, 1866, having its principal office in the city of Boston and State of Massachusetts, and that it is the owner of the timber standing and being on the lands therein described (being the lands described in the caption hereof, and other lands), the whole containing 199,439.33 acres, more or less, which it has the right to cut and remove from the land until the twelfth day of January, A. D. 1901.

That said company has sold to party of the second part all of the timber standing or being on said described lands, subject to the rights and limitations of the party of the first part as to the cutting and removing the same, for the sum of $75,000, payable in cash or material, in accordance with the terms of three notes, payable in one, two, and three years, respectively, the material to be at agreed prices set forth in detail in this agreement. Also agreements that party of the second part shall erect sawmill, that party of the first part shall furnish track material and shall have a chattel mortgage on mill and buildings until notes are paid. That indenture shall be executed in four originals, and duly recorded.

In testimony whereof the Atlantic and Pacific Railroad Company has caused these presents to be signed and executed in four original

copies by its president, and attested by its secretary under the seal of the company.

(Signed) ATLANTIC AND PACIFIC RAILROAD COMPANY.
By A. MANVEL, *President.*

Attest:
H. W. GARDINER, *Secretary.* [SEAL]

And J. C. Brown has duly signed and executed these presents in four original copies.

(Signed) J. C. BROWN. [L. S.]

In presence of—
W. F. TALIAFERRO.
J. W. DONNELLY.

Acknowledged: By the Atlantic and Pacific Railroad Company by A. Manvel, its president, reciting that same was his free and voluntary act and deed and the free and voluntary act and deed of the said railroad company, for the uses and purposes therein set forth, and under oath, that said provision as chattel mortgage is not made to defraud or delay creditors, on December 5, 1892, before William F. Taliaferro, commissioner of deeds for the Territory of Arizona, Cook County, Illinois, with seal affixed.

By J. C. Brown, with similar recitals as to chattel mortgage, Dec. 2, 1892, before William F. Taliaferro, commissioner of deeds for the Territory of Arizona, Cook County, Ill. (Com'rs seal.)

By the Atlantic and Pacific Railroad Company by R. W. Gardiner, its secretary, with similar recitals of acknowledgement as those in Manvel's acknowledgement, December 9th, 1892, before Charles Hall Adams, commissioner of deeds for the Territory of Arizona, Suffolk County, Mass. (Com'r's seal.)

Recorded: Feb'y. 3, 1893, at 1 p. m., in book 1 of Agreements, pages 8–18, records of Coconino County, Arizona.

RESOLUTIONS; ARIZONA LUMBER AND TIMBER COMPANY.

Recites: On motion of F. W. Sisson, seconded by T. A. Riordan, the following resolutions were unanimously adopted:

Whereas the Arizona Lumber Company did, on the 12th day of December, 1889, make and enter into a contract with the Atlantic and Pacific Railroad Company for cutting and removing the timber from certain lands described in said contract, to which reference is hereby made for greater certainty; and

Whereas the Arizona Lumber Company did, on January 25th, 1890, assign and contract to the Arizona Lumber and Timber Company, as was provided it might do in said agreement or contract made on December 19th as aforesaid; and

Whereas some difference of opinion has occurred between the contracting parties as to the manner in which each party has performed its part of the contract referred to; and

Whereas the said Atlantic and Pacific Railroad Company has proposed, as a means of settling all questions in dispute between the two companies, that the Arizona Lumber and Timber Company shall release all its rights under said contract made on said 19th day of

December, 1889, and restore to said Atlantic and Pacific Railroad Company the full possession of all the lands and timber described in said contract, except that portion of said timber which has been cut and removed, or having been heretofore cut may hereafter be removed, under the provisions of said contract; and

Whereas this, the Arizona Lumber and Timber Company, is willing to release all its rights under said contract, provided by so doing such act shall be taken and accepted as full satisfaction and settlement of all claims or demands of said Atlantic and Pacific Railroad Company arising or growing out of said contract, excepting stumpage for such timber as has been cut and manufactured, or shall hereafter be manufactured from timber heretofore cut, from any of said described lands, it being understood that timber heretofore cut may be removed for manufacture by said Arizona Lumber and Timber Company: Therefore

Be it resolved by the board of directors of the Arizona Lumber and Timber Company, That it does hereby release all the rights which it acquired by the assignment to it of that certain contract made by the Arizona Lumber Company with the Atlantic and Pacific Railroad Company on the 19th day of December, 1889, upon the terms set forth in the preamble preceding this resolution and made a part hereof.

Resolved, That the release of all of the rights of this company, acquired under said contract, shall take effect and become operative from and after the date upon which the board of directors of the Atlantic and Pacific Railroad Company shall accept and ratify these resolutions, so far as relates to the tract of land in said contract named from which the timber was to be cut and removed within eleven years from the date thereof, and shall become operative so far as relates to all the other land described in said contract on the first day of January, 1893, on which said day all rights under said contract shall cease and determine absolutely.

Resolved, That the president and secretary of this company shall be and are hereby empowered to make, execute, and deliver such other and further instruments in writing, under seal, as may be deemed necessary to give full force and effect to the foregoing preamble and resolutions.

I hereby certify the above and foregoing to be a true and correct copy of the resolutions passed by the board of directors of the Arizona Lumber and Timber Company at a meeting held in its office at Flagstaff, Ariz., December 2, A. D. 1892.

Dated December 2, A. D. 1892.

[L. S.] (Signed) M. J. RIORDAN,
Secretary Arizona Lumber and Timber Co.

Acknowledged: By M. J. Riordan, as secretary of the Arizona Lumber and Timber Company, before E. E. Ellinwood, notary public, Coconino County, Arizona, on March 14th, 1893. (L. S.)

Recorded: March 29, A. D. 1893, at 9 o'clock a. m., in book 2, agreements, pages 235–238, records of Yavapai County, Arizona.

RESOLUTIONS: ATLANTIC AND PACIFIC RAILROAD COMPANY.

Recites: That at a meeting of the board of directors of the Atlantic and Pacific Railroad Company held January 12, 1893, the following action was taken, as appears by the records of said meeting:

On motion duly made and seconded, the following preambles and resolutions were unanimously adopted:

Whereas the Arizona Lumber and Timber Company, a corporation organized and doing business under the laws of the Territory of Arizona, in the county of Coconino in said Territory, has by the action of its board of directors released to this, the Atlantic and Pacific Railroad Company, all the rights which it acquired under and by virtue of the assignment to it of a certain contract made and entered into between this company and the Arizona Lumber Company on the 19th day of December, 1889, and by said Arizona Lumber Company assigned to said Arizona Lumber and Timber Company on January 25, 1890, provided such relinquishment by said Arizona Lumber and Timber Company shall be taken and accepted by this company in full settlement of all claims and demands growing out of or based on said contract; and

Whereas it is by the board of directors of this company deemed advisable and expedient to accept the relinquishment of all of the rights of said Arizona Lumber and Timber Company in said contract named upon the terms proposed therein: Therefore

Be it resolved, That the relinquishment by the Arizona Lumber and Timber Company be accepted on the terms set forth in the preamble and resolutions passed and adopted by its board of directors on December 2, 1892, and a duly authenticated copy of which is now before this board.

Resolved, That the president and secretary of this company shall be, and are hereby, empowered to make, execute, and deliver such other and further instruments in writing under seal as may be deemed necessary to give full force and effect to the foregoing preamble and resolutions.

A true copy from the minutes.

[L. S.] (Signed) H. W. GARDINER, *Secretary*.

Acknowledged: By H. W. Gardiner, as secretary of the above-named corporation, before Charles Hall Adams, commissioner of deeds for Arizona Territory, residing in Suffolk County, Mass., on February 23, 1893. (L. S.)

Recorded: March 29, A. D. 1893, at 9 o'clock a. m., in Book 2 of Agreements, pages 238–240, records of Yavapai County, Arizona.

ASSIGNMENT: J. C. BROWN TO SAGINAW LUMBER COMPANY, FEBRUARY 14, 1893.

Consideration: $150,000 and the assumption of certain indebtedness.

Recitals: That grantee is a corporatfon under the laws of Illinois.

Refers to agreement of December 1, 1892, abstracted herein at page 7, setting forth the details of same at length.

That said lumber company desires to acquire all of said timber embraced in said agreement and the rights of said Brown under the same. That in consideration of $150,000 and the assumption by

said lumber company of said notes for $75,000, said J. C. Brown has sold, assigned, and set over, and does hereby sell, assign, and set over, unto said Saginaw Lumber Company all of the timber named in said contract of December 1, 1892, aforesaid, and all of said Brown's rights, interest, and issues therein, and other personal property, the intent being to vest in said company all of the rights and property to which said Brown is entitled under said instrument.

That said Saginaw Lumber Company hereby assumes and agrees to perform and carry out all of the agreements and undertakings of said J. C. Brown in said instrument of December 1, 1892, and to pay said notes, in accordance with the terms of said agreement.

That said Brown has signed this instrument, and said Saginaw Lumber Company has caused its corporate name and seal to be hereto attached in duplicate, by its authorized officers, on the day and year first above written.

(Signed) J. C. BROWN. [SEAL.]
SAGINAW LUMBER COMPANY,
By D. K. TRIPP, *President.*

(Cor. seal.)
Attest:
C. J. BEACHAM, *Secretary.*

Acknowledged: Separately by said Brown and said company, Feb. 14, 1893, before William F. Taliaferro, commissioner of deeds for the Territory of Arizona, Cook County, Ill., seal to each acknowledgment. Saginaw Co.'s acknowledgment recites that same is the free and voluntary act and deed of said officers and as the free and voluntary act and deed of said company, for the uses and consideration therein expressed.

Recorded: Sept. 10, 1902, at 1 p. m., in Book 1 of Assignments, pages 76–79, records of Coconino County, Arizona.

CONTRACT: ATLANTIC AND PACIFIC RAILROAD COMPANY, DR. E. B. PERRIN, AND SAGINAW LUMBER COMPANY, JANUARY 5, 1894.

Recitals: That agreements for sale of lands were made on January 12, 1886, between Edward W. Kinsley, trustee for the Atlantic and Pacific Railroad Company and Dr. E. B. Perrin; and on January 12, 1886, April 16, 1886, and July 1, 1887, between said Atlantic and Pacific Railroad Company and said E. B. Perrin, the latter contract also providing for the surrender of certain lands by said E. B. Perrin. That on September 21, 1889, an agreement was executed between said R. R. Co. and said Perrin for exchange of lands, and on January 10, 1890, a contract was made between said parties for the sale of lands by said R. R. Co.

That controversies have arisen between said R. R. Co. and said Perrin growing out of said contracts, and that in all of said contracts except that on January 10, 1890, certain timber rights were reserved by said Kinsley and said R. R. Co.

That on December 1, 1892, said R. R. Co., executed a contract with J. C. Brown of East Saginaw, Michigan, for the sale of said reserved timber, and that on February 14, 1893, said J. C. Brown sold and assigned to said Saginaw Lumber Company all his rights under said contract of Dec. 1, 1892.

That, therefore, it is agreed between the parties hereto that the amount of money due from said Dr. E. B. Perrin to said Atlantic and

Pacific Railroad Company on his contract of purchase of lands from said R. R. Co., amounts to $52,867.24, plus $9.32. That said Dr. E. B. Perrin hereby conveys and grants to said Saginaw Lumber Company with the assent of said railroad company, the right until January 12, 1926, to enter upon said lands and cut down trees and timber on said lands and to take and remove the same from said lands and dispose of the same in the same manner and with the same rights and privileges as if the reservation of tree and timber rights to said railroad company in said contracts of sale with said E. B. Perrin had originally extended to January 12, 1926, and as if the tree and timber rights granted and conveyed in turn by said J. C. Brown to the said Saginaw Lumber Company by the agreement of February 14, 1893, had originally extended to the 12th day of January, 1926, with same reservations as in said contract originally made. In consideration of said extension, said Saginaw Lumber Company agrees to pay to said R. R. Co. said amount above agreed to be due from said E. B. Perrin, in installments at the rate of $10,000 per annum, until said amount with interest, is paid. Payment may be made in material or cash.

Provision that if said lumber company shall fail or quit work or go out of business for six months, or fail to make the payments required, its lumber and timber rights herein described shall revert and inure to and revest in the R. R. Co., and said Co. shall have said rights until January 12, 1926, the same as said lumber co. now has.

The consideration herein agreed to be paid by said lumber co. shall be in addition to the consideration agreed to be paid in the contract of December 1, 1892, heretofore referred to.

Same clause as in agreement of December 1, 1892, making this agreement a chattel mortgage upon the mills, machinery, etc., of said lumber co. until said consideration be paid.

Also agreement of surrender and conveyance by Perrin to the R. R. Co. of certain lands not included in this abstract. Agreement by said Perrin that he releases all rights of action, etc., against said R. R. Co.

In witness whereof, the parties have executed this instrument in triplicate, the first and third parties by their officers thereunto duly authorized, and the second party in person, this 5th day of January, 1894.

JOSEPH W. REINHART,
JOHN J. MCCOOK,
JOSEPH C. WILSON,
Receivers of the Atlantic & Pacific Railroad Company.

Acknowledged: By J. W. Reinhart, president of the Atlantic & Pacific Railroad Company, as his free and voluntary act and deed by authority of the board of directors of said company, for the uses and purposes therein set forth, February 1, 1894, before A. R. Dillon, notary public, city of St. Louis, Mo. (Notarial seal.)

By J. W. Reinhart as receiver of the Atlantic & Pacific Railroad Company, acknowledging as such receiver, on same date and before same officer, with seal affixed.

Also by John J. McCook and J. C. Wilson, as receivers acknowledging as such, before same officer and on same date, but each separately. Seal to each acknowledgment.

By E. B. Perrin on January 22, 1894, as executed for the uses and purposes therein set forth, before Chas. D. Wheat, notary public, city and county of San Francisco, California, seal affixed.

By J. C. Brown as president of the Saginaw Lumber Company, reciting that he executed said instrument as his free and voluntary act by authority of the board of directors of said company for the uses and purposes therein set forth, January 16, 1894, before J. W. Donnelly, commissioner of deeds for Arizona, Cook Co., Ill., with seal affixed.

Jurat: Reciting that said instrument, in so far as it is a chattel mortgage, is bona fide and made without any design to defraud or delay creditors, made by Saginaw Lumber Co., by J. C. Brown, president; and separate jurat to same effect by Joseph W. Reinhart, president Atlantic & Pacific R. R. Company; John J. McCook, Joseph W. Reinhart, and Joseph C. Wilson, receivers, Atlantic & Pacific R. R.

Sworn to by Brown, Feb. 28, 1894, before Walter S. Harsha, notary public, Wayne Co., Mich., with seal affixed.

By Joseph W. Reinhart, Feb. 28, 1894, and Joseph C. Wilson, same date, both before Edgar P. H. West, notary public, Cook County, Ill., and by John J. McCook, March 2, 1894, before R. Damm, notary public, Kings County, N. Y. Certificate filed in N. Y. County. Seal duly affixed in each instance.

Recorded: March 23, 1901, at 9 a. m., in Book 1 of Agreements, pages 243–256, records of Coconino County, Arizona.

WARRANTY DEED: ATLANTIC AND PACIFIC RAILROAD COMPANY, A CORPORATION, TO EDWARD B. PERRIN, MARCH 10, 1894.

Consideration: $165,083.32.

Recitals: That Atlantic & Pacific Railroad Company is a corporation created by and doing business under the act of Congress approved July 27th, 1866, entitled "An act granting lands to aid in the construction of a railroad and telegraph line from the States of Missouri and Arkansas to the Pacific coast."

That said company acknowledges the receipt of $136,928.24 of the above named consideration, the balance to be paid by the Saginaw Lumber Company in accordance with the contract of January 5th, 1894, between the Atlantic & Pacific Railroad Company, Dr. E. B. Perrin and the Saginaw Lumber Company, and which has been adopted by the receivers of said railroad; and that it doth grant,

bargain, sell, and convey unto the said Edward B. Perrin the following described lands (and other lands not embraced in this abstract), situate in the County of Coconino and Territory of Arizona, to wit:

(Being the lands described in caption hereof, the following being described as not yet surveyed and estimated at 640 acres for each section i. e., all lands described in caption as situated in township 22 north, range 1 east; in township 19 north, range 2 east; in township 19 north, range 3 east; in township 20 north, range 4 east; in township 22 north, range 4 east.)

That the exact areas of unsurveyed lands are hereafter to be ascertained from the U. S. surveys when made, and other deeds conveying the same by more perfect descriptions, and for greater certainty, shall be made by the party of the first part to the party of the second part, or to his assigns, from time to time, as the lands are surveyed; and if when surveyed the lands do not contain the acreage estimated, the party of the first part will refund to the party of the second part for such shortage at the rate of 70¢. per acre, and if the acreage exceed the estimated amount, the party of the second part shall pay therefor at the rate of 70¢. per acre.

Excepting from this conveyance the right conveyed to the Saginaw Lumber Company by said Dr. E. B. Perrin in the contract of January 5th, 1894, between the said Atlantic & Pacific Railroad Company, said Dr. E. B. Perrin and the said Saginaw Lumber Company, a corporation organized and existing under the laws of the State of Illinois, and which contract has been adopted by the receivers, "being the right until January 12, 1926, to enter upon said lands and cut down trees and timber on said lands and to take and remove the same from said lands and dispose of same in the same manner and with the same rights and privileges as if the reservation of tree and timber rights to said railroad company in said contracts of sale with said E. B. Perrin had originally extended to January 12, 1926, and as if the tree and timber rights granted and conveyed to said J. C. Brown by said railroad company in the agreement of December 1, 1892, and assigned and granted and conveyed in turn by said J. C. Brown to the said Saginaw Lumber Company by the agreement of February 14, 1893, had originally extended to the 12th day of January, 1926, reserving to said E. B. Perrin, however, the right to use some of the small trees growing on said land for the purpose of fencing said land or for building ranch houses thereon."

Also, subject to the right of said Atlantic and Pacific Railroad Company, its receivers, successors, lessees, or assigns, to succeed to said right and interest of the Saginaw Lumber Company in case the latter fails to perform said contract. Reserving to said Atlantic and Pacific Railroad Company and its said receivers and successors, assigns and lessees, a lien, encumbrance, and mortgage upon all of the timber and trees upon said lands, to secure the performance of said contract. Reserving also to the said Atlantic and Pacific Railroad Company, its receivers and successors, assigns and lessees, all that portion of the land herein described (if there be any such) which lies within lines drawn parallel with and one hundred feet in width on each side of the center line of said railroad as now constructed or hereafter to be constructed, and any greater width when necessary permanently to include all their cuts, embankments, and ditches and other works necessary to secure and protect the main line of said railroad, and also

reserving the station grounds, if any there be, within the above-described lands. Also reserving the right of way for a pipe line or lines twenty feet in width also the right of way for an open ditch or ditches fifty feet in width and any greater width where necessary to permanently include all cuts, fills, and embankments and other works necessary to secure and protect said pipe and ditch lines constructed, or to be constructed, for the purpose of conveying water for the use or uses of said Atlantic and Pacific Railroad from any spring, creek, or river, or from any well or reservoir or other source of water supply which it has now, or may hereafter construct or acquire.

Habendum, tenendum, and lawful seizure covenants and clauses; also freedom from incumbrances, except such parts or portions as may have been lawfully appropriated to public roads and highways or other public uses and except as otherwise herein stated. Warranty clause, general. "In witness whereof the said Atlantic & Pacific Railroad Company has executed this instrument by its officers thereunto duly authorized this tenth day of March, 1894."

(Signed) ATLANTIC AND PACIFIC RAILROAD COMPANY,
By J. W. REINHART, *Its President.*

Attest:
H. W. GARDINER, *Secretary.*
(Corporate seal.)

Approval and ratification of the foregoing deed affixed by the receivers of the property of the Atlantic & Pacific Railroad Company, releasing and relinquishing to said Edward B. Perrin their right and interest as receivers of the property described therein conveyed by the Atlantic & Pacific Railroad Company to said Edward B. Perrin, subject to all the provisions, conditions, liens, mortgages, and requirements contained in the foregoing deed.

(Signed) J. W. REINHART,
JOHN J. MCCOOK,
J. C. WILSON,
Receivers of the Property of the Atlantic & Pacific Railroad Company.

WARRANTY DEED: ATLANTIC AND PACIFIC RAILROAD COMPANY, INCORPORATED BY AN ACT OF CONGRESS APPROVED JULY 27, 1866, TO EDWARD B. PERRIN, MARCH 10, 1894.

Consideration: $165,083.32; paid by Perrin, $136,928.24; balance to be paid by Saginaw Lumber Co.

Words of grant: Grant, bargain, sell, and convey; forever warrant and defend.

Property conveyed: All those tracts, pieces, and parcels of land, situate in the counties of Coconino, Yavapai, and Mohave, and Territory of Arizona, to wit:

Section 1, 642.94 acres; section three (3), 641.44 acres; and section twenty-five (25), 640 acres, of township twenty (20) north, range one (1) east.

The northwest quarter and south one-half of section one (1), 490.51 acres; section three (3), 658.25 acres; section five (5), 653.90 acres; section seven (7), 639.93 acres; section nine (9), 640 acres;

section eleven (11), 640 acres; section thirteen (13), 640 acres; section fifteen (15), 640 acres; section seventeen (17), 640 acres; section nineteen (19), 637.20 acres; section twenty-one (21), 640 acres; section twenty-three, 640 acres; section twenty-five (25), 640 acres; section twenty-seven (27), 640 acres; section twenty-nine (29), 640 acres; section thirty-one (31), 638.88 acres; section thirty-three (33), 640 acres; and section thirty-five (35), 640 acres, of township twenty-one (21) north, range one (1) east.

Section one (1) 641.62 acres; section three (3) 640.86 acres; section five (5) 640.18 acres; section seven (7) 631.32 acres; section nine (9) 640 acres; section eleven (11) 640 acres; section thirteen (13) 640 acres; section fifteen (15) 640 acres; section seventeen (17) 640 acres; section nineteen (19) 634.16 acres; section twenty-one (21) 640 acres; section twenty-three (23) 640 acres; section twenty-five (25) 640 acres; section twenty-seven (27) 640 acres; section twenty-nine (29) 640 acres; section thirty-one (31) 637.70 acres; section thirty-three (33) 640 acres; and section thirty-five (35) 640 acres, of township twenty-one north, range two (2) east.

Section one (1) 639.62 acres; section three (3) 638.88 acres; section five (5) 641.30 acres; section seven (7) 630.86 acres; section nine (9) 640 acres; section eleven (11) 640 acres; section thirteen (13) 640 acres; section fifteen (15) 640 acres; section seventeen (17) 640 acres; section nineteen (19) 628.32 acres; section twenty-one (21) 640 acres; section twenty-three (23) 640 acres; section twenty-five (25) 640 acres; section twenty-seven (27) 640 acres; section thirty-one (31) 632.02 acres; and section thirty-five (35), 640 acres, of township twenty-two (22) north, range two (2) east; also sec. 29 (640 acres) and NE. ¼ and S. ½ of sec. 33, T. 22 N., R. 2 east.

The northwest quarter (¼) and south half (½) of section (1) 480.36 acres; section three (3) 639.46 acres; section five (5) 640.12 acres; section seven (7) 638.40 acres; section nine (9) 640 acres; section eleven (11) 640 acres; section thirteen (13) 640 acres; section fifteen (15) 640 acres; section sevente n (17) 640 acres; section nineteen (19) 638.60 acres; section twenty-one (21) 640 acres; section twenty-three (23) 640 acres; section twenty-five (25) 640 acres; section twenty-seven (27) 640 acres; section twenty-nine (29) 640 acres; section thirty-one (31) 639.56 acres; section thirty-three (33) 640 acres; and section thirty-five (35) 640 acres, of township twenty-one (21) north, range three (3) east.

acres; section twenty-seven (27) 640 acres; section twenty-nine (29) 640 acres; section thirty-one (31) 628.32 acres; section thirty-three (33) 640 acres; and section thirty-five (35) 640 acres, of township twenty-three (23) north, range three (3) east.

Section one (1) 639.38 acres; section three (3) 639.12 acres; section five (5) 639.96 acres; section seven (7) 637.88 acres; section nine (9) 640 acres; section eleven (11) 640 acres; section thirteen (13) 640 acres; section fifteen (15) 640 acres; section seventeen (17) 640 acres; section nineteen (19) 639.08 acres; section twenty-one (21) 640 acres; section twenty-three (23) 640 acres; section twenty-five (25) 640 acres; section twenty-seven (27) 640 acres; section twenty-nine (29) 640 acres; section thirty-one (31) 639.56 acres; section thirty-three (33) 640 acres; and section thirty-five (35) 640 acres, of township twenty-one north, range four (4) east.

Section one (1), 641.06 acres; section three (3), 638.50 acres; section five (5), 642.42 acres; section seven (7), 627.86 acres; section nine (9), 640 acres; section eleven (11), 640 acres; section thirteen (13), 640 acres; section fifteen (15), 640 acres; section seventeen (17), 640 acres; section nineteen (19), 626.08 acres; section twenty-one (21), 640 acres; section twenty-three (23), 640 acres; section twenty-five (25), 640 acres; section twenty-seven (27), 640 acres; and section twenty-nine (29), 640 acres, of township twenty-three (23) north, range four (4) east.

All of the above-described lands lie north and east of the Gila and Salt River principal base line and meridian.

Also the following lands that have not been surveyed into sections, estimated to contain 96,640 acres. If when all of the unsurveyed sections hereinafter described shall have been surveyed and it is found they do not contain in the aggregate 96,640 acres, then, and in that event, first party will refund second party at the rate of 70¢ per acre, for each acre less than 96,640 acres; and if there shall be found to be more than said amount, party of second part shall pay first party 70¢ per acre for each acre in excess; each section and part of section estimated to contain 640 acres.

Section one (1), 640 acres; section three (3), 640 acres; section five (5), 640 acres; section seven (7), 640 acres; section nine (9), 640 acres; section eleven (11), 640 acres; section thirteen (13), 640 acres; section fifteen (15), 640 acres; section seventeen (17), 640 acres; section nineteen (19), 640 acres; section twenty-one (21), 640 acres; section twenty-three (23), 640 acres; section twenty-five (25), 640 acres; section twenty-seven (27), 640 acres; section twenty-nine (29), 640 acres; section thirty-one (31), 640 acres; section thirty-three (33), 640 acres; and section thirty-five (35), 640 acres, of township twenty-two north, range one (1) east.

Section one (1), 640 acres; section three (3), 640 acres; section eleven (11), 640 acres, of township nineteen (19) north, range two (2) east.

Section one (1), 640 acres; section three (3), 640 acres; section five (5), 640 acres; section seven (7), 640 acres; section nine (9), 640 acres; section eleven (11), 640 acres; section thirteen (13), 640 acres; section fifteen (15), 640 acres; section seventeen (17), 640 acres; section nineteen (19), 640 acres; and section thirty-one (31), 640 acres, of township twenty (20) north, range three (3) east.

Section seven (7), 640 acres, in township nineteen (19) north, range three (3) east.

Section one (1), 640 acres; section three (3), 640 acres; section five (5), 640 acres; section seven (7), 640 acres; section nine (9), 640 acres; section eleven (11), 640 acres; section thirteen (13), 640 acres; section fifteen (15), 640 acres; section seventeen (17), 640 acres; section nineteen (19), 640 acres; section twenty-one (21), 640 acres; section twenty-three, (23), 640 acres; section twenty-five (25), 640 acres; section twenty-seven (27), 640 acres; section twenty-nine (29), 640 acres; section thirty-three (33), 640 acres; and section thirty-five (35), 640 acres, of township twenty (20) north, range two (2) east.

Section nineteen (19), 640 acres; section twenty-one (21), 640 acres; section twenty-three (23), 640 acres; section twenty-five (25), 640 acres; section twenty-seven (27), 640 acres; section twenty-nine (29), 640 acres; section thirty-one (31), 640 acres; section thirty-three (33), 640 acres; and section thirty-five (35), 640 acres, of township twenty-two (22), north, range 4 east.

All of the above-described lands lie north and east of the Gila and Salt River principal base line and meridian.

(Also secs. 7 and 17, township 20 north, range 4 east, 640 acres each.) (Also certain other property.)

Excepting from this conveyance the right conveyed to the Saginaw Lumber Company by said Dr. E. B. Perrin in the contract of January 5th, 1894, between the said Atlantic and Pacific Railroad Company, said Dr. E. B. Perrin and the said Saginaw Lumber Company, a corporation organized and existing under the laws of the State of Illinois, and which contract has been adopted by the receivers, "being the right until January 12, 1926, to enter upon said lands and cut down trees and timber on said lands and to take and remove the same from said lands and dispose of the same in the same manner and with the same rights and privileges as if the reservation of tree and timber rights to said railroad company in said contracts of sale with said E. B. Perrin had originally extended to January 12, 1926, and as if the tree and timber rights conveyed, granted and conveyed to said J. C. Brown by said railroad company in the agreement of December 1, 1892, and assigned, granted, and conveyed in turn by said J. C. Brown to the said Saginaw Lumber Company by the agreement of February 14, 1893, had originally extended to the 12th day of January, 1926, reserving to said E. B. Perrin, however, the right to use some of the small trees growing on said land for the purpose of fencing said land or for building ranch houses thereon." And subject to the right of said Atlantic and Pacific Railroad Company, its receivers, successors, lessees, or assigns to succeed to said right and interest of the Saginaw Lumber Company in case the latter fails to perform said contract.

Reserving also to the said Atlantic and Pacific Railroad Company, its said receivers and successors, assigns and lessees (if there be any such), which lies within lines drawn parallel with and one hundred feet in width on each side of the center line of said railroad, as now constructed or hereafter to be constructed, and any greater width where necessary permanently to include all their cuts, embankments, and ditches, and other works necessary to secure and protect the main line of said railroad, and also reserving the station grounds, if any there be, within the above-described lands.

Also reserving the right of way for a pipe line or lines twenty-five feet in width; also for the right of way for an open ditch or ditches fifty feet in width and any greater width where necessary to permanently include all cuts, fills, and embankments and other works necessary to secure and protect said pipe line and ditch lines constructed or to be constructed for the purpose of conveying water for the use or uses of said Atlantic and Pacific Railroad from any spring, creek, or river, or from any well or reservoir or other source of water supply which it has now or may hereafter construct or acquire.

And the said Atlantic and Pacific Railroad Company doth hereby covenant with the said E. B. Perrin, his heirs and assigns, that it is lawfully seized of the premises aforesaid; that said premises are free and clear of all incumbrance whatsoever, except such parts or portions as may have lawfully been appropriated to public roads and highways or other public uses and except as otherwise herein stated.

(Signed:) ATLANTIC AND PACIFIC RAILROAD COMPANY.
[SEAL.] By J. W. REINHART, *its President.*

Attest:
H. M. GARDNER, *Secretary.*

Joseph W. Reinhart, John J. McCook and Joseph C. Wilson, receivers of the property of the Atlantic and Pacific Railroad Company, hereby approve and ratify the foregoing deed and release, and relinquish to said Edward B. Perrin their right and interest as receivers of the property described therein, conveyed by the Atlantic and Pacific Railroad Company to said Edward B. Perrin, subject to all the provisions, conditions, liens, mortgages and requirements contained in the foregoing deed.

Dated: March 10th, 1894.

(Signed:) J. W. REINHART,
JOHN J. MCCOOK,
J. C. WILSON,
Receivers of the property of the Atlantic and Pacific Railroad Company.

Acknowledged: By J. W. Reinhart, as president of Atlantic and Pacific Railroad Company, before Frank H. Hamilton, notary public, New York State and County, on April 19th, 1894. Commission expires March 30th, 1896. (Seal.)

Acknowledged: By J. W. Reinhart, as a receiver of the property of the Atlantic and Pacific Railroad Company, before Frank H. Hamilton, notary public, State and County of New York, on April 19th, 1894. Commission expires March 30th, 1896. (Seal.)

Acknowledged: By John J. McCook, as a receiver of the property of the Atlantic and Pacific Railroad Company, before Frank H. Hamilton, notary public, State and County of New York, on April 19th, 1894. Commission expires March 30th, 1896. (Seal.)

Acknowledged: By J. C. Wilson, as a receiver of the property of the Atlantic and Pacific Railroad Company, before Geo. W. Holmes, notary public in and for Shawnee County, Kansas, on April 30th, 1894. Commission expires Dec. 8, 1894. (Seal.)

Certificate of J. A. Williamson, land commissioner of the Atlantic and Pacific Railroad Company, bearing date March 10th, 1894, to the effect that the price named in the foregoing deed is just and reasonable.

"The Mercantile Trust Company, trustee, under the second mortgage, dated September 1st, A. D. 1897, executed and delivered to it by the said Atlantic and Pacific Railroad Company, in consideration of $689.06 and interest (being the balance of the proceeds of sale of the above conveyed premises) to be paid by the said Railroad Company to the United States Trust Company of New York, trustee, under the first mortgage, does as such trustee under said second mortgage, hereby release and forever discharge the hereinbefore conveyed premises from the lien and incumbrance created thereon by the said second mortgage."

Dated: June 25th, 1894.

(Signed:) THE MERCANTILE TRUST COMPANY, *Trustee.*
[SEAL.] By E. L. MONTGOMERY, *Vice President.*
Attest:
H. C. DEMING, *Secretary.*

Acknowledged: By E. L. Montgomery and H. C. Deming, as vice president and secretary, respectively, of the Mercantile Trust Company, of New York, before William H. Clarkson, commissioner of deeds for the Territory of Arizona, in the city of New York, State and County, on July 3rd, 1894. (Seal.)

"United States Trust Company of New York, trustee, under the first mortgage, dated July 1st, 1880, executed and delivered to it by the said Atlantic and Pacific Railroad Company, in consideration of $689.06 & interest, being the balance of the proceeds of sale of the above conveyed premises, to be to it paid by the said railroad company, does as such trustee under said first mortgage, hereby release and forever discharge the hereinbefore conveyed premises from the lien and encumbrance created therein by the said first mortgage."

Dated: June 22nd, 1894.

(Signed:) UNITED STATES TRUST COMPANY OF NEW YORK, *Trustee.*
By J. S. CLARK, *2 V. P.*
Attest:
H. L. TORVELLE, *Secretary.*

Acknowledged: By James S. Clark and Henry L. Thorvelle, as 2d vice president and secretary, respectively, of the United States Trust Company of New York, before Edwin F. Corey, commissioner of deeds for the Territory of Arizona, residing in New York City, County and State, on June 22d, 1894. (Seal.)

Recorded: Dec. 10th, A. D. 1894, at 10.25 o'clock A. M. in Book 36 of Deeds, pages 494 to 519, Records of Yavapai County, Arizona.

RELEASE AND SATISFACTION OF MORTGAGE: THE FARMERS LOAN AND TRUST COMPANY TO ARIZONA LUMBER AND TIMBER COMPANY, MARCH 14, 1894.

Recites: Whereas the Arizona Lumber and Timber Company, a corporation duly organized and existing under and by virtue of the laws of Arizona, did make and execute and deliver unto the Farmers Loan and Trust Company, a corporation duly organized and existing under and by virtue of the laws of New York State, for the purpose of securing the payment of a series of bonds to an amount of $500,000, a certain indenture of mortgage or deed of trust, dated February 10th, 1890. Recorded in the office of the county recorder of Yavapai County, Arizona, in Book 5 of Mortgages, pages 352 to 365, inclusive, on March 1st, 1890; and

Whereas no bonds secured by said mortgage were ever certified by the party of the first part hereto, but all the bonds intended to be so secured have been canceled;

Now, therefore, the party of the first part does hereby consent that the said mortgage or deed of trust be discharged of record.

And the said party of the first part, in consideration of $1.00 does by these presents remise, release, and quit-claim unto the second party and to its successors and assigns forever, all the property and premises, real and personal, of every part and description in the said mortgage or deed of trust mentioned and described.

(Signed) THE FARMERS LOAN AND TRUST COMPANY,
[SEAL.] By W. D. SEARLS, *Vice President.*

Attest:
E. S. MARSTON, *Secretary.*

Acknowledged: By Whittlesey D. Searls, vice president of the Farmers Loan and Trust Company, before A. B. Cordoz, notary public No. 45, New York City, County and State, on March 14th, 1894. (Seal.) (Seal.)

Recorded: March 23rd, A. D. 1894, at 9.00 o'clock a. m., in Book 8 of Mortgages, pages 380 et seq., records of Yavapai County, Arizona.

CONTRACT: THE ATLANTIC AND PACIFIC RAILROAD COMPANY TO J. M. DENNIS; OCTOBER 15, 1896.

Consideration: $1.25 per thousand feet, board measure.

Recitals: That party of the first part is a corporation duly organized under act of Congress approved July 27, 1866, and similar recitals to the contract made with Charles A. and E. Greenlaw abstracted herein at pages 5 and 6; this contract covering timber on sections 33 and 35, township 23 N., range 4 east; and on sections 3, 5, 7, 9, 13, 15, and 17, township 22 north, range 4 east.

(Signed) THE ATLANTIC AND PACIFIC RAILROAD COMPANY,
By ALDACE F. WALKER, *President.*
J. M. DENNIS.

Attest:
H. W. GARDINER, *Secretary.* (Corporate Seal.)

Indorsements: The indorsements upon this contract are similar to those which occur upon the contract made with Charles A. and E. Greenlaw, being dated as follows:

Certificate of C. N. Sterry, acting land commissioner, dated October 18, 1896.

Release made by United States Trust Company, dated November 11, 1896.

Release made by Mercantile Trust Co., dated November 20, 1896.

Certificate by C. W. Smith, receiver, etc., dated October 15, 1896.

Acknowledged: By both officers of A. & P. R. R. Co., October 29, 1896, before D. J. Sheehan, notary public, New York Co., N. Y. (Seal.)

By other two companies by same officers, before same officers, and on same dates as acknowledgments to Greenlaw contract. Seal to all acknowledgments, and similar recitals as in acknowledgments to Greenlaw contracts.

Recorded: April 5th, 1897, at 11.25 a. m., in Book 1 of Agreements, pages 84–95, records of Coconino County, Arizona.

Remarks: This contract assigned to Santa Fe Pacific R. R. Co., except certain water rights (see page 10 hereof).

WARRANTY DEED; GREENLAW BROTHERS TO GREENLAW LUMBER COMPANY; DECEMBER 14, 1896.

Consideration: One dollar.

Recitals: That Chas. A. Greenlaw and E. F. Greenlaw, copartners doing business under the firm name and style of Greenlaw Brothers, does grant, sell, and convey to Greenlaw Lumber Company the property herein described:

(Here follows description of property, including agreement that "all contracts of every kind and nature, now existing and in force between the said parties of the first part and any other parties whomsoever, whether for the purchase of timber by said first parties or for lumber to be cut and furnished by them, or logging contracts, are to inure and succeed to the said party of the second part, together with all the rights and equities incident to and connected with the said contracts, as fully to all intents and purposes as though the said party of the second part were originally such party to said contracts as the said first parties now are.")

Habendum, tenendum, and subscription clauses, also warranty clause.

(Signed.) CHAS. A. GREENLAW.
E. F. GREENLAW.

Acknowledged: March 30, 1897, before Chas. H. Edwards, notary public, Coconino County, Arizona. (Seal.)

Recorded: April 2, 1897, at 9 a. m., in Book 4 of Deeds, pages 254–256 records of Coconino County, Arizona.

ASSIGNMENT OF AGREEMENT; THE GREENLAW LUMBER COMPANY TO ARIZONA LUMBER AND TIMBER COMPANY; OCTOBER 30, 1897.

Consideration: One dollar.

Recitals: That Greenlaw Lumber Company and Arizona Lumber and Timber Company are both corporations organized under the laws of Arizona.

Recites and refers to contract made between Greenlaw Brothers and the Atlantic and Pacific Railroad Company, hereinbefore abstracted, at pages —

That said contract was binding upon and should inure to the benefit of the successors and assigns of said Greenlaw Bros.; that same was on August 13th, 1896, assigned to the party of the first part herein.

That said party of the first part hereby sells, assigns, and transfers said contract of sale to the said party of the second part herein, together with all right, title, interest, claim, etc.

Habendum clause and recital that party of the first part has caused these presents to be signed by its president and attested by its secretary, and its corporate seal placed thereon.

(Signed.) THE GREENLAW LUMBER COMPANY,
By T. A. RIORDAN, *President.*
M. J. RIORDAN, *Secretary.*

(Corporate seal.)

Acknowledgment: Made Dec. 11, 1902, by both officers of said company, acknowledging that they executed said instrument voluntarily and as the free act and deed of said company, under due authority from its by-laws, etc., before James L. Byrnes, notary public, Coconino County, Arizona. (Notarial seal.)

Recorded: December 12, 1902, at 9 a. m., in Book 1 of Assignments, pages 88–89, records of Coconino County, Arizona.

CONTRACT: THE ATLANTIC AND PACIFIC RAILROAD COMPANY TO CHARLES A. GREENLAW AND E. GREENLAW; AUGUST 13, 1898.

Consideration: $1.25 per thousand feet, board measure.

Recitals: The granter is a corporation duly organized by act of Congress approved July 27, 1866, and that said Charles A. Greenlaw and E. Greenlaw are doing business in the name of Greenlaw Brothers.

That said R. R. Co. is the owner of certain timber, the number of feet on each section and part of section being estimated as follows:

IN TOWNSHIP 21 NORTH, RANGE 6 EAST.

	Feet.
SW. ¼ of sec. 17	110,000
All of sec. 19	220,000
Part of sec. 21	40,000
All of sec. 29	275,000
All of sec. 31	470,000
All of sec. 33	155,000

IN TOWNSHIP 21 NORTH, RANGE 5 EAST.

	Feet.
All of sec. 9	3,060,000
All of sec. 13	2,885,000
All of sec. 15	805,000
All of sec. 17	880,000
All of sec. 21	5,955,000
All of sec. 23	4,235,000
All of sec. 25	2,530,000
All of sec. 27	6,150,000
All of sec. 29	6,785,000
All of sec. 31	4,335,000
All of sec. 33	6,600,000
All of sec. 35	6,125,000

That it is agreed that said estimate is correct and said R. R. Co. agrees to sell, transfer, and convey to said parties of the second part, and they agree to buy said timber at the above-mentioned price, to be paid for within ten years under agreed terms, and payment may be made in material under certain provisions set out in contract.

If second parties fail or quit work and go out of business or either one for six months, or if they fail to make payments as required hereunder, said timber rights, etc., shall revert and reinvest in the railroad company.

Right to enter and work on said lands while removing timber therefrom, also easements granted for logging roads and spur tracks, use of any springs or water tanks as necessary.

Parties of the first part reserve the right to sell or lease said lands, subject to this contract.

Contract to remain in force for ten years, and shall bind and inure to the successors and assigns of said party of the first part and purchasers of the property of the first party under foreclosure suit or by conveyance and shall bind and inure to the successors or assigns and representatives of the parties of the second part.

Executed in quadruplicate.

($1 documentary evidence stamp, canceled.)

Acknowledged: October 31, 1899, before G. G. Wharton, notary public, in Coconino County, Arizona, containing recital that said officers acknowledged said instrument as the free act and deed of said corporation, and affixed thereto the seal of said corporation. (Notarial seal.)

Recorded: Feby. 20, 1901, at 9 a. m. in Book 9 of Deeds, pages 180–181, records of Coconino County, Arizona.

DEED: SAGINAW LUMBER COMPANY TO SAGINAW AND MANISTEE LUMBER COMPANY, DECEMBER 7, 1899.

Consideration: $200,000.

Recitals: That Saginaw Lumber Company, a corporation of the State of Illinois, for above consideration, does grant, bargain, sell, and convey unto said Saginaw and Manistee Lumber Company, a corporation of the State of Michigan, its successors and assigns, all real estate now owned or held by first party in Coconino County, Arizona, including and herein conveying all of the pine timber and timber rights granted and conveyed to John C. Brown by the Atlantic and Pacific Railroad Company, a corporation duly organized under act of Congress approved July 27th, 1866, by a contract of conveyance bearing date the 1st day of December, 1892, and which said timber rights so granted and conveyed to said John C. Brown, was by him sold and assigned to the Saginaw Lumber Company on the 14th day of February, A. D. 1893, which said sale to the said Saginaw Lumber Company was ratified and confirmed by an agreement in triplicate dated the 5th day of January, 1894, made between the Atlantic and Pacific Railroad Company, party of the first part, Doctor E. B. Perrin, of the county of San Francisco and State of California, party of the second part, and the Saginaw Lumber Company, party of the third part, said pine timber standing, lying, and being upon the lands particularly described in a warranty deed made on the 10th day of March, A. D. 1894, between the Atlantic and Pacific Railroad Company as grantors and parties of the first part to Edward B. Perrin, of the county of San Francisco and State of California, as party of the second part, and the title to which said timber and timber rights was confirmed to the said Saginaw Lumber Company, its successors and assigns forever, by an instrument of conveyance and release made and executed on the 29th day of December, A. D. 1898, wherein the Santa Fe Pacific Railroad Company is successor and party of the first part and grantor, and the Saginaw Lumber Company is party of the second part and grantee, subject, however, to a limitation as to the time within which said timber should be removed from said lands contained in the contract of January 5th, A. D. 1894, said right to remove being limited to the 12th day of January, 1926, by said agreement, which said deed of conveyance was duly recorded in the records of Coconino County, Arizona, in book 1 at pages 102 to 105, inclusive.

Also conveys other property not embraced in this abstract. Habendum, tenendum, and freedom from incumbrances covenants.

In witness whereof, the party of the first part, being first thereunto duly authorized, have caused their common seal to be hereunto affixed and these presents to be signed by their president and attested by their secretary the day and year first above written.

RESOLUTIONS OF BOARD OF DIRECTORS OF ARIZONA LUMBER AND TIMBER COMPANY, MAY 19, 1902.

On motion of M. J. Riordan, seconded by T. A. Riordan, the following resolution was unanimously adopted:

Whereas, on the 19th day of December, 1889, the Arizona Lumber Company did make and enter into a contract with The Arizona Cattle Company for cutting and removing the timber from certain lands described in said contract; which said contract duly appears of record in the public reports of Yavapai County, Territory of Arizona, in Book

2 of Agreements, at pages 69 to 79, and to which reference is hereby made for greater certainty;

And whereas, the said lands and timber in said contract mentioned and described, are situated in the county of Coconino, Territory of Arizona, which has since the making of said contract been created out of the county of Yavapai aforesaid;

And whereas, the Arizona Lumber Company did, on the 25th day of January, 1890, assign said contract to the Arizona Lumber and Timber Company as was provided in said agreement or contract so made on the 19th day of December, 1889, aforesaid, it might do;

And whereas, The Arizona Cattle Company did, on the 22nd day of September, 1892, serve upon the Arizona Lumber and Timber Company a written notice rescinding said contract, and in which recession and abrogation of the said contract, the said Arizona Lumber and Timber Company duly and regularly acquiesced and to which it agreed;

And whereas, no formal instrument of release of said contract has ever been executed;

And whereas, William F. Baker of Manistee, Michigan, is now the owner of a portion of said lands and timber and the Saginaw and Manistee Lumber Company, a corporation, is the owner of the remainder thereof;

And whereas, the said contract constitutes a cloud upon the titles of the said William F. Baker and the said Saginaw & Manistee Lumber Company, a corporation, to said lands and timber;

Now, therefore, be it resolved by the board of directors of the Arizona Lumber and Timber Company, That it does hereby release all the rights which it acquired by the assignment to it of the said contract, as hereinbefore set forth, and that the president and secretary of the said Arizona Lumber and Timber Company be, and they are hereby, authorized, empowered, and directed, to make, execute, and deliver to the said William F. Baker and to the said Saginaw and Manistee Lumber Company, a corporation, for and on behalf of the said Arizona Lumber and Timber Company, deeds of release in writing of the said contract and of all right, title, and interest of the said Arizona Lumber and Timber Company to all the said lands and timber; and to affix to said release the corporate seal of said Arizona Lumber and Timber Company.

* * * * * * *

I, M. J. Riordan, secretary of the Arizona Lumber and Timber Company, a corporation, do hereby certify the above and foregoing to be a true, complete, and correct copy of the resolution adopted by the board of directors of the said Arizona Lumber and Timber Company, at a meeting of said board, held at the office of said company on the 19th day of May, A. D. 1902.

Witness my hand and the seal of said company, this 19th day of May, A. D. 1902.

(Corporate seal.) M. J. Riordan,
Secretary Arizona Lumber and Timber Company.

Recorded: May 20th, 1902, at 9 o'clock a. m., in Book 1 of Promiscuous, pages 263 and 264, Records of Coconino County, Arizona.

Recorded: June 4th, 1902, at 10 o'clock a. m., in Book 11 of Promiscuous, pages —, Records of Yavapai County, Arizona.

DEED OF RELINQUISHMENT: ARIZONA LUMBER AND TIMBER COMPANY TO WILLIAM F. BAKER AND SAGINAW AND MANISTEE LUMBER COMPANY.

Recites: That whereas at a meeting of the board of directors of the Arizona Lumber and Timber Company, a corporation, as hereinafter recited, held at its office in Flagstaff, Coconino County, Arizona, on the 19th day of May, A. D. 1902, which said meeting was duly and regularly called, and at which a majority of the board of directors of said company was present, the following resolution was adopted unanimously upon motion duly put, seconded, and carried, to wit:

Whereas on the 19th day of Dec., 1889, the Arizona Lumber Company did make and enter into a contract with the Arizona Cattle Company for cutting and removing the timber from certain lands described in said contract, which said contract duly appears of record in Book 2 of Agreements, pages 69 to 79.

And whereas the said lands and timber in said contract mentioned and described are situated in the County of Coconino, Arizona, which has, since the making of said contract, been created out of the county of Yavapai;

And whereas the Arizona Lumber Company did on the 25th day of Jan., 1890, assign said contract to the Arizona Lumber and Timber Company;

And whereas the Arizona Cattle Company did, on the 22nd day of September, 1892, serve upon the Arizona Lumber and Timber Company a written notice rescinding said contract and in which recision and abrogation the said Arizona Lumber and Timber Company duly agreed;

And whereas no formal instrument of release on said contract has ever been executed;

And whereas William F. Baker is now the owner of a portion of said lands and timber, and the Saginaw and Manistee Lumber Company, a corporation, is the owner of the remainder thereof;

And whereas the said contract constitutes a cloud upon the titles of the said William F. Baker and the said Saginaw and Manistee Lumber Company, a corporation, to said lands and timber:

Now, therefore, be it resolved by the board of directors of the Arizona Lumber and Timber Company, That it does hereby release all the rights which it acquired by the assignment to it of the said contract as hereinbefore set forth, and that the president and secretary of the said Arizona Lumber and Timber Company be, and they are hereby, authorized and empowered and directed to make, execute, and deliver to the said William F. Baker and to the said Saginaw and Manistee Lumber Company deeds of release in writing of said contract and of all right, title, and interest of the said Arizona Lumber and Timber Company to all the said lands and timber.

Now, therefore, in pursuance of the said resolution and by virtue of the authority by it conveyed, the Arizona Lumber and Timber Company, in consideration of the premises and of the sum of one dollar to it paid by the Saginaw and Manistee Lumber Company, does hereby release, relinquish, and quit-claim unto the said party of the second part, its successors and assigns all its right, title, and interest in and to the said contract of Dec. 19, 1889, aforesaid, which it

acquired by the assignment to it of the same, and all right, title, and interest to all the lands and timber in said contract mentioned and described.

Dated: May 19th, 1902.

Acknowledged: For said above company, by said president and secretary, before James L. Byrnes, notary public, Coconino County, Arizona, on May 19th, 1902. (Seal.) Com. expires Jan. 19th, 1906.

Recorded: June 2, 1902, at 8.40 o'clock a. m. in Book 11 of Deeds, pages 94–96, Records of Coconino County, Arizona.

Recorded: June 4, 1902, at 10 o'clock a. m. in Book 60 of Deeds, pages 502–506 Records of Yavapai County, Arizona.

QUITCLAIM DEED AND RELEASE: SAGINAW AND MANISTEE LUMBER COMPANY TO EDWARD B. PERRIN, AUGUST 5, 1902.

Consideration: One dollar.

Recitals: That the Saginaw and Manistee Lumber Company, a corporation organized and existing under the laws of the State of Michigan, pursuant to the authority conferred by its by-laws, and with the full knowledge and consent of the board of directors of said company, authorizing this conveyance, by quit claim and release, to be executed by its president and attested by its secretary and the affixing of its corporate seal, of the land hereinafter described; the party of the first part aforesaid does remise, release, and quit claim to party of second part all right, title, and interest in and to the following described lands situated in Coconino County, Arizona, to wit:

Sections one, three, five, seven, nine, eleven, thirteen, fifteen, seventeen, nineteen, twenty-one, twenty-three, twenty-five, twenty-seven, twenty-nine, thirty-one, thirty-three, thirty-five (being each of the odd-numbered sections), in each of the following towns, viz: Towns twenty, twenty-one, twenty-two, and twenty-three north, of range one west, and towns twenty-three north, of ranges one and two east, of Gila and Salt River meridian in the Territory of Arizona, aforesaid; together with the first party's right, title and interest in and to all the timber lying, standing, being or growing on said lands or any part thereof.

Habendum and tenendum clause, etc., and recital that party of the first part has caused these presents to be signed by William F. Baker, its president, attested by William B. Mershon, its secretary, and its corporate seal to be affixed, all for and on its behalf.

ASSIGNMENT OF CONTRACT: J. M. DENNIS AND A. H. DENNIS, HIS WIFE, TO SANTA FE PACIFIC RAILROAD COMPANY, AUGUST 15, 1902.

Consideration: A valuable consideration.

Recitals: That said J. M. Dennis and A. H. Dennis, his wife, do assign, transfer, and set over to said R. R. Co. all their right, title, and interest in and to a contract dated the 15th day of October, 1886, made by the Atlantic and Pacific Railroad Company with the said J. M. Dennis and recorded in Book One of Agreements at pages 84 to 95, inclusive, in the records of Coconino County, Arizona, reserving, however, to the said J. M. Dennis the right to use the water mentioned in said contract until October 15th, 1906. The land upon which said water is situated is described as follows: The east (½) half of the northwest (¼) quarter of section (15), and the south half (½) of the southeast quarter (¼) of section 17, township 22 north, range 4 east, Gila and Salt River base and meridian, and being a portion of the lands described in said contract which is hereby assigned.

(Signed.) J. M. Dennis.
A. H. Dennis.

Acknowledged: By both assignors, August 15, 1902, before P. B. Champagne, Notary Public, Coconino County, Arizona. (Notarial seal.)

Recorded: September 2, 1902, at 1 p. m., in Book 1 of Assignments, pages 72–73, records of Coconino County, Arizona.

RELEASE OF TIMBER RIGHTS: SAGINAW & MANISTEE LUMBER COMPANY TO EDWARD B. PERRIN, SEPTEMBER 13, 1902.

Consideration: One dollar.

Recitals: That Saginaw & Manistee Lumber Company, a corporation organized and existing under the laws of the State of Michigan, for the above consideration, does bargain, grant, release, and quit claim to Edward B. Perrin, his heirs and assigns, all its right, title, interest, claim, or demand in and to the trees and timber situate, lying, or standing on the following described pieces or parcels of land in Coconino County, Arizona, acquired by the party of the first part by an instrument dated December 7, 1899, executed by the Saginaw Lumber Company, a corporation then existing under the laws of the State of Illinois, to the party of the first part, recorded in Book 9 of Deeds, pages 247–250, records of Coconino County, Arizona.

All of the lands herein described lie north and east of the Gila and Salt River base line and meridian.

West half of section three and entire section twenty-five, in township twenty north, range one east.

The west half of southeast quarter of section one, west half of section five, section seven, south half of northwest quarter and north half of southwest quarter, southwest quarter of northwest quarter, and northwest quarter of southeast quarter of section nine, section eleven, east half of northeast quarter, and the southeast quarter of section seventeen; sections nineteen, twenty-one, twenty-nine, and thirty-one, north half of southwest quarter and northwest quarter of

southeast quarter of section thirty-three, in township twenty-one north, range one east.

Sections one, three, five, seven, nine, eleven, thirteen, fifteen, seventeen, nineteen, and twenty-one; the northeast quarter, west half of northwest quarter, southwest quarter, northeast quarter of section twenty-three; section twenty-five, southeast quarter of northeast quarter, west half of northeast quarter, northwest quarter, and north half of south half of section twenty-seven; sections twenty-nine, thirty-one, and thirty-three; south half of northeast quarter, southeast quarter of northwest quarter, east half of east half of southwest quarter, and southeast quarter of section thirty-five, in township twenty-two, range one east.

West half and southeast quarter of section three and south half of southeast quarter of section eleven, in township nineteen north, range two east.

Section one, northwest quarter of northwest quarter of section three, section eleven, west half of northwest quarter and south half of section twenty-nine, west half and southeast quarter of section thirty-three, in township twenty north, range two east.

Sections one, three, five, seven, nine, eleven, thirteen, fifteen, seventeen, north half of section nineteen, sections twenty-one, twenty-three, twenty-five, twenty-seven, southeast quarter and south half of northeast quarter of section thirty-three, section thirty-five, in township twenty-one north, range two east.

Sections one, three, five, seven, nine, eleven, thirteen, fifteen, seventeen, nineteen, twenty-one, twenty-three, twenty-five, twenty-seven, twenty-nine, thirty-one, thirty-three and thirty-five, in township twenty-two north, range two east.

Sections one, three, seven, nine, eleven, thirteen, and fifteen, in township twenty north, range three east.

The northwest quarter and the south half of section one, east half of east half, southeast quarter of southwest quarter, and southwest quarter of southeast quarter of section three, sections, five, seven, nine, eleven, thirteen, fifteen, seventeen, nineteen, twenty-one, twenty-three, twenty-five, twenty-seven, twenty-nine, thirty-one, thirty-three, and thirty-five, in township twenty-one north, range three east.

The south half of the southwest quarter of section three, north half of northeast quarter, southeast quarter of northeast quarter, west half of northwest quarter, the southwest quarter and west half of southeast quarter of section five, the northeast quarter, east half of northwest quarter, southwest quarter of northwest quarter, southwest quarter and north half of southeast quarter of section seven, the northeast quarter, south half of northwest quarter and the south half of section nine; south half of southeast quarter of section thirteen; the west half and southeast quarter of section fifteen, the east half of section seventeen, sections nineteen and twenty-one, the north half, east half of southwest quarter, and the southeast quarter of section twenty-three, sections twenty-five, twenty-seven, twenty-nine, thirty-one, thirty-three, and thirty-five, in township twenty-two north, range three east.

The northwest quarter of section one, the north half of section three, sections five, seven, and nine, south half of the northwest quarter, southwest quarter and west half of southeast quarter of

section eleven, sections fifteen, seventeen, nineteen, twenty-one, northwest quarter of northeast quarter and north half of northwest quarter of section twenty-seven; sections twenty-nine, thirty-one, thirty-three, in township twenty-three north, range three east.

Section fifteen and the east half of section seventeen, in township twenty north, range four east.

The northwest quarter of the northwest quarter of section one, sections three, five, seven, and nine, northwest quarter of northeast quarter and west half of section eleven, south half of northwest quarter, southwest quarter, and west half of southeast quarter of section thirteen, section fifteen, northeast quarter, south half of northwest quarter and south half of section seventeen, northeast quarter of northeast quarter, south half of northeast quarter and southeast quarter of section nineteen, section twenty-one, north half of northeast quarter, southeast quarter of northeast quarter, west half, and west half of southeast quarter, of section twenty-three, sections twenty-seven and twenty-nine, north half, north half of southeast quarter, and southeast quarter of southeast quarter of section thirty-three and the northwest quarter of section thirty-five, in township twenty north, range four east.

Sections twenty-one, twenty-three, twenty-five, twenty-seven, twenty-nine, thirty-one, thirty-three, and thirty-five, in township twenty-two north, range four east.

The south half of section twenty-five, in township twenty-three north, range four east.

Containing in all about eighty-six thousand two hundred acres, be the same more or less.

Habendum and tenendum clause, and subscription clause reciting that party of the first part has caused these presents to be signed by its president and secretary, and has affixed its corporate seal.

(Signed.) SAGINAW AND MANISTEE LUMBER COMPANY,
WILLIAM F. BAKER, *President*,
(Corporate seal.) WILLIAM B. MERSHON, *Secretary*.

In presence of
B. P. BARNES.
WM. WENTE.

Acknowledged: September 22, 1902, by both officers, before Burton P. Barnes, Com'r Deeds, Manistee Co., Mich., with seal affixed.

Also on August 6, 1902, by both officers, before George Grant, notary public, Saginaw Co., Mich., with seal affixed. This acknowledgment recites that they acknowledged same as the free act and deed of such corporation, by each of them voluntarily executed.

Recorded: December 22, 1902, at 6.35 p. m., in Book 13 of Deeds, pages 545–550, records of Coconino County, Arizona.

DEED: SAGINAW AND MANISTEE LUMBER COMPANY TO UNITED STATES OF AMERICA.

Recitals: That Edward B. Perrin is the owner of the lands herein specifically described, which is included within the limits of the San Francisco Mountains Forest Reservation in the Territory of Arizona:

That he has agreed to relinquish said land to the United States of America, and to select in lieu thereof an equal quantity of vacant, surveyed, nonmineral public lands which are subject to homestead entry as provided for by the act of Congress approved June 4, 1897 (30 Statutes, page 36), and the act of Congress approved June 6, 1900 (31 Statutes, page 614).

That said relinquishment is to be subject to the right of the Saginaw and Manistee Lumber Company (a corporation), its personal representatives and assigns, under a certain written contract, to which reference is hereinafter made, to cut and remove, under and in accordance with certain rules incorporated herein, and not otherwise, the timber growing upon the land so relinquished.

That the written contract under which said company claims the right to cut and remove said timber is a certain contract made and entered into January 5, 1894, by the Atlantic and Pacific Railroad Company, Dr. E. B. Perrin, and the Saginaw Lumber Company, recorded March 23, 1901, in book 1, agreements, pages 243–256, records Coconino County, Arizona; the rights of said Saginaw Lumber Company having been conveyed to said Saginaw and Manistee Lumber Company by deed dated December 7, 1899, and recorded March 23, 1901, in book 9 of deeds, pages 247–251, records of said Coconino County.

That the rules under and in accordance with which, and not otherwise, the said timber is to be so cut and removed are:

1. All trees to be cut shall be marked by the Government, at its own expense, within sixty days after written notice to the Secretary of the Interior of the intended cutting, and no tree not marked shall be cut, except that if the Government as to any section fails to mark the trees within the time named, cutting may proceed as to that section in advance or without marking. Notices of intention to cut, etc., shall be by sections from time to time as the interests of those having the right to cut may suggest.

2. Trees marked may be left standing by the lumberman at his discretion; trees less than 11 in. in diameter 18 in. above the ground shall not be marked, unless the Government for satisfactory reason regards removal of same to be advantageous to the forest.

3. All trees 11 in. and upward, 18 in. above the ground, shall be marked for cutting by Government, except as provided in rule 4.

4. The right to retain two seed trees of above 14 inches in diameter, to the acre, is reserved to Government; said trees to be unsound or otherwise undesirable for lumber.

5. Small timber necessary for use in logging may be cut for that purpose when it cannot be reasonably dispensed with.

6. All reasonable precaution shall be taken by lumberman to prevent unnecessary damage to young growth and guard against forest fires, and he and his employes shall be required without expense to the Government to assist in extinguishing fires when necessary.

9. Employees of the Government shall at all times have free access for the purpose of lopping and burning tops (which shall be at the expense of the Government) for all other purposes involved in these rules and for all other necessary purposes in administration of forest reserve, etc.

10. Government not liable for injury to standing or fallen timber by fire.

11. The cutting shall be under the supervision of a forest officer, and all questions shall be determined by him under the direction of the Secretary of the Interior. His decision shall be final, except as provided in rule 12.

12. Provides for arbitration if lumberman feels aggrieved at decision of forest officer by committee of three persons. Finding of committee to be forwarded to Secretary, whose decision shall be final. Expense of committee to be divided between Government and lumberman.

That therefore the Saginaw and Manistee Lumber Company, a corporation organized and existing under the laws of the State of Michigan, by William F. Baker and William B. Merson, president and secretary, respectively, of said company, the holder of the contract right to cut and remove timber from said land, does hereby release, remise, quit-claim, grant, relinquish to the United States of America all of its right, title, and interest in and to the following-described lands, to wit:

Section one and east half of section three, township twenty north, range one east.

Northwest quarter and south half of section three, east half of section five, north half of northwest quarter, northwest quarter of northeast quarter, southeast quarter of northeast quarter, south half of southeast quarter, and south half of southwest quarter of section nine. West half of northeast quarter and west half of section thirteen, section fifteen, northeast quarter of section seventeen, sections twenty-three, twenty-five, and twenty-seven, east half of southeast quarter and southwest quarter of southeast quarter of section thirty-three and section thirty-five, in township twenty-one north, range one east. Also northeast quarter of southeast quarter of sections 9 and 21, township one north, range one east.

East half of northwest quarter and southeast quarter of southeast quarter of section twenty-three, northeast quarter of northeast quarter, south half of southeast quarter and south half of southwest quarter of section twenty-seven, north half of northeast quarter and north half of northwest quarter, southwest quarter of northwest quarter and west half of southwest quarter of section thirty-five, township twenty-two north, range one east.

Section one, northeast quarter of section three, and north half, north half of southeast quarter and southwest quarter of section eleven, township nineteen north, range two east.

East half, southwest quarter, south half of northwest quarter and northeast quarter of northwest quarter of section three, sections five, seven, nine, thirteen, fifteen, seventeen, nineteen, twenty-one, twenty-three, twenty-five, twenty-seven, northeast quarter and east half of northwest quarter of section twenty-nine, northeast quarter of section thirty-three and section thirty-five, in township twenty north, range two east.

South half of section nineteen, sections twenty-nine and thirty-one and north half of northeast quarter and west half of section thirty-three, in township twenty-one north, range two east.

Sections five, seventeen, nineteen, and thirty-one, in township twenty north, range three east.

West half of northeast quarter, northwest quarter of southeast quarter, northeast quarter of southwest quarter, west half of south-

west quarter and northwest quarter of section three, in township twenty-one north, range three east.

Section one, north half, north half of southwest quarter and southeast quarter of section three, east half of northwest quarter, southwest quarter of northeast quarter and east half of southeast quarter, southwest quarter of northeast quarter and east half of southeast quarter of section five, northwest quarter of northwest quarter and south half of southeast quarter of section seven, north half of northwest quarter of section nine, section eleven, north half, north half of southeast quarter and southwest quarter of section thirteen, northeast quarter of section fifteen, west half of section seventeen, and west half of southwest quarter of section twenty-three, in township twenty-two north, range three east.

East half and southwest quarter of section one, south half of section three, northeast quarter, north half of northwest quarter, and east half of southeast quarter of section eleven, sections thirteen, twenty-three, and twenty-five, northeast quarter of northeast quarter, south half of northeast quarter, south half of northwest quarter and south half of section twenty-seven and section thirty-five, in township three north, range three east.

Section one, east half, north half of northwest quarter, southeast quarter of northwest quarter, north half of southwest quarter, and southwest quarter of southwest quarter of section three, sections five and seven, southeast quarter of section nine, sections eleven and thirteen, and west half of section seventeen, township twenty north, range four east.

East half, southwest quarter, south half of northwest quarter and northeast quarter of northwest quarter of section one, northeast quarter of northeast quarter, south half of northeast quarter and southeast quarter of section eleven, northeast quarter, north half of northwest quarter and east half of southeast quarter of section thirteen, north half of northwest quarter of section seventeen, northwest quarter of northeast quarter and west half of section nineteen, southwest quarter of northeast quarter and east half of southeast quarter of section twenty-three, sections twenty-five and thirty-one, southwest quarter of southeast quarter and southwest quarter of section thirty-three, and east half of southwest quarter of section thirty-five, in township twenty-one north, range four east.

Section nineteen, in township twenty-two north, range four east.

Sections one, three, five, seven, nine, eleven, thirteen, fifteen, seventeen, nineteen, twenty-one, twenty-three, north half of section twenty-five, and sections twenty-seven and twenty-nine, in township twenty-three north, range four east.

Section seven, township nineteen north, range three east, Gila and Salt River base line and meridian, situated in the county of Coconino, Territory of Arizona, and containing ——— acres, reserving and except as aforesaid, the right to cut and remove the timber growing thereon, under and in accordance with the rules aforesaid, and not otherwise, and in lieu of said lands so relinquished, said owner agrees to select an equal area of lands of the character and location hereinbefore stated.

In witness whereof the said Saginaw and Manistee Lumber Company, a corporation, by resolution of the board of directors duly

authorized, has caused these presents to be signed by its president and secretary, and has affixed its corporate seal.

By WILLIAM B. MERSHON, *its Secretary.*

Signed, sealed, and delivered in the presence of—
WM. WENTE,
JOHN D. MERSHON.

Acknowledged: By William F. Baker, president of the Saginaw and Manistee Lumber Company, reciting that said instrument was executed as the free act and deed of said corporation, by him voluntarily executed, etc., November 19, 1902, before Burton P. Barnes, com'r deeds, Manistee County, Mich., seal affixed.

By William B. Mershon, secretary, etc., separately, but on same date, before same officer and with similar recitals in acknowledgment. Seal affixed.

Recorded: December 22, 1902, at 6.32 p. m., in book 13 of deeds, pages 532–540, records of Coconino County, Arizona.

RELEASE OF CONTRACT: ARIZONA LUMBER AND TIMBER COMPANY TO SANTA FE PACIFIC RAILROAD COMPANY, DECEMBER 30, 1902.

Recitals: That indenture is made between Arizona Lumber and Timber Company, a corporation organized and existing under the laws of Arizona, and Santa Fe Pacific Railroad Company, a corporation. Also recites that said Arizona Lumber and Timber Company is now the assignee of the contract made between Charles A. and E. Greenlaw and the Atlantic and Pacific Railroad Company, abstracted herein at pages 5 and 6, and refers by specific description to said contract, also to transfer thereof to Greenlaw Lumber Company, abstracted herein at page 7; and to assignment to Arizona Lumber and Timber Company, abstracted herein at page 8; also that Santa Fe Pacific Railroad Company is the successor in interest under said contract of said Atlantic and Pacific Railroad Company.

That the board of directors of the Arizona Lumber and Timber Company at a meeting thereof held December 30, 1902, unanimously passed the following resolution:

"Whereas a certain contract made and entered into by and between the Atlantic and Pacific Railroad Company and Charles A. Greenlaw, which by mesne conveyances was duly assigned to the Arizona Lumber and Timber Company; and

"Whereas said contract and all the obligations thereof have been fully satisfied and discharged between the respective parties and their assignees, but that said contract has not been released and discharged of record: Now, therefore,

Be it resolved by the board of directors of the Arizona Lumber and Timber Company, That it does hereby release, discharge, and satisfy said contract, and all the rights and obligations arising thereunder, and which it acquired by assignment to it of said contract.

"That the President and Secretary of the Arizona Lumber and Timber Company be and they are hereby empowered to make, execute, acknowledge, and deliver to the said Santa Fe Pacific Railroad Company an instrument in writing, discharging said contract."

That in consideration of the premises and one dollar, T. A. Riordan, president, and M. J. Riordan, secretary, respectively, of said Arizona Lumber and Timber Company, for and on behalf of said company, do hereby release, discharge, and satisfy said contract and all the obligations thereof.

That said officers have hereunto subscribed the name and affixed the corporate seal of said corporation, as its act and deed.

(Signed) ARIZONA LUMBER AND TIMBER COMPANY.
By T. A. RIORDAN, *President.*

Attest:
M. J. RIORDAN, *Secretary.* [CORPORATE SEAL.]

Acknowledged: December 30, 1902, before James L. Byrnes, notary public, Coconino County, Arizona, with seal affixed. Recites that both officers acknowledged said instrument as the free act and deed of said corporation, and that the same was executed by each of them voluntarily.

Recorded: December 31, 1902, at 9 a. m., in book 1 of releases, pages 273 et seq., records of Coconino County, Arizona.

AGREEMENT: SANTA FE PACIFIC RAILROAD COMPANY, A CORPORATION, AND ARIZONA LUMBER AND TIMBER COMPANY, A CORPORATION.

This agreement, supplemental to an agreement dated October 11, 1898, between the same parties, made and entered into this first day of May, 1903, between the Santa Fe Pacific Railroad Company, a corporation organized under the laws of the United States, party of the first part, and the Arizona Lumber and Timber Company, a corporation organized under the laws of the Territory of Arizona, party of the second part; witnesseth: That—

Whereas under an agreement dated October 11, 1898, between the parties hereto, the party of the second part was given the right to cut certain timber, on certain conditions in said agreement fully set forth, from lands described as follows:

The SW. ¼ of section 17, all of section 19, part of section 21, all of section 29, and all of section 31, all in township 21 north, R. 6 E.; also all of section 5, all of section 7, all of section 9, all of section 15, all of section 23, all of section 25, all in township 20 N., R. 7 E.; also all of section 29, all of section 31, and all of section 33, in township 21 N., R. 7 E.; and sections 9, 15, 17, 21, 23, 25, 27, 29, 31, 33, and 35, all in township 21 N., R. 5 E.; also sections 1, 3, 11, 13, 17, 21, 27, 29, 31, 33, and 35, all in township 20 north, R. 7 E.; also sections 19, 25, and 27, and 35, all in township 21 N., R. 7 E.; also sections 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35, all in township 20 N., R. 5 E.; also sections 1, 5, the S. ½ and the NE. ¼ of section 3, and sections 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, and 35, all in township 20 N., R. 6 E.; also sections 25, 27, 33, and 35, all in township 21 N., R. 6 E.; also sections 21, 23, 27, and 29, in township 21 N., R. 8 E.; and also sections 19 and 33, in township 20 N., R. 8 E.; all of the said townships and ranges being north and east of the Gila and Salt River base and meridian; and

Whereas the party of the first part has agreed to convey the title to said lands to the United States of America, subject to the right of the party of the second part to cut the timber off said land under certain rules and regulations reading as follows:

1. All trees to be cut shall be marked by the Government, at its expense, within sixty days after written notice to the Secretary of the Interior of the intended cutting; and no trees unmarked shall be cut, except that if the Government as to any section fails to mark the trees within the time named cutting may proceed as to that section in advance of or without marking. Notices of intention to cut, marking, and cutting shall be made by section from time to time as the interests of those having the right to cut may suggest.

2. Trees marked may be left standing at the discretion of the lumbermen.

3. Trees less than eleven inches in diameter of wood eighteen inches above ground shall not be marked unless defective or unless for other reasons satisfactory to the Government their removal shall be advantageous to the forest. All trees eleven inches in diameter and upward eighteen inches from the ground, except as provided in Rule 4, shall be marked for cutting by the Government.

4. The right to retain two seed trees on each acre above fourteen inches in diameter shall be reserved to the Government when necessary for the good of the forest. Such trees shall be chosen from individuals unsound or otherwise undesirable for lumber.

5. Small timber necessary for use in logging may be cut for that purpose when it can not be reasonably dispensed with.

6. All timber shall be used clean and all waste shall be avoided as far as it is reasonably possible to do so.

7. No tops shall be thrown against unmarked standing trees when possible to avoid it, and when thrown against or near such trees all tops shall be dragged away by the lumbermen far enough to prevent injury to standing timber by heat when the tops are burned.

8. All reasonable precaution shall be taken by the lumberman to prevent unnecessary damage to young growth and to guard against fire, and the lumberman and those employed by him shall be required without expense to the Government, to assist in extinguishing fires whenever necessary.

9. Employees of the Government shall at all times have free access for the purpose of lopping and burning tops (which shall be at the expense of the Government), for all other purposes involved in these rules, and for all purposes incident to the administration of the forest reserve and the laws and regulations pertaining thereto.

10. The Government shall under no circumstances be liable for injury by fire to timber standing or fallen, the right to remove which has been reserved.

11. The cutting and removal of timber shall be done under the supervision of a forest officer representing the Secretary of the Interior, and all questions arising in connection with the cutting or removal of the timber shall be determined by him, under the direction of the Secretary of the Interior. His decision shall be final, except as provided in Rule 12.

12. If the lumberman feels aggrieved at any decision of the forest officer representing the Secretary of the Interior, he must notify that forest officer in writing within ten days after the decision, and there-

upon the matter in controversy shall be referred to a committee of three disinterested persons, to be agreed upon by the forest officer and the lumberman, or to be named by the justice of the supreme court of the Territory of Arizona whose district includes the land in question, where the forest officer and the lumberman are unable to agree. The finding of this committee shall be reduced to writing and transmitted to the Secretary of the Interior, whose decision in the premises will be promptly given and shall be final. The compensation and reasonable expenses, if any, of the committee shall be equally divided between the lumberman and the Government.

And whereas the party of the second part is willing to cut timber off said land under such rules and regulations provided the following described lands, to wit:

Section 19, township 20 N., range 7 E.; sections 3, 7, 9, and 17, township 19 north, range 8 east; sections 1, 3, 9, 11, and 13, township 19 north, range 5 east; sections 3, 5, 7, 9, and 17, township 19 north, range 6 east, be substituted for the following described lands embraced in the agreement of October 11, 1898, aforesaid, to wit:

Sections 19 and twenty-seven (27), township twenty-one (21) north, range seven (7) east; sections five (5), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), twenty-one (21), twenty-five (25), twenty-seven (27), and thirty-five (35), township twenty (20) north, range seven (7) east; sections nineteen (19), twenty-seven (27), twenty-nine (29), thirty-one (31), and thirty-three (33), township twenty (20) north, range eight (8) east; section five (5), township nineteen (19) north, range eight (8) east; sections twenty-one (21), twenty-three (23), twenty-seven (27), and twenty-nine (29), township twenty-one (21) north, range eight (8) east.

Whereas the number of feet of timber owned by said party of the first part standing upon each of the following sections has been estimated to be as follows, to wit:

	Feet.
On section 19, T. 20 N., R. 7 E.	1,845,000
On section 1, T. 19 N., R. 5 E.	3,250,000
On section 3, T. 19 N., R. 5 E.	2,655,000
On section 9, T. 19 N., R. 5 E.	2,215,000
On section 11, T. 19 N., R. 5 E.	2,575,000
On section 13, T. 19 N., R. 5 E.	3,030,000
On section 3, T. 19 N., R. 6 E.	2,225,000
On section 5, T. 19 N., R. 6 E.	4,135,000
On section 7, T. 19 N., R. 6 E.	5,000,000
On section 9, T. 19 N., R. 6 E.	2,480,000
On section 17, T. 19 N., R. 6 E.	3,000,000
On section 3, T. 19 N., R. 8 E.	2,290,000
On section 7, T. 19 N., R. 8 E.	2,765,000
On section 9, T. 19 N., R. 8 E.	1,090,000
On section 17, T. 19 N., R. 8 E.	2,100,000

Now, therefore, it is mutually covenanted and agreed between the parties hereto as follows, viz:

First. That the agreement of October 11, 1898, no longer applies or has any force as to the following lands described aforesaid, to wit:

Sections nineteen (19) and twenty-seven (27), township twenty-one (21) north, range seven (7) east; sections five (5), nine (9), eleven (11), thirteen (13), fifteen (15), seventeen (17), twenty-one (21), twenty-five (25), twenty-seven (27), and thirty-five (35), township twenty (20) north, range seven (7) east; sections nineteen (19), twenty-seven (27), twenty-nine (29), thirty-one (31), and thirty-

three (33), township twenty (20) north, range eight (8) east; section five (5), township nineteen (19) north, range eight (8) east; sections twenty-one (21), twenty-three (23), twenty-seven (27), and twenty-nine (29), township twenty-one (21) north, range eight (8) east.

Second. That the agreement of October 11, 1898, shall be operative in all respects upon the following described land, not previously embraced therein, the same as though said lands had been originally described therein, to wit:

Section 19 of township 19 north, range 5 east; sections 3, 5, 7, 9, and 17, in township 19 north of range 6 east.

Third. That the estimates as above set forth correctly state the amount of timber standing on the sections hereby substituted as aforesaid for the certain lands hereby released as aforesaid from the provisions of the said agreement of October 11, 1898.

Fourth. That the period within which said party of the second part is given the right to purchase and pay for timber standing upon the lands described in said agreement of October 11, 1898, as modified hereby, is hereby extended until the 11th day of October, 1911; and the time within which said party of the second part may remove timber purchased and paid for by it prior to said October 11, 1911, is hereby extended until October 11, 1916.

Fifth. That as to all lands embraced in said agreement of October 11, 1898, as hereby modified, the party of the second part covenants that it will cut all timber off said lands under the rules and regulations hereinbefore set forth; and this covenant and agreement is made for the benefit of the United States of America, in case it shall hereafter become the owner of the lands aforesaid, as well as for the benefit of the party of the first part.

Sixth. That nothing herein contained shall be construed as granting to the party of the second part the right to cut or remove any timber which shall not have been fully paid for prior to October 11, 1911, nor to enter upon said lands for any purpose or to remove any timber therefrom on or after October 11, 1916, it being the understanding of the parties hereto that the party of the first part shall purchase and pay for such timber as it may require prior to said October 11, 1911, and remove the same prior to October 11, 1916.

Seventh. That said agreement of October 11, 1898, except as hereinbefore expressly modified, shall remain in full force and effect.

In witness whereof the parties have caused these presents to be executed by their respective officers thereunto duly authorized the day and year first above written.

SANTA FE PACIFIC RAILROAD COMPANY,
By E. P. RIPLEY, *Its President.*

CORRESPONDENCE RELATIVE TO GRAND CANYON NATIONAL FOREST.

BRITTON & GRAY, ATTORNEYS FOR THE SANTA FE PACIFIC RAILROAD COMPANY, TO THE SECRETARY OF THE INTERIOR, JUNE 13, 1902.

[A. T. Britton, A. B. Browne, Alex. Britton. Britton & Gray, attorneys and counselors at law, Glover Building, 1419 F street NW.]

WASHINGTON, D. C., *June 13, 1902.*

Hon. E. A. HITCHCOCK,
Secretary of the Interior, Washington, D. C.

SIR: Referring to the recent conferences which you have so courteously extended to us with respect to the lands of the Santa Fe Pacific Railroad Company lying within the Grand Canyon Forest Reserve, in Arizona, we respectfully submit that in view of your conclusion not to reduce the area of the reserve and to relieve from suspension patenting to this company of its lands lying within said reserve the company is willing and does hereby agree to surrender to the United States its title to lands within such forest reserve under act of June 4, 1897, on the following basis:

One hundred and fifteen thousand acres of its present holdings to be exchanged under said act without any other restriction, and the balance of its present holdings, estimated at 260,000 acres, to be exchanged for nonmineral, nontimbered, vacant public lands of the United States lying south of the thirty-seventh standard parallel of latitude and south of the Tehichipa range of mountains, it being, however, understood that the company will not be expected to surrender any lands needed to be retained by it for railroad purposes; and such railroad purposes are understood to include rights of way of all kinds, station grounds, pumping stations, dams, reservoir sites, stone quarries, deposits of cinders, gravel, or other material for ballast, and also other lands needed for railroad purposes, but not including lands held solely for the timber thereon.

It is further understood that the department will, in every reasonable way, so expedite all necessary surveys and approval thereof, and the issuance of patents to the railroad company, as to enable said company to promptly carry out this understanding.

There being at the present time approximately 310,000 acres of company's lands surveyed, listed, and ready for patent, it is further submitted that the company may, upon the issuance of patents for this area, first select 205,000 acres of the nonmineral, nontimbered, vacant public lands within the limitations prescribed, and then be entitled to select 105,000 acres of unrestricted lands, without waiting for the acceptance of the survey of the balance of the lands within the reservation. Upon the completion of such survey, listing, and issuance of patent for the balance of said area, estimated at 65,000 acres, the company will then be entitled to first select 55,000 acres of the nonmineral, nontimbered, vacant public lands within the limitations prescribed, and thereafter to select the remaining 10,000 acres without restriction.

It having been demonstrated from the returns of the surveyors that there are small areas which are incapable of survey, it is further submitted that the area of same may be computed by the General Land Office by protracting the line of the adjacent surveys over the same, and that the railroad company will be entitled to list and have patented to it, as basis for relinquishment to the United States, such computed area.

Very respectfully,

BRITTON & GRAY,
Attorneys Santa Fe Pacific Railroad Company.

Approved, and the Commissioner of the General Land Office will carry the above into immediate effect.

——— ———,
Secretary.

[Indorsement.]

DEPARTMENT OF THE INTERIOR,
June 16, 1902.

Respectfully referred to the Commissioner of the General Land Office for consideration and early report with recommendation.

Return of this paper requested.

E. A. HITCHCOCK,
Secretary.

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JUNE 30, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., June 30, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I am in receipt, by reference from the department, for consideration and report with recommendation, of a letter from Messrs. Britton & Gray, attorneys for the Santa Fe Pacific Railroad Company (successor in interest to the Atlantic and Pacific Railroad Company), embodying terms upon which the company agrees to relinquish to the United States, under the exchange provision in the act of June 4, 1897 (30 Stat., 36), its title to lands within the Grand Canyon Forest Reserve, in view of the Government's retaining within said reserve certain lands granted to the company's predecessor in interest, and relieving from the present suspension the proceeding of listing and patenting such lands to the company, the terms being represented to be as follows:

One hundred and fifteen thousand acres of its present holdings to be exchanged under said act without any other restriction, and the balance of its present holdings, estimated at 260,000 acres, to be exchanged for nonmineral, nontimbered, vacant public lands of the United States lying south of the thirty-seventh standard parallel of latitude and south of the Tehichipa Range of Mountains, it being, however, understood that the company will not be expected to surrender any lands needed to be retained by it for railroad purposes; and such railroad purposes are understood to include rights of way of all kinds, station grounds, pumping stations, dams, reservoir sites, stone quarries, deposits of cinders, gravel, or other material for ballast, and also other lands needed for railroad purposes, but not including lands held solely for the timber thereon.

It is further understood that the department will, in every reasonable way, so expedite all necessary surveys and approval thereof, and the issuance of patents to the railroad company, as to enable said company to promptly carry out this understanding.

There being at the present time approximately 310,000 acres of company's lands surveyed, listed, and ready for patent, it is further submitted that the company may, upon the issuance of patents for this area first select 205,000 acres of the nonmineral, nontimbered, vacant public lands within the limitations prescribed, and then be entitled to select 105,000 acres of unrestricted lands, without waiting for the acceptance of the survey of the balance of the lands within the reservation. Upon the completion of such survey, listing, and issuance of patent for the balance of said area, estimated at 65,000 acres, the company will then be entitled to first select 55,000 acres of the nonmineral, nontimbered, vacant public lands within the limitations prescribed, and thereafter to select the remaining 10,000 acres without restriction.

It having been demonstrated from the returns of the surveyors that there are small areas which are incapable of survey, it is further submitted that the area of same may be computed by the General Land Office by protracting the line of the adjacent surveys over the same, and that the railroad company will be entitled to list and have patented to it, as basis for relinquishment to the United States, such computed area.

The clause in the first paragraph confining the company's selections as to the quantity stated, to nontimbered lands south of the thirty-seventh standard parallel, resembles the restricting clause in the agreement recently entered into between the Government and this company and others owning lands within the San Francisco Mountains Forest Reserve, and is, no doubt, advantageous to the Government.

In regard to the provision in the first paragraph of the proposed terms that—

The company will not be expected to surrender any lands needed to be retained by it for railroad purposes, and such railroad purposes are understood to include rights of way of all kinds, station grounds, pumping stations, dams, reservoir sites, stone quarries, deposits of cinders, gravel, or other material for ballast, and also other lands needed for railroad purposes, but not including lands held solely for the timber thereon—

I respectfully recommend that before the agreement to exchange is entered into by the Government this clause should be so revised as to designate by specific description the lands which the company will not be expected to surrender. It is deemed to be of great importance that this part of the agreement should be relieved of all uncertainty and indefiniteness before becoming final, whereas, in its present form, the clause in question is very indefinite and would permit of a construction so broad as to defeat some of the more important purposes had in mind by the Government in consenting to the exchange.

It is very important to ascertain where the reservations are to be, what their area will be, whether any of them are such as contain merchantable timber, and whether they would interfere with the administration of the forest reserve. The uncertainty in the clause referred to is especially emphasized in the words "and also other lands needed for railroad purposes." Who is to determine this? When is it to be determined, and how much "other land" would this term embrace? The record should be made to show all these details, in order that the plats of survey and those of the forest reserve may be a record of such reservations, and I deem that this should all be done before the agreement is finally concluded.

I deem that paragraphs 2 and 3 of the proposed terms are fair and may properly be accepted in their present form. Minor corrections have yet to be completed in the returns of surveys made under contract No. 71, covering some five townships inside the granted limits in the reserve. It is probable that these corrections will be completed, so that the returns as to this area may be accepted at an early date.

The last paragraph of the proposed terms, however, is not believed to be capable of being carried out. This paragraph contemplates

the patenting to the company of unsurveyed lands, the area of which shall be estimated by the protraction of adjacent surveys.

It is unnecessary here to discuss the exact legal status of these unsurveyed areas. In their relation to the points under consideration they may be properly compared to mere voids. They constitute no bases for railway indemnity selections; and, although their quantity may be readily estimated by protracting the lines of adjacent surveys, there is no law or authority under which they may be patented to the company.

For the purpose only of estimating the area of the unsurveyed quantity a protraction may be had, but more than this seems to be sought for by the company. The proposition of that company is to have a protraction in order to secure a patent that an exchange of lands upon such protraction and patent may be had for such unsurveyed areas which inure to the company under the grant. This, however, we find impossible to entertain. No exchange can be made except for lands which have been duly listed and patented. An actual survey and platting is a prerequisite to the listing and patenting of the granted lands. It is admitted in the company's proposition (last paragraph) that the returns of the surveyors show that the areas omitted during the progress of the surveys are incapable of survey, and such being the case, the use of the unsurveyed areas as bases for selections under the exchange provision of the act of June 4, 1897 (30 Stat., 36), is impossible. (See California and Oregon Land Company, 31 L. D., 215.)

The protraction of the lines over lands where the section lines have not been marked in the field, with a view to the construction of official plats upon which to base the issue of patents for such lands, as proposed by the company, does not appear to be sanctioned by law. So far as the practice of this office is concerned, protractions have been made only within the limits of a section where at least two of the lines bounding a given tract have been surveyed and marked in the field, and even such protractions are not now permitted in the construction of the official plats returned by the surveyors-general.

I would further suggest, therefore, that the said paragraph relating to the unsurveyable areas be omitted from the terms when they are resubmitted for final consideration after the revision of the last clause of the first paragraph as above recommended.

Very respectfully,

BINGER HERMANN, *Commissioner.*

THE SECRETARY OF THE INTERIOR TO BRITTON & GRAY, ATTORNEYS FOR THE SANTA FE PACIFIC RAILROAD COMPANY, JULY 5, 1902.

DEPARTMENT OF THE INTERIOR,
Washington, July 5, 1902.

Messrs. BRITTON & GRAY,
Attorneys for Santa Fe Pacific
Railroad Company, Washington, D. C.

GENTLEMEN: I have carefully considered your letter of the 13th ultimo, together with a report thereon dated the 30th ultimo by the Commissioner of the General Land Office, both relating to the exchange, under the act of June 4, 1897 (30 Stat., 36), of lands of said railroad

in the Grand Canyon Forest Reserve in the Territory of Arizona for public lands of stated classes and location.

The proposal of the company named in your letter meets with my approval, excepting that I believe the railroad company should be required to designate, before entering upon the making of relinquishments and selections, the lands desired to be retained by it for railroad purposes, and to obtain approval thereof by the Secretary of the Interior. Without this modification the proposal of the railroad company can not be accepted, but if the proposal is modified as has been suggested it will be accepted by me, and directions will be promptly given for carrying the proposed exchanges into execution.

Very respectfully,

E. A. HITCHCOCK, *Secretary.*

THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, FEBRUARY 25, 1903.

DEPARTMENT OF THE INTERIOR,
Washington, February 25, 1903.

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: Your favor of February 19, 1903, in the matter of the relinquishment of the Santa Fe Pacific Railroad Company of the odd-numbered sections within the Grand Canyon Forest Reserve, Arizona, is at hand. In the arrangement made for the relinquishment of these lands by said company it was provided that the railroad company should designate, "before entering upon the making of the relinquishments and selections, the land desired to be retained by it for railroad purposes, and to obtain the approval thereof by the Secretary of the Interior." (See letter of July 5, 1902, to Messrs. Britton & Gray.) It is stated in your letter of the above date that the company has submitted its relinquishment of most of the lands within said reserve, with selections in lieu thereof, but has as yet filed no designation of the specific tracts within the reserve proposed to be retained by it for railroad purposes, and you forward a letter of February 16, 1903, from Messrs. Britton & Gray, as attorneys for said company, submitting a "preliminary designation" of the lands that may be reserved from relinquishment by the company, in the following terms:

> The Santa Fe Pacific Railroad Company will not retain or reserve any lands within this reservation except such lands as may be found necessary to cover the right of way and necessary station grounds of the Grand Canyon Railroad.

In the opinion of the department, this may be accepted as a sufficient compliance with the requirement made in said departmental letter of July 5, 1902, and your office is accordingly so instructed.

Very respectfully,

E. A. HITCHCOCK, *Secretary.*

CORRESPONDENCE RELATIVE TO INCLUSION IN THE SANTA BARBARA NATIONAL FOREST OF THE RANCHO LOS PRIETOS Y NAJALAYEGUA.

CALIFORNIA DELEGATION IN CONGRESS TO COMMISSIONER OF THE GENERAL LAND OFFICE, FEBRUARY 3, 1898.

COMMITTEE ON REFORM IN CIVIL SERVICE,
HOUSE OF REPRESENTATIVES,
Washington, D. C., February 3, 1898.

Hon. BINGER HERMANN,
Commissioner of Land Office.

DEAR SIR: We, the members of the California delegation, respectfully request that the earliest possible action be taken on the petition of the citizens of Ventura and Los Angeles counties in the matter of the "Pine Mountain Reservation."

STEPHEN M. WHITE, *United States Senate.*
GEO. C. PERKINS, *United States Senate.*
J. A. BARHAM, *First District.*
MARION DE VRIES, *Second District.*
S. G. HILBORN, *Third District.*
JAMES G. MAGUIRE, *Fourth District.*
E. F. LOUD, *Fifth District.*
C. A. BARLOW, *Sixth District.*
C. H. CASTLE, *Seventh District.*

RESOLUTION OF COMMON COUNCIL OF SANTA BARBARA, CAL., FEBRUARY 5, 1898.

The following resolution was offered by Councilman C. E. Lataillade:

Resolved, That the common council of Santa Barbara heartily approve of the efforts being made to have the Pine Mountain region in Santa Barbara and Ventura counties, and the Zaca Lake region in Santa Barbara County, set apart as government reservations; that it believes such reservations to be in the public interest, and of the greatest good in preserving the water sources of important streams whose waters are necessary for purposes of irrigation. It hereby urges our Representatives in Congress to do everything necessary in order to secure favorable legislation in behalf of such proposed reservation.

STATE OF CALIFORNIA,
County of Santa Barbara, City of Santa Barbara, ss:

I hereby certify the foregoing to be a full, true, and correct copy of a resolution offered by Councilman C. E. Lataillade, and adopted by unanimous vote of the common council of the city of Santa Barbara, Cal., as the same appears on file and of record in my office.

Witness my hand and the corporate seal of the city of Santa Barbara, affixed hereunto this 5th day of February, A. D. 1898.

[SEAL.] ALFRED DAVIS,
City Clerk and Ex Officio Clerk of the Common Council of the City of Santa Barbara.

RESOLUTION OF CHAMBER OF COMMERCE OF LOS ANGELES, CAL., JANUARY 19, 1898.

LOS ANGELES, CAL., *January 19, 1898.*

Copy of resolution passed at the meeting of the board of directors of the chamber of commerce held Wednesday, January 19, 1898:

Whereas the electors of Ventura County have petitioned Congress to set aside as a reservation for the preservation of the timber, etc., in Pine Mountain Range, Ventura County; and

Whereas such preservation will be of great benefit to this section of the State: Therefore be it

Resolved, That the Los Angeles Chamber of Commerce, through its board of directors, do hereby indorse and recommend the passage of an act as prayed for in the petition of George Stewart et al.

I hereby certify that the above is a true and exact copy of the resolution passed by the directors of the chamber at the regular meeting held Wednesday, January 19, 1898.

In witness whereof I have hereunto affixed my hand and the seal of the corporation.

C. S. FORINO, *President.*

Attest:

[SEAL.] FRANK WIGGINS,
Secretary.

RESOLUTIONS OF BOARD OF SUPERVISORS OF LOS ANGELES COUNTY, CAL., JANUARY 10, 1898.

MONDAY, JANUARY 10, 1898.

Adjourned meeting of the board of supervisors. Present: Supervisors W. L. Woodward, chairman, presiding; R. E. Wirsching, E. S. Field, A. E. Davis, and James Hanley and the clerk.

In re Timber Reservation in Pine Mountain Range, Ventura County, Cal.

Upon motion of Supervisor Davis, duly seconded and carried, it is ordered that the board of supervisors of Los Angeles County, Cal., do hereby indorse and recommend the passage of an act by Congress of the United States as prayed for in the petition of George E. Stewart et al., in the matter of a reservation for the preservation of timber, etc., in Pine Mountain Range, Ventura County, Cal.

STATE OF CALIFORNIA,
County of Los Angeles, ss:

I, T. E. Newlin, county clerk and ex officio clerk of the board of supervisors of said county, do hereby certify the foregoing to be a full, true, and correct copy of the original minutes of the board of supervisors, as appears in minute book No. 25, In re Timber Reservation in Pine Mountain Range, Ventura County, Cal., on file in my office, and I have carefully compared the same with the original.

In witness whereof I have hereunto set my hand and affixed the seal of the board of supervisors this 12th day of January, 1898.

PETITION OF SUNDRY CITIZENS OF VENTURA COUNTY, CAL., AND RESOLUTION OF BOARD OF SUPERVISORS OF VENTURA COUNTY, CAL.

STATE OF CALIFORNIA, COUNTY OF VENTURA.

To the Congress of the United States:

We, the undersigned electors of Ventura County, Cal., respectfully petition your honorable body to pass an act setting apart as a reservation for the preservation of timber and all other natural growth, and the maintenance of the natural water supply, Pine Mountain Range and adjacent lands in said county, securing by such act the rights of such persons as already own lands or have bona fide claims thereto, leaving such lands open for exploration for mines, as now provided by law, with the right to miners to have such use of natural timber for actual and legitimate mining purposes as now allowed by law, and providing for the entry of any lands within said reservation under the homestead laws, upon a showing to the Department of the

Interior that the lands sought to be so entered are tillable, agricultural lands: *Provided, however,* that timbered lands shall not be entered as homestead or otherwise except under the mining acts.

THE SECRETARY OF THE INTERIOR TO THE DIRECTOR OF THE GEOLOGICAL SURVEY, NOVEMBER 30, 1901, TRANSMITTING LETTER AND INCLOSURES FROM SENATOR GEORGE C. PERKINS.

DEPARTMENT OF THE INTERIOR,
Washington, November 30, 1901.

The DIRECTOR OF THE GEOLOGICAL SURVEY.

SIR: Referring to departmental letter of the 26th ultimo, transmitting to you papers in the cases of proposed forest reserves and additions to forest reserves, I inclose herewith for your consideration a letter from Hon. George C. Perkins, dated the 23d instant, with its inclosure, a petition of citizens of Santa Barbara County, Cal., asking that certain government lands in that county near the headwaters of the Santa Ynez River be reserved.

Very respectfully, E. A. HITCHCOCK, *Secretary.*

SENATOR GEORGE C. PERKINS TO THE SECRETARY OF THE INTERIOR, NOVEMBER 23, 1901, INCLOSING PETITIONS FROM SUNDRY CITIZENS OF SANTA BARBARA COUNTY, CAL.

SAN FRANCISCO, CAL., *November 23, 1901.*

Hon. E. A. HITCHCOCK,
Secretary of the Interior,
Washington, D. C.

DEAR SIR: With this I beg to hand you a petition from the citizens of Santa Barbara County, asking the reservation of certain government lands in that county near the headwaters of the Santa Ynez River.

I beg to submit it to you for your consideration, knowing you will take such action in the premises as you deem for the public interest.

I have the honor to remain, your obedient servant,

GEO. C. PERKINS.

PETITION FROM SUNDRY CITIZENS OF SANTA BARBARA COUNTY, CAL.

Hon. GEORGE C. PERKINS,
United States Senator,
State of California:

The undersigned, residents and landholders in the Lompoc and Santa Rita valleys, in the county of Santa Barbara, State of California, respectfully petition you to promote such congressional legislation and such executive action as may be required to effect the acquisition by the Government of the United States of the lands covering the headwaters of the Santa Ynez River in said Santa Barbara County and that watershed of that river immediately adjacent to the main stream, and particularly the lands included in the Rancho Los Prietos y Najalayegua, and in the inclusion of said lands within one of the forest reservations already created by proclamation of the President and named the "Pine Mountain and Zaca Lake Forest Reserve," which was set apart as such reserve by the proclamation of the President, dated the 2d day of March, A. D. 1898, and enlarged by proclamation of the President, dated the 29th

ess.

day of June, 1898, and the Santa Ynez Forest Reserve created by proclamation of the President of the United States, dated the 2d day of October, 1899.

Lompoc and Santa Rita valleys, properly so-called, is that part of the county of Santa Barbara which lies along either bank of the Santa Ynez River below the Santa Ynez Valley, extending for a length westward along the course of the stream for a distance of about 20 miles to the Pacific Ocean with an extreme width of about 5 miles, including the sites of Stewart post-office and the town of Lompoc and embracing about 30,000 acres of agricultural land.

This region, although now sparsely settled, is capable with the development of its natural resources of supporting a numerous and prosperous population. Its agricultural enterprises have not prospered for several years last past owing to the deficiency of rain fall, and it has become apparent that for its future prosperity it must depend upon the irrigation of its lands chiefly with the waters of the Santa Ynez River. An examination of the map which accompanies this petition will show the great importance of the forest reserves above mentioned for the protection of the watershed upon which the Santa Ynez River mainly depends for its flow and urgent need of completing that protection by including the lands which extend from the boundaries of the reserves down to the channel of the river. These lands, while partly covered with woods and brush, afford more attractive range for live stock than the higher slopes of the mountains, and have been used and are being used much for the grazing of sheep whose ravages threaten the destruction of the natural protection to the watershed which but for their presence would thrive and be readily improved. Moreover, the value of these lands for grazing purposes is an inducement for the burning off of the brush for the purpose of still further extending the growth of grass, besides the unauthorized parties have been cutting down trees which protect the water sources, all of which menaces to the flow of the river would be averted by having these lands placed in a government forest reserve, and under the guardianship of the forest supervisors and under the schemes for the irrigation of our valley lands from the river have been projected, and surveys and calculations therefor made, and one irrigation canal has been constructed at a large outlay of capital, but further execution has been delayed and their realization we fear will be long postponed unless the sources of supply are assured of that effective protection which the government forest-reserve system seems alone competent to afford.

We, therefore, urgently solicit your efforts in Congress and with the President for the securing of that protection for us and the many who then will come to live with us in a region whose agricultural prosperity will be assured.

Eefson, C. M. Tucker, T. R. Archer, J. M. Devaul, J. S. Harris, H. E. McCabe, L. S. Douglas, H. A. Barker, Geo. A. Smith, Geo. Veit, M. McMinn, H. A. Bish, H. P. Morrey, J. F. Frick, T. Crews, Geo. W. Kelley, Arthur Rundolph, J. Klein, J. N. Saunders, E. Schuyler, H. Harman W. W. Sudden, E. L. Malley, J. B. Dean, C. Douglass, John H. Lind, H. C. Dinock.

Hon. George C. Perkins,
United States Senator, State of California.

The undersigned, residents and landholders in the Santa Ynez Valley, in the County of Santa Barbara and State of California, respectfully petition you to promote such congressional legislation and executive action as may be required to effect the acquisition by the Government of the United States of the lands covering the headwaters of the Santa Ynez River in said Santa Barbara County and the watershed of that river immediately adjacent to the main stream, and particularly the land included in the Rancho Los Prietos y Najalayegua, and the inclusion of said lands within one of the forest reservations already created by proclamation of the President and named the "Pine Mountains and Zaca Lake Forest Reserve," which was set apart as such reserve by the proclamation of the President, dated the second day of March, A. D. 1898, and enlarged by proclamation of the President, dated the 29th day of June, 1898, and the Santa Ynez Forest Reserve created by proclamation of the President of the United States, dated the 2d day of October, 1899.

The Santa Ynez Valley, properly so called, is that part of the county of Santa Barbara which lies along either bank of the river of that name below Marcos Rancho, extending for a length westward along the general course of the stream for a distance of about 20 miles, with an extreme width of about 5 miles, including the sites of the towns of Santa Ynez, Ballard, and Los Olivos, and embracing about 30,000 acres of agricultural land. This region, although now sparsely settled, is capable, with the development of its natural resources of supporting, a numerous and prosperous population. Its agricultural enterprises have not prospered for several years last past owing to the deficiency of rainfall, and it has become apparent that for its future prosperity it must depend upon the irrigation of its lands chiefly with the waters of the Santa Ynez River. An examination of the map which accompanies this petition will show the great importance of the forest reserves above mentioned for the protection of the watershed upon which the Santa Ynez River mainly depends for its flow and urgent need of completing that protection by including the lands which extend from the boundaries of the reserves down to the channel of the River. These lands, while partly covered with woods and brush, afford more attractive range for live stock than the higher slopes of the mountains, and have been used and are being used much for the grazing of sheep whose ravages threaten the destruction of the natural protection to the watershed, which but for their presence would thrive and could be readily improved. Moreover, the value of these lands for grazing purposes is an inducement for the burning off of the brush for the purpose of still further extending the growth of grass, besides which unauthorized parties have been cutting down trees that

protect the water sources, all of which menaces to the flow of the river would be averted by having these lands placed in a government forest reserve and under the guardianship of the forest supervisors and rangers. Extensive schemes for the irrigation of our valley lands from the river have been projected, and surveys and calculations therefor made, but their execution has been delayed and their realization we fear will be long postponed unless the sources of supply are assured of that effective protection which the government forest reserve system seems alone competent to afford.

We therefore urgently solicit your efforts in Congress and with the President for the securing of that protection for us and the many who then will come to live with us in a region whose agricultural prosperity will be assured.

SENATOR GEORGE C. PERKINS TO THE SECRETARY OF THE INTERIOR, DECEMBER 12, 1901, INCLOSING RESOLUTION OF THE BOARD OF SUPERVISORS OF SANTA BARBARA COUNTY, CAL., AND OF THE CHAMBER OF COMMERCE OF THE SAME COUNTY.

UNITED STATES SENATE,
Washington, D. C., December 12, 1901.

Hon. E. A. HITCHCOCK,
Secretary Interior, Washington, D. C.

MY DEAR SIR: I respectfully submit for your consideration a resolution of the board of supervisors of Santa Barbara County, Cal., and one of the chamber of commerce of the same county, requesting that the Rancho Los Prietos y Najalayegua be included in one of the forest reserves. I also submit for your information a copy of the act confirming the grant of said land.

Yours, very truly,

GEO. C. PERKINS,
United States Senator.

RESOLUTIONS OF BOARD OF SUPERVISORS OF SANTA BARBARA COUNTY.

Whereas a very large part of the county of Santa Barbara is embraced within a succession of valleys lying along the course of the Santa Ynez River and called locally the Santa Ynez Valley, which extends from the western boundary of the Rancho Los Prietos y Najalayegua westwardly to the Santa Rosa Rancho, a distance of about 35 miles, the Santa Rosa and Santa Rita valleys extending a distance of about 15 miles along the river to the immediate neigh-

borhood of the town of Lompoc, and the Lompoc Valley, which extends from the west boundary of the Santa Rita Rancho to the Pacific Ocean, a distance of 10 miles, making a total length of about 60 miles from the Rancho Los Prietos y Najalayegua to the ocean, which valleys contain a vast extent of farming land of excellent quality, a careful estimate of which gives for the Santa Ynez Valley 30,000 acres of farming land and for the Lompoc Valley 13,000 acres of very rich, nearly level alluvial deposit; and

Whereas a large portion of this great territory can be conveniently irrigated from the Santa Ynez River, which traverses its entire length, and although now but thinly populated, may, through the development of its natural resources, and particularly by the establishment of extensive systems of irrigation from the river, become the home of a large and prosperous agricultural community; and

Whereas it is of the greatest importance for the encouragement and success of irrigation enterprise that the sources of water supply should have all the natural protection which can be secured for them, and the most efficient means of securing such protection hitherto devised is by having the watersheds supplying the streams, upon which the irrigation must depend, embraced within the government forest reservations, so that the coverings of forest and brushwood, which check the wasteful floods and maintain a copious flow of the streams, may be preserved and improved; and

Whereas the headwaters of the Santa Ynez River, including over 20 miles in length of the beginning of its course (one-fourth of the entire length of the stream), and many important tributaries are embraced within the Rancho Los Prietos y Najalayegua, which is intruded like an enormous wedge between the Pine Mountain and Zaca Lake Forest reservations and the Santa Ynez Forest Reservation, rendering more difficult the effective management of those reservations and exposing them to serious danger from fires originating on the rancho and the inroads of browsing sheep and cattle; and it is the earnest desire of the supervisors of Santa Barbara County who have at heart the advancement of the interests of every part of the county that the conservation of the waters of the Santa Ynez River should be made more effectual by including within the forest reserve mentioned the whole of the Rancho Los Prietos y Najalayegua.

Be it resolved by the board of supervisors of Santa Barbara County, That the United States Senators from California and our Representative in Congress from the congressional district be earnestly solicited to promote such congressional legislation and to urge such executive action on the part of the President as may be required to effect the inclusion within a forest reservation of the rancho above named; and that a copy of this resolution be forwarded to each of them.

Passed and adopted by the board of supervisors of the county of Santa Barbara, State of California, at a regular meeting of said board this 2d day of December, A. D. 1901.

E. C TALLANT,
Chairman of the Board.

Attest:

[SEAL.] C. A. HUNT, *Clerk.*

Filed December 2, 1901, C. A. Hunt, clerk.

STATE OF CALIFORNIA,
County of Santa Barbara, ss:

I, C. A. Hunt, county clerk and ex officio clerk of the board of supervisors of the county of Santa Barbara, State of California, do hereby certify that the foregoing resolution was passed by the board of supervisors of said county and State at a meeting of said board duly held on Monday, the 2d day of December, 1901, and that the same appears of record on the minutes of said board of said date.

Witness my hand and seal of said board this 6th day of December, A. D. 1901.

[SEAL.] C. A. HUNT, *Clerk.*

COMMISSIONER OF THE GENERAL LAND OFFICE TO SENATOR GEORGE C. PERKINS, DECEMBER 31, 1901.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., December 31, 1901.

Hon. GEORGE C. PERKINS,
United States Senate.

SIR: I beg to acknowledge the receipt, by reference from the department, of your letter of December 12, 1901, submitting resolutions by the board of supervisors of Santa Barbara County and the chamber of commerce of that county, requesting that the Rancho Los Prietos y Najalayegua, which lies between the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve, be included in one of these reserves, by legislation and "such executive action on the part of the President as may be required to effect" such inclusion, in order that the headwaters of the Santa Ynez River and many of its important tributaries, which are embraced therein, may be protected and that the care of the two reserves may be facilitated.

In reply, I have the honor to inform you that, from the situation of the land grant in question, lying as it does, wedged in between the two reserves, and from the fact that it appears to be well watered, it would seem that it might be included in one or other of the reserves with advantage to the service. I am not, however, prepared to make any more definite statement in the matter in the absence of an official examination and report upon which to base an opinion. And since the records of this office show that patent has issued on this private land grant, it does not appear in order for this office to direct an examination and report thereon.

I return herewith the inclosures in your said letter.

Very respectfully,

BINGER HERMANN,
Commissioner.

MEMORANDUM BY ACTING CHIEF, DIVISION G, OF THE GENERAL LAND OFFICE, DECEMBER 28, 1901.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., December 28, 1901.

The private land grant in California known as Los Prietos y Najalayegua was patented February 19, 1875.

W. H. LEWIS,
Acting Chief, Division G.

JED L. WASHBURN AND SANTA BARBARA WATER COMPANY TO THE SECRETARY OF THE INTERIOR, FEBRUARY 19, 1902.

The SECRETARY OF THE INTERIOR OF THE UNITED STATES.

SIR: In obedience to the expressed wishes of the people of Santa Barbara County, Cal., and various official and commercial bodies of said county, the undersigned, Jed L. Washburn as the owner of 31,760 acres, and the Santa Barbara Water Company as the owner of 16,960 acres of the Rancho Los Prietos y Najalayegua in said county, if the same shall be with reasonable promptness included within one of the government forest reserves, hereby offer to convey the same to the United States free of all incumbrances in consideration of being granted the right to take lands of the government domain, not otherwise appropriated, of equal area of the class of land valued by the Government for disposition under the homestead and timber and stone acts at $2.50 per acre, deeming said rancho to be of equal value, and to select the same within one year from the time such right is so vested; reserving, however, to said water company the lands covering two dam sites which have already been surveyed for storage reservoirs, aggregating not over 160 acres, the necessary lands with water backed up in the reservoir sites by the dams, and the right of way for the aqueduct, and for a road from each dam site to the boundary of the rancho.

The said water company further consents that the land so reserved be made subject to forest reserve regulations and to the supervision of the officials and government employees in charge of the reserve.

Yours, respectfully,

JED L. WASHBURN.

Secretary The American Forestry Association,
Washington, D. C.

DEAR SIR: I inclose you copy of resolution passed by the board of directors of the chamber of commerce of Santa Barbara County, Cal., on the 4th instant in reference to the extension of the boundaries of the Santa Ynez Reserve or the Pine Mountain and Zaca Lake Reserve so as to include in the one or the other (more properly in the Santa Ynez Reserve) the Rancho Los Prietos y Najalayegua, and a copy of the resolution passed by the board of supervisors of the county of Santa Barbara, to which the resolution of the chamber of commerce refers. After the passage of the resolution by the chamber of commerce, the matter was referred to the committee on public utilities, of which I am chairman, to correspond with your association and earnestly solicit your support and aid in promoting such legislation and executive action as will accomplish this perfecting and protection of these reserves and the conserving and controlling of the waters of this important stream, the source of supply for irrigation of a large territory.

What is asked is in direct line with the policy of the President, as displayed in his message, and with that of your association as we understand it. This rancho of Los Prietos y Najalayegua, consisting of 48,000 acres, is surrounded by the two reserves, except on the west side, and is a great obstruction wedged between them, menacing them with danger from fires.

It is as valuable, to its extent, for forest reservation purposes as the two existing reserves, embracing as it does the headwaters and greater flow of the stream.

Independent of the economic importance of bringing this territory within the police rules and regulations of a reservation, to the owners of land dependent upon this river for water supply, it is necessary for the protection of the game upon the surrounding forest reserves that it be included in one or the other of them.

This tract of land or rancho would have been included in one of the reserves had it been deemed to be the subject of reservation by proclamation of the President; but being held by private ownership under Mexican grant, it was thought necessary to exclude it.

If action be taken to make it part of a reservation, an appropriation for the purchase of this property will not be required, as the present owners have given assurances that they will accept government land in exchange.

Information in detail concerning the physical character of this tract of land and the adjoining reserves can be obtained from Gen. B. F. Allen, superintendent of these reserves, who is now in Washington.

We sincerely hope that your association will feel justified in furthering this public utility.

I remain, respectfully, yours,

CHARLES F. CARRIER, *Chairman.*

RESOLUTION OF CHAMBER OF COMMERCE OF SANTA BARBARA COUNTY, CAL.

Whereas the policy adopted by the United States Government, in harmony with which are the President and the Department of the Interior, of protecting, conserving, and controlling the streams that are the genius of the agricultural wealth of regions where the rainfall is limited by the creation and maintenance of forest reserves has proved a success to a greater degree than was anticipated, as illustrated in our own State; and

Whereas the Santa Ynez River is one of the most important of all the streams upon which are dependent irrigable lands of the county of Santa Barbara; and

Whereas the headwaters and the great volume of this stream are embraced within the boundaries of a tract of land held in private ownership, known as the Rancho los Prietos y Najalayegua, resting as a great obstruction between the two forest reserves, the Pine Mountain and Zaca Lake Reserve and the Santa Ynez Reserve, and which should be included in one or the other of the reserves in order to assure the benefits the incidents of these reserves; and

Whereas the citizens of the valleys tributary to and dependent for their productiveness and development upon this stream have memorialized our Senators and Representatives to promote such legislation and secure such executive action as will secure the inclusion of said rancho within the boundaries of one of the existing forest reserves, and the board of supervisors of this county, guided by the voice of the people, has, by resolution, displayed the necessity of such action and solicited of our Senators and Representatives the furtherance of this project for the public benefit; and

Whereas the extension of the boundaries of the forest reserve so as to include this property is in harmony with the policy and economy of the American Forestry Association: Be it

Resolved, That the Chamber of Commerce of Santa Barbara County is heartily in accord with the board of supervisors of the county of Santa Barbara in its efforts to secure the inclusion of the Rancho los Prietos y Najalayegua within one or the other of the existing forest reserves and indorse its action in the matter; that it, the chamber of commerce of Santa Barbara, solicits the earnest effort of our Senators and Representatives in Congress and the American Forestry Association to secure, if possible, the perfecting of our forest reserves by the inclusion within the boundaries of the one or other thereof of the Rancho los Prietos y Najalayegua, and that a committee of three be appointed by the president of the chamber to have this matter in charge and take such action as may be best for the promotion of this public benefit.

That a copy of this resolution be transmitted to each of our honorable Senators and Representatives in Congress and to the American Forestry Association.

The foregoing resolutions were unanimously adopted at a regular meeting of the board of directors of the Chamber of Commerce of Santa Barbara County, held Wednesday evening, December 4, 1901.

Attest:

[SEAL.] C. M. GIDNEY,
Secretary of the Chamber of Commerce of Santa Barbara County.

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JANUARY 11, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., January 11, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I am in receipt, by reference from the department, for appropriate action, of a letter from Hon. George C. Perkins (United States Senate), dated December 12, 1901, submitting resolutions by the board of supervisors of Santa Barbara County, Cal., and the chamber of commerce of that county, requesting that the Rancho Los Prietos y Najalayegua, which lies between the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve, be included in one of these reserves, by legislation and "such executive action on the part of the President as may be required to effect" such inclusion, in order that the headwaters of the Santa Ynez River and many of its important tributaries, which are embraced therein, may be protected, and that the care of the two reserves may be facilitated.

I have the honor to inform you that the case of the Rancho Los Prietos y Najalayegua appears to be as follows:

1. The land is not located within a forest reserve, but is merely a projection between the two above-named reserves.

2. The area involved is about 49,000 acres.

3. It is a mountain valley of about 2½ by 3 miles in average width between two high ranges—the San Rafael and the Santa Ynez—and is drained by the Santa Ynez River.

4. As far as is known here, it is mostly a brush-land country of small value.

5. Communications between Hons. Jarrett T. Richards and Thomas R. Bard have been submitted by Col. William Cassell, from which it appears that efforts have been made to secure this measure, and also that the owners are willing to accept "scrip" of a "marketable kind" equivalent to the property, but that they want to retain about 1,500 acres of land favorably located to water. Also that an investigation was to be made by this office at once.

6. The owners have made no offer of any kind, and there is no assurance, therefore, that they will accept any kind of proposition.

7. There does not seem to be any urgent need of embodying this land in the reserve, and its inclusion therein will certainly establish a precedent of a very important nature.

8. If it is to be embodied in the reserve, then it would appear best to try to buy the land from the proper owners, but to guard against any "option" speculation, and also against the retention of the lands by the owners in such a form as to create a serious obstacle to the management and usefulness of the reserve.

9. Until a willingness of the owners themselves is assured by offer of contract, a costly investigation of the case by this office does not seem warranted.

On December 31, 1901, I returned the above-mentioned resolutions to Hon. George C. Perkins and informed him that since the records of this office show that patent has issued on this private land grant, it does not appear in order for this office to take any action in the matter.

The referred letter is returned herewith.

Very respectfully,

BINGER HERMANN, *Commissioner.*

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JANUARY 27, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., January 27, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I am in receipt, by reference from the department, for consideration and early report thereon, of a letter from Mr. George P. Whitelaw, dated at Santa Barbara, Cal., introducing Mr. Jarrett T. Richards, of Santa Barbara, and also of various communications from Mr. Richards and others, and copies of resolutions by the board of supervisors of Santa Barbara County, Cal., and the chamber of commerce of that county, requesting that the Rancho Los Prietos y Najalayegua, which lies between the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve, be included in one of these reserves, by legislation and "such executive action on the part of the President as may be required to effect" such inclusion, in order that the headwaters of the Santa Ynez River and many of its important tributaries embraced therein may be protected, and that the care of the two reserves may be facilitated; and two petitions, addressed to Hon. Thomas R. Bard (United States Senate), by residents and landholders in the Santa Ynez, Lompoc, and Santa Rita valleys, in the said county of Santa Barbara, praying that he will promote such action in regard to, not only the said private land grant, in particular, but, in addition, other lands extending westward therefrom, constituting the watershed of the Santa Ynez River immediately adjacent to the main stream.

I am also in receipt, by reference from the department, for consideration in connection with the above papers, of a letter from Hon. V. H. Metcalf, dated January 17, 1902, inclosing a copy of the above-mentioned resolutions by the board of supervisors of Santa Barbara County, and also a statement of facts as to why the Rancho Los Prietos y Najalayegua should be added to one of the said forest reserves.

As regards the matter of the proposed inclusion in one of the forest reserves of the Rancho Los Prietos y Najalayegua, I have the honor to invite your attention to my letter of the 11th instant, in which I made a full report in the case, based upon copies of the above-mentioned resolutions, received through Hon. George C. Perkins (United States Senate).

And since the records of this office show that the additional area referred to in the above-mentioned petitions to Senator Bard is, also, almost wholly covered by a number of private land grants, the views expressed in my said letter regarding the Rancho Los Prietos y Najalayegua are equally applicable in the case of the lands covered by these additional grants.

The referred papers are returned herewith.

Very respectfully,

BINGER HERMANN, *Commissioner.*

SENATOR THOMAS R. BARD TO THE SECRETARY OF THE INTERIOR, MARCH 6, 1902, INCLOSING APPLICATION OF THE CITIZENS OF SANTA BARBARA COUNTY, CAL.

UNITED STATES SENATE,
COMMITTEE ON FISHERIES,
Washington, D. C., March 6, 1902.

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: I beg to present to you herewith the formal application of the citizens of Santa Barbara County, made through their duly authorized agent, Jarrett T. Richards, to have the boundaries of either the Pine Mountain and Zaca Lake Forest Reserve or of the Santa Ynez Forest Reserve extended so as to include within them what is known as the Rancho Los Prietos y Najalayegua, appended to which application is the offer of the sole owners of the property to accept, in exchange for it, lands of the United States Government domain, not otherwise appropriated, of equal area, of the class of land valued by the Government for disposition under the homestead and timber and stone acts, at $2.50 per acre, which the owners believe to represent the value of the property to be surrendered.

The honorable the Commissioner of the General Land Office in his letter of January 11, 1902, forming part of his report upon this matter, as informally presented by Senator Perkins and myself, and in which report you concurred, says:

6. The owners have made no offer of any kind, and there is no assurance, therefore, that they will accept any kind of proposition.

* * * * * * *

8. If it is to be embodied in the reserve, then it would appear best to try to buy the land from the proper owners, but to guard against any "option" speculation, and, also, against the retention of the lands by the owners in such a form as to create a serious obstacle to the management and usefulness of the reserve.

9. Until a willingness of the owners themselves is assured by offer of contract, a costly investigation of the case by this office does not seem warranted.

The offer of the owners, accompanying the present application, meets these objections and certainly displays the transaction to be free from the most objectionable character of a speculation by the owners at the expense of the Government.

I sincerely trust that the department will now consider favorably this application, the granting of which the citizens of Santa Barbara deem of vital importance to them, and which they urge with such great importunity through their Representatives; and that it will, at as early a date as practicable, take the preliminary steps toward ascertaining the true value of the land offered to be surrendered, and toward affecting, if possible, the acquisition of it for forest reserve purposes.

Yours,

THOMAS R. BARD,
United States Senator.

PETITION OF SUNDRY ELECTORS OF SANTA BARBARA COUNTY, CAL.

STATE OF CALIFORNIA, COUNTY OF SANTA BARBARA.

To the Congress of the United States:

We, the undersigned electors of Santa Barbara County, Cal., respectfully petition your honorable body to pass an act setting apart

as a reservation of timber and all other natural growth, and the protection and maintenance of the natural water supply, Pine Mountain Range and adjacent lands thereto in Santa Barbara and Ventura counties, securing by such act the right of such persons as already own lands or have bona fide claims thereto, leaving such lands open for exploration for mines, as now provided by law, with the right to miners to have such use of natural timber for actual and legitimate purposes as now allowed by law, and providing for the entry of any lands within the said reservation under the homestead laws upon a showing to the Department of the Interior that the lands sought to be so entered are tillable agricultural lands; provided, however, that timbered lands shall not be entered, as homestead or otherwise, except under the mining acts.

JARRETT T. RICHARDS TO THE SECRETARY OF THE INTERIOR, MARCH 6, 1902.

HOTEL NORMANDIE,
Washington, D. C., March 6, 1902.

The SECRETARY OF THE INTERIOR.

SIR: On behalf of the people of Santa Barbara County, State of California, and being authorized to so act by the representative bodies of the county, the board of supervisors, and the chamber of commerce, I respectfully make application to have the boundaries of the Pine Mountain and Zaca Lake Forest Reserve or of the Santa Ynez Forest Reserve extended so as to include in one or the other of said forest reserves the Rancho los Prietos y Najalayegua.

I append to this application offer of the two owners of this rancho to surrender to the Government the lands embraced in the rancho upon receiving lands of equal value in exchange. I refer you to the communication of the board of supervisors and the Chamber of Commerce of Santa Barbara, addressed to Senator Thomas R. Bard, evidencing my authority to act on behalf of the people of Santa Barbara, on file in your office, in this matter, which has already been presented to you by Senator Bard and Senator Perkins and Representatives James McLachlan and Victor H. Metcalf, informally, at the request of the citizens of Santa Barbara and their representative bodies. I also refer to the memorials and brief on file in this matter.

I respectfully ask the early and, I trust, favorable consideration of this application, as our people are confronted with another year of insufficient rainfall; and the preservation of the waters of the

Santa Ynez River is of the utmost importance to the owners of land and the citizens of a large and important portion of Santa Barbara County.

Respectfully, JARRETT T. RICHARDS.

ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, APRIL 4, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., April 4, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have the honor to acknowledge the receipt, by departmental reference, for consideration and appropriate action, of a letter from Hon. Thomas R. Bard (United States Senate), transmitting a petition by citizens of Santa Barbara County, Cal., by their agent, Mr. Jarrett T. Richards, to have the Rancho los Prietos y Najalayegua included within the limits of a forest reservation.

By letter of even date to Senator Bard I have advised him that Forest Superintendent Allen, of Los Angeles, Cal., has been called on to make a full report as to the character of the land proposed to be included in a reservation, and as to the advisability of taking such action, and that as soon as said report is received the matter will be forwarded to you with my recommendations.

Very respectfully,

W. A. RICHARDS,
Acting Commissioner.

ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO SENATOR THOMAS R. BARD, APRIL 4, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., April 4, 1902.

Hon. THOMAS R. BARD,
United States Senate, Washington, D. C.

SIR: I have the honor to acknowledge the receipt, by reference from the honorable Secretary of the Interior, of your letter of March 6, 1902, submitting an application by citizens of Santa Barbara County, Cal., through their agent, Jarrett T. Richards, to have the boundaries of either the Pine Mountain and Zaca Lake or the Santa Ynez Forest Reserve extended so as to include what is known as the Rancho los Prietos y Najalayegua.

I am directed by the honorable Secretary to take appropriate action in the matter.

In order to give this matter proper consideration before expressing my views thereon, I have directed Forest Superintendent B. F. Allen, of Los Angeles, Cal., to make a full report on the character of the land and others matters relating to the advisability of including it within a forest reservation.

As early as possible after receiving this report I shall take the matter up and forward it to the honorable Secreatry of the Interior with my recommendations.

Very respectfully, W. A. RICHARDS,
Acting Commissioner.

COMMISSIONER OF THE GENERAL LAND OFFICE TO B. F. ALLEN, FOREST SUPERINTENDENT, LOS ANGELES, CAL., APRIL 5, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., April 5, 1902.

Mr. B. F. ALLEN,
Forest Superintendent, Los Angeles, Cal.

SIR: Inclosed is copy of an application of Mr. Jarrett T. Richards, and copy of the joint offer of Mr. Jed L. Washburne and the Santa Barbara Water Company, in the matter of having the Rancho Los Prietos y Najalayegua, which lies between the Pine Mountain and Zaca Lake and the Santa Ynez Forest Reserves, included in one or the other of those reserves.

An examination and report upon the land embraced in this rancho is desired. You are therefore requested to instruct a good competent forest officer to make a thorough investigation, going over the land portion by portion and along lines 400 yards apart if open country, or at such distance as will enable him to look over the stretch of land and note the points thereon in a notebook.

Keep the same direction and distances for each portion, which should be designated by letter, as: Tract A; Tract B; Tract C, etc., and delineated on a sketch map. If any one portion is practically of the same character and presents practically the same points as the preceding, the description of the one may answer for the other, and the note will then simply be: "Same as last tract," etc.

Submit report to this office upon each tract separately, stating:

1. Topography:
(*a*) How much is mountainous?
(*b*) How much is steep?
(*c*) How much is level?
(*d*) How much is rough?
(*e*) What streams and other natural features?
2. Soil:
(*a*) How much is deep or shallow?
(*b*) How much is sand or loam?
(*c*) How much is stony?
(*d*) How much is swampy?
3. Character of the land:
(*a*) On what proportion of it is there a stand of timber?
(*b*) What proportion is covered by useless scrub growth?
(*c*) What proportion is bare land?
(*d*) What proportion, if any, is grazing land?
4. What use is made of the land?
5. What improvements on it?

Also make a résumé or general report on the tract as a whole, stating:

1. Topography:

(*a*) What proportion is mountainous?

(*b*) What proportion is steep?

(*c*) What proportion is level?

(*d*) What proportion is rough?

(*e*) Mention the streams, and describe their length and general direction of flow.

2. Soil:

(*a*) What proportion is deep or shallow?

(*b*) What proportion is loam?

(*c*) What proportion is stony?

(*d*) What proportion is swampy?

3. Importance of the tract for forest uses:

(*a*) On what portion of it is there a stand of timber?

(*b*) What proportion is covered by useless scrub growth?

(*c*) What proportion is bare land?

(*d*) What proportion, if any, is grazing land?

(*e*) What proportion, if any, is tillable?

4. Water flow:

(*a*) Approximate size of streams at a few important points.

(*b*) Whether used for irrigation purposes.

(*c*) Value of the water rights.

(*d*) Name and status of every company owning any water rights.

(*e*) Approximate value of water rights reserved by the Santa Barbara Water Company and mentioned in the petition herewith inclosed.

(*f*) Whether or not the value of lands and rights reserved as stated in the petition constitutes the greater portion of the value of the rancho.

(*g*) Whether the backing up of the water in the reservoir sites, stated in the petition, would cover a large area of the rancho, and to what extent.

For purposes of examination and report the map of the company may be used as a base or skeleton to copy from.

Very respectfully,

BINGER HERMANN, *Commissioner.*

ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JULY 7, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., July 7, 1902.

The SECRETARY OF THE INTERIOR.

SIR: By letter of April 4, 1902, I acknowledged the receipt, by reference from the department, for consideration and appropriate action, of a letter from Hon. Thomas R. Bard (United States Senate), presenting a petition by citizens of Santa Barbara County, Cal., by their agent, Mr. Jarrett T. Richards, to have the private land claim known as "Rancho los Prietos y Najalayegua" included within the

limits of a forest reservation; and I reported that Senator Bard had been advised that Forest Superintendent B. F. Allen had been called upon to make full report as to the character of the land proposed to be included within a reservation, and as to the advisability of such action, and that as soon as said report should be received the matter would be referred to you with my recommendation.

I now have the honor to advise you that full report upon the character of the lands within the said private land claim, prepared by Forest Supervisor Willis M. Slosson, after his thorough examination of said lands, was transmitted to this office by Superintendent Allen on June 14, 1902. The said report, and all the other papers in the case, including a plat of said private land claim showing its location, topography, and area, are inclosed herewith.

Rancho los Prietos y Najalayegua, embracing 48,729 acres, is situated between and adjoining the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve. The application for the inclusion of this tract within one or the other of the said forest reserves is made by Mr. Jarrett T. Richards, on behalf of the people of Santa Barbara County, Mr. Richards being authorized to so act by the representative bodies of the county, the board of supervisors and the chamber of commerce.

Appended to the said application for the inclusion of the rancho within a forest reserve is a joint offer of Jed L. Washburn and the Santa Barbara Water Company, as the owners of the rancho—

to convey the same to the United States free of all incumbrances in consideration of being granted the right to take lands of the government domain, not otherwise appropriated, of equal area, of the class of land valued by the Government for disposition under the homestead and timber and stone acts, at $2.50 per acre, deeming said rancho to be of equal value, and to select the same within one year from the time such right is so vested; reserving, however, to said water company the lands covering two dam sites which have already been surveyed for storage reservoirs aggregating not over 160 acres; provided said water company is secured the privilege of covering the necessary lands with water backed up in the reservoir sites by the dams, and the right of way for the aqueduct and for a road from each dam site to the boundary of the rancho.

Supervisor Slosson, in his said report herewith, after specifically reporting upon each of the divisions of the rancho as divided by him for purposes of examination, concludes with a general report or summing up. Paragraph No. 3 of this résumé treats of the importance of the rancho for forest uses, and is as follows:

(*a*) There is a fair stand of live oak timber on about 2,000 acres, and live oak trees are scattered along the Santa Ynez and in the main side canyons; also some mountain maple, white oak, and sycamore, and a few fir and ash trees. (*b*) Probably 40,000 acres of the rancho is covered with brush, and the benefit therefrom is shown in tracts *b* and *c*, where there is a heavy brush cover on the south side of the river and a good water flow from all the small canyons. (*c*) About 5,000 is bare, counting river bottom.

These lands would be of very small use for forest purposes, and there would hardly be sufficient reason for their reservation for such purposes, even if the area were owned by the Government. The general benefits already insured by the reservation of extensive surrounding areas—the lands now within the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve—would not, in my opinion, be increased by the inclusion within reserve limits of the narrow strip comprising this rancho. The sources of practically all the streams flowing into and through the rancho are included in the two forest reserves mentioned.

It has been deemed advisable, as one of the basic principles of forest reservation, that towns and communities should be assisted by the reservation of lands for the protection of their water supply in all cases where the lands desired to be reserved are of such character and status as to warrant their reservation. In the present case, however, it appears not only that the character of the lands is such that no increased benefits would result from their inclusion within a reservation, but also that the status of the land with regard to ownership is such that under existing legislation their inclusion within a forest reserve may not properly be recommended. No portion of the area in question is owned by the Government.

After careful consideration of the matter, I am of the opinion that there is no authority for an executive act including within a forest reserve only lands which are not owned by the Government. In this case it is proposed that by executive proclamation the boundaries of one or the other of the above-mentioned reserves shall be extended to take in these lands which, as indicated, constitute a continuous area containing no public lands.

Public forest reserves are created under the authority contained in section 24 of the act of March 3, 1891 (26 Stat., 1095), which provides:

> That the President of the United States may, from time to time, set apart and reserve, in any State or Territory having public land bearing forests, in any part of the public lands wholly or in part covered with timber or undergrowth, whether of commercial value or not, as public reservations; and the President shall, by public proclamation, declare the establishment of such reservations and the limits thereof.

Provision is made in the act of June 4, 1897 (30 Stat., 34–36), relating to forest reserves created under the act of March 3, 1891, authorizing the President—

> to revoke, modify, or suspend any and all executive orders and proclamations, or any part thereof, from time to time, as he shall deem best for the public interests.

While it is clear that the above-mentioned legislation authorizes the reservation by the Executive, for the purposes named, of "any part of the public lands" of the character designated, it is as clear that the Government, excepting in cases requiring the exercise of its eminent domain, can no more reserve or set apart, for its own use, lands which it does not own, than can one individual reserve or set aside for his own use lands owned by another.

It is true that in the establishment of reservations of public lands under the said act of March 3, 1891, many instances have arisen in which the reservation boundaries have necessarily been so drawn as to embrace some lands not owned by the Government, but such lands, while within the limits of the reservations, constitute no part thereof, the proclamation in itself in no way affecting either the title to said lands or the possessory rights of the owners or claimants with regard thereto.

This inclusion within forest reserves of lands not owned by the Government, which, as stated, was found practically unavoidable in some instances, so decreased the value and desirability of such lands that the owners and claimants whose lands were so affected demanded relief; and it was this demand which gave rise to the exchange provision of the act of June 4, 1897 (30 Stat., 36), allowing the owner or claimant of lands "within a forest reservation" to exchange such lands for public lands "outside of the reservation." This provision, however, is purely remedial, and was not intended to prepare the

way for the unlimited inclusion, within forest reserve boundaries, of lands not owned by the Government. On the other hand, the causes which led to the enactment of the law just referred to are in part indicative of the inadvisability of the inclusion within forest reservations of any but public lands.

Reasonably construing the existing legislation in the matter, it seems clear that in the establishment of forest reserve boundaries the inclusion therein of lands not owned by the Government, excepting in cases where such inclusion is practically unavoidable in order to include the desired public lands, is neither authorized nor contemplated.

The proposal that the rancho be included within a forest reserve could be favorably considered by the Government only upon the assumption that the existing legislation constitutes a means whereby the Government may purchase areas containing no public lands, with a view to reserving such areas for forest purposes when title thereto is obtained under the purchase. The inclusion within a forest reserve of this area of 48,729 acres, as proposed, with the resultant exchanges or lieu selections which the owners of the lands stand ready to make, would amount, in effect, to the purchase by the Government of the lands in question, the price to be paid by the Government being an equal quantity of double minimum public lands, valuable for settlement, to be selected wherever the selector might desire.

For the reasons hereinbefore set forth I respectfully submit that the inclusion of the rancho within a forest reserve in accordance with the said proposition which has been presented to the department may not properly be recommended.

Very respectfully,

W. A. Richards,
Acting Commissioner.

R. WOODLAND GATES, PRIVATE SECRETARY OF SENATOR BARD, TO THE DIRECTOR OF THE GEOLOGICAL SURVEY, JULY 27, 1902.

Hotel Clarion,
Atlantic City, N. J., July 27, 1902.

Hon. Charles D. Walcott,
Director Geological Survey,
Washington, D. C.

Sir: I am instructed by Senator Bard to inform you that he is interested on behalf of the people of Santa Barbara, Cal., in the matter of the inclusion within a forest reserve of the Rancho los Prietos Najalayegua, which was recently referred to you by the Secretary of the Interior, and he suggests that if you entertain doubt as to the advisability of such action, that it might be well to communicate with Mr. Slosson, the forest superintendent, who examined the rancho, asking him to report as to the advisability of such inclusion, irrespective of values, and to also give the people of Santa Ynez an opportunity of presenting the facts in favor of affirmative action. Please forward your reply to me at above address, and oblige,

Yours, respectfully,

R. Woodland Gates,
Private Secretary.

SENATOR THOMAS R. BARD TO THE DIRECTOR OF THE GEOLOGICAL SURVEY, AUGUST 12, 1902.

HUENEME, CAL., *August 12, 1902.*

Hon. CHARLES D. WALCOTT,
Director U. S. Geological Survey,
Washington, D. C.

SIR: Understanding that the Secretary of the Interior has referred to you the adverse report of the Commissioner of the General Land Office in respect to the petition of citizens of Santa Barbara County, Cal., to have the Rancho los Prietos y Najalayegua included within the limits of the Santa Ynez or the Pine Mountain and Zaca Lake Forest Reserve, I ask the privilege of laying before you for consideration the following information and suggestions:

I have recently met Mr. Willis M. Slosson, forest supervisor, who made a thorough examination of the lands and report thereon, showing the location, topography, and area. His report was limited by his instructions to these points, and it did not attempt to fix valuations for the land, or to express any opinion as to the desirability of including them in a forest reserve. He is an intelligent and practical man, and in my estimation one of the most devoted men in the forestry work in California. I learned from my conversation with him that, while he has not considered the question as to the actual value of the lands in question, he would, if asked to give his opinion as to the desirability of having them included in the reserve, say that their inclusion is actually necessary for carrying out the purposes of the reservations.

I desire also to state that the people residing in the Lompoc Valley have for over twenty years attempted to farm that splendid body of lands, estimated at about 7,500 acres, without irrigation, and with most unsatisfactory results, until about four years ago, when a project for utilizing the waters of the Santa Ynez River for the irrigation of a few hundred acres was put into operation and resulted in multiplying the net ordinary returns of the soil several times. This object lesson led the people with one accord to recognize the great advantage of irrigation, and they have united to secure an irrigating system which will utilize all the available water in the river. There is no other source of supply. They are of the opinion that their valley, which is composed of very rich alluvial soil, will become, when put under irrigation, one of the most fruitful and prosperous valleys in the world, but that without it it will remain a most indifferent place. They realize that it is of the greatest importance to them that the source of their water supply should be protected, and that all of the rainfall should be conserved. Their engineers are doubtful as to the practicability of impounding the flood water, owing to the topography and character of the soil where it would be possible to construct a reservoir, and, therefore, as they must depend upon the natural flow of the water, it is important that the natural reservoirs should be protected. Much of the watershed of the river is included within the Rancho Najalayegua, and it matters very much whether the rainfall during the winter months is held back and allowed under natural conditions to supply the river throughout the year, or whether it be permitted to rush down and form ungovernable torrents for a short time and leave no reserve for the rest of the year. They know that the

protection and encouragement of the timber and undergrowth on the rancho will conserve their water supply, and that the destruction of the cover will certainly deprive them of water eventually. They expect to expend $150,000 in the construction of their irrigating plant, provided their petition is favorably acted upon.

I note that the honorable acting commissioner, in his report, questions the power of the department to take action petitioned for, but the department gave Hon. Jarrett T. Richards, the representative of the board of supervisors, and of the chamber of commerce of Santa Barbara, informally to understand in the beginning that an act of Congress was not necessary and that the department had power to act. The Honorable Commissioner of the General Land Office, by his letter of June 11, 1902, and his supplemental letter of June 27, 1902, to the Secretary of the Interior reported adversely to the petition on the ground that no offer had been made by the owners. Mr. Richards then obtained an offer from the owners to surrender the rancho in exchange for public land, of double minimum class, acre for acre, and on March 6, 1902, on behalf of the people, he renewed the application, with offer of owners of the rancho attached.

Upon this latter application the examination of the property was had by the honorable commissioner, and there seemed to be no question at that time as to the power in the executive department to act, and the impression was given that the only thing needed for the department to act was an agreement with the owners to accept public land of equal value of exchange. It would seem that the commissioner acted upon the theory that the Executive had power to take private lands in exchange for grant of public lands of equal value, as there would in reality be no diminution of the area or in the value of the public domain, and that after the Government had so acquired the new territory, it could under the law and by executive order, include the granted land in the forest reserve. In view of the circumstances that, after the opinion of the acting commissioner had been given that under existing legislation there is no authority for an executive act to include only private lands in a forest reserve, the Honorable Secretary of the Interior has referred the matter to the Director of the Geological Survey, it is inferred that he desires to be informed particularly as to the advantages and necessity of including the rancho lands in the reserve, and that he finds in the opinion of the assistant commissioner no insuperable difficulty. The order for examination of the character of the lands in question implied that the honorable commissioner considered the basis of the proposed exchange as probably fair, but that before accepting the offer, it was necessary to protect the interests of the Government by appraising the land, in order that there should be given only value for value.

Now, if the report of the examiner has failed to impress the officers of the department with the fairness of the offer, the people who are not vitally interested in the conservation of the waters are not without hope that the owners of the rancho will make concessions satisfactory to the Interior Department, or that they themselves, being so informed, may be able through their negotiations with the owners, to induce them to make all needed concessions and to adjust the differences between their views and those of the department; and that they are very anxious that before the matter shall be finally disposed of by the Honorable Secretary of the Interior an investiga-

tion may be made, under direction of the Government, with the view of determining as to the importance and necessity of including the lands of the rancho in a forest reserve, or else that they may be given an opportunity to submit testimony of recognized experts on this branch of the subject.

By an inadvertence, for which I am myself alone responsible, a letter, almost identical with this, was addressed to the Hon. Gifford Pinchot, chief, Bureau of Forestry in the Agricultural Department, instead of to yourself, and it was preceded by a telegram of same tenor, also addressed to Mr. Pinchot. The blunder is inexcusable, but I hope it may be corrected in time for your consideration of this appeal in behalf of the petitioners, who I am sure are sincerely convinced that the decision of the Secretary of the Interior in the matter is of vital consequences to them.

Yours,

THOMAS R. BARD, U. S. S.

COMMISSIONER OF THE WATERWORKS DEPARTMENT SANTA BARBARA, CAL., TO SENATOR THOMAS R. BARD, SEPTEMBER 15, 1902.

WATERWORKS DEPARTMENT,
CITY OF SANTA BARBARA, CAL.,
Santa Barbara, Cal., September 15, 1902.

Hon. THOMAS R. BARD,
Hueneme, Cal.

SIR: The value of water in the State of California is greater than in any other State in the Union. In Santa Barbara and vicinity its value is greater than at any other point in California.

In the city of Santa Barbara an inch of water (a flow of 9 gallons per minute) will earn 5 per cent interest on a value of $6,000. In the adjacent valleys an inch will sell for irrigation purposes alone at $2,000. Yet at these valuations the supply does not approach the demand.

The town of Santa Barbara has 10,000 people requiring water. The adjacent valleys, Carpinteria, Montecito, and Goleta, have 15,000 acres of land needing irrigation. Together they occupy the narrow strip of coast lying between the ocean and the Santa Ynez range of mountains. This range rises to a height sufficient to direct the drainage of the extensive watershed immediately north into the Pacific Ocean, 65 miles west. To correct this unkindness in nature, the city of Santa Barbara has undertaken to drive a tunnel a distance of 4 miles through the range in order to divert a portion of the drainage at a point where 300 square miles of watershed contribute to it.

The magnitude of the task undertaken, stupendous though it seems, is not the chief obstacle encountered in the endeavor to secure a water supply.

The lands in which the tunnel will emerge in the Santa Ynez Valley are held in private ownership and are subject to the monopoly, and, from a water-conserving standpoint, to the misuse and wreck incident to it. These private lands comprise the Rancho los Prietos y Najalayegua, some 5,000 acres, and occupy the heart of the drain-

age basin of the forest reserves by which they are surrounded. These reserves, established for the express purpose of conserving the water for public use, can not deliver them to that portion of the intended beneficiaries residing on the south side of the range until they have passed through this private domain and paid tribute to its owners, whose consent must first be secured.

This statement of the existing conditions and the extensive work undertaken to remedy them I trust will make evident the wish, or, more incisively stating it, the anxiety of the people of Santa Barbara and vicinity that in order to free them from private obstruction and insure the protection, extension, and deepening of the forest cover, by means of which the waters are conserved, these private lands, upon which they must forever depend for water, be acquired by the Government and included in its reserves.

Very respectfully, yours,

E. S. SHEFFIELD, *Commissioner.*

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, SEPTEMBER 23, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., September 23, 1902.

The SECRETARY OF THE INTERIOR.

SIR: Referring to office letter of July 7, 1902, inclosing papers and making report in the matter of Rancho los Prietos Najalayegua within the limits of either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, in California, I now have the honor to transmit further reports in the matter, containing definite recommendations, with reasons therefor, by Forest Superintendent B. F. Allen and Forest Supervisor Willis M. Slosson, favorable to the proposed inclusion of the rancho within one of the said reserves.

The original report by Supervisor Slosson, transmitted to the department on July 7, 1902, while fully describing the lands within the rancho, contained no definite recommendations regarding the proposed inclusion of the rancho within one of the said reserves, and the supplemental reports herewith were called for by this office on July 14, 1902, upon the oral request of the Geological Survey, made through Hon. Thomas R. Bard's private secretary, the matter having been referred by the department to the Geological Survey for consideration.

It will be noted that the supplemental reports herewith, favoring the inclusion of the rancho in one of the said reserves, is based entirely upon the argument that such action would render the administration of both said reserves more successful and economical, by lessening the distance of reserve boundaries now necessary to be patrolled and by eliminating danger to the reserve now liable to result from fires and from the grazing of stock which is permitted upon the rancho by its owners.

While it is true, in a sense, that the inclusion of the rancho would probably result in some advantage in facilitating the administration of the reserves for the reasons stated in the said supplementary

reports, the question as to what effect the proposed action would have upon the reserves to be affected thereby has not been an elemental consideration with the department in the matter of making additions to or eliminations from forest reserves. Instead, such action has in each case been governed by the actual character of the land proposed to be added to or taken from the reserve.

For instance, in the case of the recent extensive elimination of lands from the White River Forest Reserve said elimination has added very largely to the distance of the boundaries of said reserves and has increased the difficulties of its administration, but this fact constituted no important consideration in the matter, for the reason that the lands eliminated were of such a character that they should not be retained within the reserve limits, being in this instance more valuable for agricultural than for forestry purposes.

In the case of the rancho it appears clearly that the lands are of little or no value, in themselves, for forestry purposes.

I do not concur in the recommendation favoring the inclusion of the rancho within a reserve. Said office letter of July 7, 1902, fully discusses the reasons why the proposed inclusion of the rancho, regardless of its situation or character, may not, in the opinion of this office, be recommended; such reasons being that no part of the tract is owned by the Government, and the proposition made by the owner of the rancho contemplates the attempt to make the exchange provision of the act of June 4, 1897 (30 Stat., 36), serve as a means whereby the Government shall, in effect, purchase the rancho from its owners with a view to reserving it thereafter for forestry purposes.

Very respectfully,

BINGER HERMANN, *Commissioner.*

JARRETT T. RICHARDS TO SENATOR THOMAS R. BARD, OCTOBER 4, 1902.

SANTA BARBARA, CAL., *October 4, 1902.*

Hon. THOMAS R. BARD,
United States Senate, Washington, D. C.

DEAR SIR: I inclose you herewith a communication which I make to the honorable Secretary of the Interior, as representative of the citizens of Santa Barbara, Cal., except to the report of the Acting Commissioner of the General Land Office, Mr. W. A. Richards, in the matter of the application of the citizens of Santa Barbara to have included the Rancho los Prietos y Najalayegua in one or the other of the forest reserves, the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve, wherein the opinion of the acting commissioner is to the effect that authority does not exist to make such inclusion by executive action.

I will ask you to kindly transmit this communication to the honorable Secretary of the Interior to be considered in said matter of the said application of the citizens of Santa Barbara for this utility.

Respectfully, yours,

JARRETT T. RICHARDS.

JARRETT T. RICHARDS TO THE SECRETARY OF THE INTERIOR, OCTOBER 4, 1902.

SANTA BARBARA, CAL., *October 4, 1902.*

The SECRETARY OF THE INTERIOR.

SIR: Representing the citizens of Santa Barbara County, Cal., in the matter of the application, through their representative bodies, to have included within one or other of the forest reserves in the county of Santa Barbara, the Rancho Los Prietos y Najalayegua, I beg to respectfully except to the report in this matter of Acting Commissioner of the General Land Office W. A. Richards, to the honorable Secretary of the Interior, bearing date the 7th day of July, 1902, wherein the opinion is advanced that there is no authority for an executive act enlarging the boundaries of one of these reserves so as to embrace this territory held in private ownership under United States patent.

The acting commissioner in drawing his conclusions as to such want of authority is evidently influenced by his opinion previously arrived at, that it is not a needed utility, which opinion is based alone upon the first report of Forest Supervisor Slosson, who examined the territory sought to be included, as to its naked physical features. Mr. Slosson made no reference to the practical effect the protection by forest reserve rules and regulations in the preserving of the timber and undergrowth upon the rancho would have in the conserving of the flow of water in the Santa Ynez River, and the necessity of this stream to supply with a sufficiency of water, a large area of fertile land and a numerous and ever increasing population, and his report did not display directly the incompleteness of the existing reserves, with this separating wedge between them, and the menace of this foreign territory to their beneficial operation.

The acting commissioner seems to have viewed this petition of a community seeking the aid of the Government in its humanitarian and economic policy of conserving by guarded preserves and making of universal use in arid regions the limited sources of water supply, to protect, by perfecting the reserves, the stream, the most important in this county, so far as fertile lands and population are affected, as an attempt to create a new and isolated reservation out of land held in private ownership whose waters are already protected by existing forest reserves.

The actual information now before this department and the further examinations made and facts ascertained since the making of this report, I feel, will justify the consideration of this question from a broader standpoint.

The Pine Mountain and Zaca Lake and the Santa Ynez forest reserves embrace a very extensive area, principally of land which was vested in the United States Government at the times of their creation; but within its boundaries are many tracts of land held in private ownership under United States and state patents.

To make perfect these reserves the Rancho los Prietos y Najalayegua should have been and could now be included within the boundaries with the same legal effect, and we believe with the same propriety, as other patented lands were taken in. One of the principal purposes of the establishment of forest reserves is "of securing favorable conditions of water flow" (act of June 4, 1897, 30 Stat., 34–36), or, as stated in "Compiled Laws, etc., Relating to Creation

and Administration of Public Forest Reserves," issued from the General Land Office September 6, 1900, page 15, "insuring conditions favorable to continuous water flow." And, using the language of the acting commissioner in his report, "it has been deemed advisable, as one of the basic principles of forest reservation, that towns and communities should be assisted by the reservation of land for the protection of their water supply."

Had this rancho been included within one or the other of these two forest reserves and subjected to their laws, the main purposes of their establishment would have been fully carried out in the county of Santa Barbara and the continuous flows of its streams insured. As these reserves now stand they afford protection (not perfect, as this rancho is a constant menace and obstruction) to the water courses other than the Santa Ynez River, and yet this latter stream is a great factor in the growth and development of the community and holds dependent upon it a larger area of land productive through irrigation and is essential to the needs of a more numerous population than any of the others, and its integrity depends absolutely upon the conservation of the timber and undergrowth upon the Rancho los Prietos y Najalayegua.

If this statement of facts be true, and I feel that the information now in the possession of the department will verify it, the perfecting of this reservation consisting of the two forest reserves referred to, by including this tract of land, will be directly within the purpose and policy of the Government in establishing these great public safeguards and utilities, and falling within this policy and purpose, there is no legal or moral impediment to the reestablishment of the boundaries of one of these reserves so as to include this property.

This rancho, as has been said, is held under United States patent. Had the boundaries of one of the reserves been such as to embrace it, it would have stood in the same position as other patented land within them, and would have been exchangeable for vacant lands of the United States outside the reserves.

In cases in which a tract covered by an unperfected bona fide claim or by a patent is included within the limits of a public forest reservation, the settler or owner thereof may, if he desires to do so, relinquish the tract to the Government, and may select, in lieu thereof, a tract of vacant land open to settlement, not exceeding in area the tract covered by his claim or patent. (Circular, Department of the Interior, Dec. 18, 1899—Com. Laws of Forest Reserves, Nov. 6, 1900, p. 24.)

The law does not require that the title perfected by patent, to invoke the right, must have been initiated under the settlement laws of the United States. If the patent evidence complete private ownership, independent of any interest or estate vested in the United States, whatever may have been the foundation of title, the right of relinquishment and selection of lieu land exists. (Ib.)

The words "tract covered * * * by a patent," as used in said act (June 4, 1897), embrace and include a tract to which the full legal title has passed out of the Government and beyond the control of the Land Department by any means which is the full legal equivalent of a patent. (F. A. Hyde, et al., 28 L. D., 284, Id., p. 27P.)

The right of relinquishment under said act is not limited to claims initiated or title acquired under laws that require personal settlement and residence on the land, but includes any tract * * * to which the full legal title has passed out of the Government and beyond the control of the Land Department, by any means which is the full legal equivalent of a patent. (Instructions, 28 L. D., Ib., p. 28.)

Land acquired under a grant made to a State or railroad company by act of Congress is a proper basis for lieu selections under said act, provided that the full legal title thereto has passed out of the Government and beyond the control of the Land Department by patent, or some means the full equivalent thereof. (Instructions, 28 L. D., 328, IB).

The grant of the lands constituting the Rancho los Prietos y Najalayegua, as shown by the United States patent on file in the Department of the Interior with the papers in this matter, was confirmed by act of Congress, and thereafter patent was issued to the grantor and predecessor of the present owners, by which all claim and interest of the United States passed out of the Government to the grantee in private ownership.

The act of June 4, 1897, with respect to lieu land selection, was intended to provide for extinguishing private title to such lands only as would be a part of an established forest reservation if it were not for their private ownership. (Santa Fe Pacific Ry. Co.; 29 L. D., 597, Ib).

It will be seen that the main and really only thing to be assured so as to invoke and entitle to recognition the right of relinquishment and lieu selection is that the land is actually held in private ownership with title equivalent to what a patent would confer or evidence, in which the United States has no interest, and this whatever may be the foundation of title, initiative settlement, United States, state, or Mexican grant.

The law, as construed by the department, thus recognizes the power to include, by executive act, in forest reserves, patented lands held in private ownership, and also permits by relinquishment, selection, and exchange for vacant lands of the United States, the acquiring by the Government of such private property, so as to make it a constituent part of its forest reservation.

As before stated, it is not required and it is not asked that the Rancho los Prietos y Najalayegua be established as an independent forest reserve; but what is requested is that the boundaries of one of the present forest reserves be extended so as to include and the powers of the department used to acquire this property in order that the flow of the important stream, the Santa Ynez River, be protected, that the system of forest reservation established in this part of southern California be perfected, and that this tract of land held in private ownership cease to be a menace to its effectiveness.

In addition to the general authority to establish forest reserves given to the President by act of March 3, 1891, the act of Congress of June 4, 1897, provides:

The President is hereby authorized at any time to modify any executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary lines of such reserve, or may vacate altogether any order creating such reserve.

Under this act ample authority is conferred to do what is petitioned for, by executive action.

I beg to cite as a precedent an instance of a much more complicated nature than characterizes the present matter, where the powers of the department and the executive were recognized in their action as broad and flexible in the promotion of the beneficial purposes of forest reservation, the change of the boundaries of the San Francisco Mountains Forest Reserve, in Arizona, so as to include large areas of land held in private ownership (see proclamation of the President, April 12, 1902).

In the proclamation referred to the President recites as the foundation of his authority the act of March 3, 1891, by which the general authority to establish forest reserves is conferred, and the provision of the act of June 4, 1897, quoted above, under which the boundaries of existing reserves may be changed.

Respectfully submitted.

JARRETT T. RICHARDS.

PRIVATE SECRETARY TO SENATOR THOMAS R. BARD TO THE SECRETARY OF THE INTERIOR, OCTOBER 10, 1902, INCLOSING LETTER FROM JARRETT T. RICHARDS.

UNITED STATES SENATE,
COMMITTEE ON FISHERIES,
Washington, D. C., October 10, 1902.

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: In compliance with the request of Hon. Jarrett T. Richards, of Santa Barbara, Cal., as contained in his letter of the 4th instant, addressed to Senator Bard and herewith inclosed, I have the honor to transmit for the consideration of the Secretary of the Interior a communication addressed to the Secretary by Mr. Richards, in re application of the citizens of Santa Barbara, Cal., to have included within the Pine Mountain and Zaca Lake or the Santa Ynez Forest reservations, the Rancho Los Prietos y Najalayegua.

Yours,

R. WOODLAND GATES,
Private Secretary.

JARRETT T. RICHARDS TO SENATOR THOMAS R. BARD, OCTOBER 12, 1902.

SANTA BARBARA, CAL., *October 12, 1902.*

Hon. THOMAS R. BARD,
Hueneme, Cal.

DEAR SIR: At the request of the mayor and water commissioner of the city of Santa Barbara, committee of the Santa Barbara chamber of commerce, and the president of the board of supervisors of Santa Barbara County, and as their representative, I send you herewith letter addressed by them to the honorable Secretary of the Interior, in the matter of inclusion of the Rancho Los Prietos y Najalayegua in one of the forest reserves, which they respectively request you to transmit to the Secretary.

They also respectfully ask you to again urge upon the department, now that personal examination of the territory and existing conditions affecting the matter have been made and reported upon by its officers, the great importance to our people, so apparent to those practically familiar with these existing conditions, in having the boundaries of one of the reserves changed so as to include this property held in private ownership.

They also desire to thank you for the great interest and effort heretofore taken by you in the endeavor to place the matter in its true light before the Government and to obtain for our people this utility.

Respectfully, yours,

JARRETT T. RICHARDS.

ACTING DIRECTOR OF THE GEOLOGICAL SURVEY TO THE SECRETARY OF THE INTERIOR, OCTOBER 13, 1902.

DEPARTMENT OF THE INTERIOR,
UNITED STATES GEOLOGICAL SURVEY,
Washington, D. C., October 13, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have before me the papers relating to the proposed addition to the Santa Ynez or the Pine Mountain and Zaca Lake Forest Reserve of a tract of land lying between them and including the headwaters of the Santa Ynez River, known as the Rancho los Prietos y Najalayegua, petitioned for by the people of Santa Barbara, through Mr. Jarrett T. Richards, as their attorney.

The proposition involves the exchange of these lands, amounting to some 48,000 acres, and this I understand has been arranged on terms satisfactory to the department. The tract has been examined by Mr. William M. Slosson of the General Land Office, and a thorough report made upon it.

During the past summer Mr. Henry Gannett, geographer of this office, visited Santa Barbara in order to acquaint himself with the local conditions and the needs of the case. He made no examination of the tract in question, as it had been thoroughly examined by Mr. Slosson.

The reservations of this tract, which includes the headwaters of the Santa Ynez River, is needed by the people of Santa Barbara for the protection of their prospective water supply. At present water for the use of that city, as well as for the irrigation of the neighboring country, is derived from the short streams and springs upon the south slope of the Santa Ynez Range. This is entirely insufficient in quantity, the supply for the city being inadequate at present, and as the city is growing rapidly it will become constantly less and less adequate for its requirements. Foreseeing this, the city has commenced a tunnel through the Santa Ynez Mountains, which is now in some 4,700 feet, and which will be approximately 4 miles in length when completed, for the purpose of tapping the Santa Ynez River and bringing its waters into the city and the country immediately surrounding it. This tunnel, with the reservoirs contemplated in the basin of the Santa Ynez, will entail a heavy expense for the people of Santa Barbara, but apparently an inevitable one. It seems to me that the city should be aided in every proper way by the Government, and certainly the inclusion of this region within the reserve, with the accompanying prohibition of grazing within its area, might be effected.

I can not agree with the Acting Commissioner of the General Land Office in his argument that the department has no authority for making the proposed exchange of lands. Similar exchanges were made upon a large scale recently in the case of the San Francisco Mountains Forest Reserve, by which most of the railroad sections were exchanged for other lands and added to the reserve.

I recommend that the exchange be effected and that the lands be added to one or the other of the two reserves.

I herewith return the following papers connected with the case:

Map and report of Willis M. Slosson, Nordhoff, Cal., under date of June 8, 1902; letter of W. A. Richards, Acting Commissioner to the

Secretary of the Interior, July 7, 1902; letters of B. F. Allen, Thomas R. Bard, Jarrett T. Richards, and petition of the Santa Barbara Water Company, signed by Mr. Jed L. Washburn, R. B. Canfield, and H. C. Thompson; letter of E. S. Sheffield, of Santa Barbara, to Hon. Thomas R. Bard; letter of Thomas R. Bard to the Director of the United States Geological Survey; letter of R. Woodland Gates addressed to the Director of the Survey; letter of the Commissioner of the General Land Office addressed to the Secretary of the Interior; and letter of Willis M. Slosson to the Commissioner.

Very respectfully,

H. C. RIZER, *Acting Director*

ACTING DIRECTOR OF THE GEOLOGICAL SURVEY TO THE SECRETARY OF THE INTERIOR, OCTOBER 16, 1902.

DEPARTMENT OF THE INTERIOR,
UNITED STATES GEOLOGICAL SURVEY,
Washington, D. C., October 16, 1902.

Rancho Los Prietos y Najalayegua Reserve.

The SECRETARY OF THE INTERIOR.

SIR: I have the honor to acknowledge the receipt, by reference from your office, of a letter from Mr. Jarrett T. Richards concerning the Rancho Los Prietos y Najalayegua, forwarded by Hon. Thomas R. Bard, United States Senate.

As stated substantially to you in my letter of October 13, I am quite in accord with Mr. Richards in the position he takes concerning this matter.

The letter of Mr. Richards is herewith returned.

Very respectfully,

H. C. RIZER,
Acting Director.

J. B. LIPPINCOTT TO R. A. RICHARDS, OCTOBER 17, 1902.

DEPARTMENT OF THE INTERIOR,
UNITED STATES GEOLOGICAL SURVEY,
Los Angeles, Cal., October 17, 1902.

R. A. RICHARDS, Esq.,
Santa Barbara, Cal.

DEAR SIR: Inclosed herewith I return to you copy report of Commissioner General Land Office. Thanking you for the same, I am,

Very truly, yours,

J. B. LIPPINCOTT.

COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, NOVEMBER 10, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., November 10, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have the honor to acknowledge the receipt, by reference from the department for consideration, report, and recommendation, of a letter dated October 13, 1902, from the Acting Director of the Geological Survey, returning papers and making favorable report and recommendation upon the proposition to include within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, in California, the private land claim known as Rancho los Prietos y Najalayegua, containing 48,000 acres and lying between and adjoining the said forest reserves, in Santa Barbara County.

The acting director states that during the past summer Mr. Henry Gannett, geographer of the Geological Survey, visited Santa Barbara in order to acquaint himself with the local conditions and needs in regard to this case, but that he made no examination of the tract in question, as same had been thoroughly examined by Forest Supervisor Willis M. Slosson of this office.

It is also stated that the water supply of the city of Santa Barbara and vicinity is insufficient in quantity; that certain improvements are being made to increase this water supply; and that the inclusion within a forest reserve of the lands forming part of the drainage basin supplying the water would be of material assistance to the town by protecting the lands against grazing.

The acting director is of the opinion that the Government should assist the community in the manner proposed by the owners of the rancho, and does not agree with the argument contained in the acting commissioner's letter to the department, dated July 7, 1902, concurred in by me in my letter to the department, dated September 23, 1902, that under existing legislation the proposed action may not be properly recommended. The acting director refers to the recent consolidation of the San Francisco Mountains Forest Reserves into one reserve as a precedent for the action proposed to be taken regarding the rancho.

Accordingly, the acting director recommends that the rancho be included within a reserve and that the exchange be effected as proposed.

Aside from the statements relating to the improvements being made by the people of Santa Barbara to increase their water supply, the said report appears to furnish no further information regarding the circumstances of the case, for, as stated therein, the lands in question were not examined by Mr. Gannett. Neither does the report furnish any further light upon the question of the legality of the proposed action, for the case of the San Francisco Mountains Forest Reserve, the action in which is cited by the acting director as a precedent for the proposed inclusion of the rancho within a reserve, is readily distinguishable from the case at bar. The department will recognize the distinguishing features in the two cases.

The consolidation of the San Francisco Mountains Forest Reserves into one reserve comes clearly and directly within the principle that the inclusion within a forest reserve of scattered tracts not owned by the Government, with the expectation that they will be relinquished is justified where such inclusion is practically unavoidable in order to include the desired public lands and render efficient the administration of the reserve.

The small tracts, not exceeding one section each, of adversely owned lands brought "within the limits of a public forest reserve" by such consolidation were evenly intermixed with the government lands throughout all the townships named in the original proclamation establishing the San Francisco Mountains Forest Reserves, and it had become clear in the course of administration of the San Francisco Mountains Forest Reserves that the purpose had in view in reserving lands within the region could not be successfully accomplished while small tracts of land scattered throughout the entire general area remained under adverse ownership.

In making the consolidation there were included no lands outside the ulterior boundaries embracing the sections constituting the San Francisco Mountains Forest Reserves.

The circumstances regarding the rancho, however, are so entirely different that its inclusion within one of the adjoining reserves clearly would not be justified under the principle above mentioned, the rancho being an extensive solid tract of adversely owned lands entirely extraneous from the reserved area to which it is proposed to be added. An executive act extending the boundaries of a forest reserve to include such an area would be, in my opinion, not only anomalous but entirely outside the authority given under the act of March 3, 1891 (Stat., 1095), to reserve "any part of the public lands."

Before the rancho proposition came to the attention of this office a proposition on all fours therewith was presented to me by parties in Oregon who desired me to recommend to the department the inclusion within the Cascade Range Forest Reserve of a solid area of adversely owned lands. On precisely the same grounds as mentioned by the acting commissioner in his said letter of July 7, 1902, in the rancho case, I declined to make the recommendation requested in the Oregon case.

I see no reason for departing from the conclusions already expressed by this office upon the question.

The acting director states that it is his understanding that the exchange has been arranged on terms satisfactory to the department. I am not aware that the department has yet expressed itself in the matter.

Laying aside the question of the legality of the proposed action, the value placed upon the rancho by its owners is plainly exorbitant. As shown by the report of Supervisor Slosson, it is simply a barren waste of no value excepting for grazing, and of little value for that. The proposition made by the owners of this 48,000 acres of waste lands contemplates the unrestricted selection in lieu thereof of the highest grade of lands now owned by the Government.

The original report by Supervisor Slosson made no recommendation in the matter whatever, and the supplemental report by the forest officers recommended the inclusion of the rancho on no other ground than that such action would render easier the administration of the

adjoining reserves. No claim is made by the forest officers that the rancho is, in itself, of any value to the Government for forest reserve purposes.

If the protection of this 48,000 acres of desert land be as necessary to the town and district as it is alleged to be it would seem entirely practicable for the community to purchase the rancho and donate same to the Government, in which case I see no reason why the Government should not include the lands within one of the forest reserves named. It is believed that the rancho could be purchased outright for probably less than 10 per cent of the price contemplated to be paid by the Government under the proposition as presented.

For the reasons heretofore and herein set out, I again respectfully submit that the inclusion of the rancho within forest reserve boundaries in accordance with the proposition which has been presented to the department may not be properly recommended.

The papers in the matter are herewith returned, as directed.

Very respectfully,

BINGER HERMANN, *Commissioner.*

MAYOR OF THE CITY OF SANTA BARBARA, CAL., AND MEMBERS OF THE CHAMBER OF COMMERCE TO THE SECRETARY OF THE INTERIOR, NOVEMBER 12, 1902.

SANTA BARBARA, CAL., *November 12, 1902.*

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: Owing to the grave importance to the people of our county, which is increasing in population with great rapidity, in having the waters of the Santa Ynez River protected and preserved, and obstructions to their use for public purposes removed, by bringing under forest-reservation control and administration the territory embracing the sources and great volume of this stream, we have taken the liberty to telegraph you to-day as follows:

We, as representatives of the people of Santa Barbara County, respectfully urge the inclusion of the Rancho los Prietos y Najalayegua in the Santa Ynez, or Pine Mountain and Zaca Lake Forest Reserve. Fully two-thirds of the inhabitants of Santa Barbara County will ultimately be dependent upon waters derived from the streams flowing through said rancho, and government ownership and protection through forest reservation are absolutely necessary.

Precedent, as shown in brief of Jarrett T. Richards, our representative, filed in this matter with the Department of the Interior, establishes beyond question the authority to include by executive order in one of the present forest reserves this property held in private ownership, and the only question apparently remaining to be considered by the department is, "Do the public interests, regarded in the light of the declared policy of the Government as to forest-reservation protection and utility, demand the action prayed for?" The department has caused this question to be investigated upon the ground, through the United States Geological Survey and one of the resident supervisors of the adjacent forest reserves, and their reports, we understand, display what we have endeavored to show by means of written data of record, that the inclusion within the reserves of this tract of land is essential to the integrity and per-

fection of the existing reserves, and is a necessity to assure to the people of our city and the population of large farming and garden districts of a needed water supply, and that it is a case peculiarly and forcibly within the object and scope of forest reservation. It would seem to us, therefore, that this question has been already answered in favor of granting our application, and we can hardly volunteer further information or argument, though we are prepared to furnish any facts in reference to the matter which the department may require and demand of us.

We earnestly urge that the department grant us the benefits of this great public utility afforded by the Government in its forest reserves, feeling that we are asking nothing beyond the scope of the law and the policy and purposes of forest reservations.

Respectfully,

GEO. S. EDWARDS,
Mayor of the City of Santa Barbara.

E. S. SHEFFIELD,
Water Commissioner of the City of Santa Barbara.

CHARLES F. CAINER,
Committee on Public Utilities,
Santa Barbara Chamber of Commerce.

E. C. TALLANT,
President Board of Supervisors,
Santa Barbara County.

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, NOVEMBER 10, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., November 10, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have the honor to acknowledge the receipt, by reference from the department for consideration, report, and recommendation, of a letter dated October 13, 1902, from the acting director of the Geological Survey, returning papers and making favorable report and recommendation upon the proposition to include within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, in California, the private land claim known as Rancho los Prietos y Najalayegua, containing 48,000 acres and lying between and adjoining the said forest reserves, in Santa Barbara County.

The acting director states that during the past summer Mr. Henry Gannett, geographer of the Geological Survey, visited Santa Barbara in order to acquaint himself with the local conditions and needs in regard to this case, but that he made no examination of the tract in question, as same had been thoroughly examined by Forest Supervisor Willis M. Slosson, of this office.

It is also stated that the water supply of the city of Santa Barbara and vicinity is insufficient in quantity; that certain improvements are being made to increase this water supply; and that the inclusion within a forest reserve of the lands forming part of the drainage basin supplying the water would be of material assistance to the town by protecting the lands against grazing.

The acting director is of the opinion that the Government should assist the community in the manner proposed by the owners of the rancho, and does not agree with the argument contained in the acting commissioner's letter to the department, dated July 7, 1902, concurred in by me in my letter to the department dated September 23, 1902, that under existing legislation the proposed action may not be properly recommended. The acting director refers to the recent consolidation of the San Francisco Mountains Forest Reserves into one reserve as a precedent for the action proposed to be taken regarding the rancho.

Accordingly, the acting director recommends that the rancho be included within a reserve and that the exchange be effected as proposed.

Aside from the statements relating to the improvements being made by the people of Santa Barbara to increase their water supply, the said report appears to furnish no further information regarding the circumstances of the case, for, as stated therein, the lands in question were not examined by Mr. Gannett. Neither does the report furnish any further light upon the question of the legality of the proposed action, for the case of the San Francisco Mountains Forest Reserve, the action in which is cited by the acting director as a precedent for the proposed inclusion of the rancho within a reserve, is readily distinguishable from the case at bar. The department will recognize the distinguishing features in the two cases.

The consolidation of the San Francisco Mountains Forest Reserves into one reserve comes clearly and directly within the principle that the inclusion within a forest reserve of scattered tracts not owned by the Government, with the expectation that they will be relinquished, is justified where such inclusion is practically unavoidable in order to include the desired public lands and render efficient the administration of the reserve.

The small tracts, not exceeding one section each, of adversely owned lands brought "within the limits of a public forest reserve" by such consolidation were evenly intermixed with the government lands throughout all the townships named in the original proclamation establishing the San Francisco Mountains Forest Reserves, and it had become clear in the course of administration of the San Francisco Mountains Forest Reserves that the purpose had in view in reserving lands within the region could not be successfully accomplished while small tracts of land scattered throughout the entire general area remained under adverse ownership.

In making the consolidation there were included no lands outside the ulterior boundaries embracing the sections constituting the San Francisco Mountains Forest Reserves.

The circumstances regarding the rancho, however, are so entirely different that its inclusion within one of the adjoining reserves clearly would not be justified under the principle above mentioned; the rancho being an extensive solid tract of adversely owned lands entirely extraneous from the reserved area to which it is proposed to be added. An executive act extending the boundaries of a forest reserve to include such an area would be, in my opinion, not only anomalous but entirely outside the authority given under the act of March 3, 1891 (26 Stat., 1095), to reserve "any part of the public lands."

Before the rancho proposition came to the attention of this office a proposition on all fours therewith was presented to me by parties in Oregon who desired me to recommend to the department the inclusion within Cascade Range Forest Reserve of a solid area of adversely owned lands. On precisely the same grounds as mentioned by the acting commissioner in his said letter of July 7, 1902, in the rancho case, I declined to make the recommendation requested in the Oregon case.

I see no reason for departing from the conclusions already expressed by this office upon the question.

The acting director states that it is his understanding that the exchange has been arranged on terms satisfactory to the department. I am not aware that the department has yet expressed itself in the matter.

Laying aside the question of the legality of the proposed action, the value placed upon the rancho by its owners is plainly exorbitant. As shown by the report of Supervisor Slosson, it is simply a barren waste of no value excepting for grazing, and of little value for that. The proposition made by the owners of this 48,000 acres of waste lands contemplates the unrestricted selection in lieu thereof of the highest grade of lands now owned by the Government.

The original report by Supervisor Slosson made no recommendation in the matter whatever, and the supplemental report by the forest officers recommended the inclusion of the rancho on no other ground than that such action would render easier the administration of the adjoining reserves. No claim is made by the forest officers that the rancho is, in itself, of any value to the Government for forest reserve purposes.

If the protection of this 48,000 acres of desert land be as necessary to the town and district as it is alleged to be it would seem entirely practicable for the community to purchase the rancho and donate same to the Government, in which case I see no reason why the Government should not include the lands within one of the forest reserves named. It is believed that the rancho could be purchased outright for probably less than 10 per cent of the price contemplated to be paid by the Government under the proposition as presented.

For the reasons heretofore and herein set out, I again respectfully submit the inclusion of the rancho within forest-reserve boundaries in accordance with the proposition which has been presented to the department may not be properly recommended.

The papers in the matter are herewith returned as directed.

Very respectfully,

BINGER HERMANN, *Commissioner.*

TELEGRAM FROM THE MAYOR AND MEMBERS OF THE CHAMBER OF COMMERCE OF SANTA BARBARA, CAL., TO THE SECRETARY OF THE INTERIOR, NOVEMBER 12, 1902.

SANTA BARBARA, CAL., *November 12, 1902.*

The SECRETARY OF THE INTERIOR:

We, as representatives of the people of Santa Barbara County, respectfully urge the inclusion of the Rancho Los Prietos y Najalayegua in the Santa Ynez or Pine Mountain and Zaca Lake Forest

Reserve. Fully two-thirds of the inhabitants of Santa Barbara County will ultimately be dependent upon waters derived from the streams flowing through said rancho, and government ownership and protection through forest reservation are absolutely necessary. E. C. Tallant, president of board of supervisors, Santa Barbara County; George S. Edwards, mayor of city of Santa Barbara; Charles F. Carrier, committee public utilities, Santa Barbara Chamber of Commerce; E. S. Sheffield, water commissioner city of Santa Barbara.

TELEGRAM FROM SENATOR THOMAS R. BARD TO THE SECRETARY OF THE INTERIOR, NOVEMBER 13, 1902.

HUENEME, CAL., *November 13, 1902.*

The SECRETARY OF THE INTERIOR,
Washington, D. C.

I can not too strongly urge the importance to petitioners and the advisability for the Government that the lands of Los Prietos y Najalayegua in Santa Barbara County be acquired by Government and included in the adjacent forest reserve. If terms proposed by the owners can not be accepted, negotiations upon terms more favorable to the Government would probably be successful.

THOS. R. BARD,
United States Senator.

SENATOR THOMAS R. BARD TO THE SECRETARY OF THE INTERIOR, NOVEMBER 15, 1902.

HUENEME, CAL., *November 15, 1902.*

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: Confirming my telegram of November 13, reading as follows:

> I can not too strongly urge the importance to petitioners and the advisability for the Government that the lands of Los Prietos y Najalayegua, in Santa Barbara County, be acquired by the Government and included in the adjacent forest reserves. If terms proposed by the owners can not be accepted, negotiations upon terms more favorable to the Government would probably be successful.

I have the honor to invite your attention to the letter herewith inclosed of Hon. Jarrett T. Richards, addressed to me, dated the 12th instant, and, attached thereto, letter addressed to the honorable Secretary of the Interior, under date of November 12, 1902, by Hon. George S. Edwards, mayor of the city of Santa Barbara; Mr. E. S. Sheffield, water commissioner of Santa Barbara; Mr. Charles F. Carrier, committee on public utilities, Santa Barbara Chamber of Commerce; and Hon. E. C. Tallant, president board of supervisors, Santa Barbara County; and in further support of my recommendation that the lands of the Najalayegua Rancho be included within the forest reserves, I respectfully refer to the copy of letter, also herewith inclosed, addressed to me by Mr. E. S. Sheffield, the water commissioner of the city of Santa Barbara, dated September 15, 1902, which forcibly sets forth the deep anxiety of the people of Santa Barbara

and vicinity that protection may be afforded to the forest cover by means of which the waters, upon which they must forever depend, may be conserved.

Yours,

THOMAS R. BARD,
United States Senator.

SENATOR THOMAS R. BARD TO R. WOODLAND GATES, NOVEMBER 19, 1902.

HUENEME, CAL., *November 19, 1902.*

R. WOODLAND GATES,
2812 Thirteenth Street, Washington, D. C.

I authorize you, as representing myself, to urge upon Secretary of the Interior favorable consideration of the public interests involved in the application for inclusion of Rancho los Prietos in the forest reserves.

THOMAS R. BARD.

R. WOODLAND GATES, PRIVATE SECRETARY TO SENATOR THOMAS R. BARD, TO THE ASSISTANT ATTORNEY-GENERAL OF THE DEPARTMENT OF THE INTERIOR, NOVEMBER 28, 1902.

UNITED STATES SENATE,
COMMITTEE ON FISHERIES,
Washington, D. C., November 28, 1902.

Hon. WILLIS VAN DEVANTER,
Assistant Attorney-General, Department of the Interior.

DEAR SIR: I desire to submit for your consideration, in connection with the petition of citizens of Santa Barbara, Cal., praying for the inclusion within an existing forest reserve of the Rancho los Prietos y Najalayegua, by amendment of the boundary lines thereof, the following:

The act of June 4, 1897 (30 Stat. L., p. 36), provides:

> The President is hereby authorized at any time to modify any executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary lines of such reserve, or may vacate altogether any order creating such reserve.

A forest reserve has been created upon both sides of the said rancho, and in fact, said reserves nearly surround the property.

At the time of the creation of these reserves, it clearly would have been within the power of the Executive to have included the land now proposed to be reserved, and the proposition now is to amend the act of reservation so as to include what the Executive would have had power to include in the first instance. It being clearly within the power of the Executive to have included this land in the first instance, it seems to me to naturally follow that under the authority of the particular portion of the act of June 4, 1897, above quoted, empowering the Executive to amend or modify any executive order, or change the boundary lines of any reserve, authority is now given to include the land in question.

This case is, it seems to me, analogous to the case of the San Francisco Mountain Reserve, where, if I am correctly informed, the even

sections were reserved, and the odd sections, being held in private ownership, were not at first included within the reserve. But afterwards, and under the authority conferred by said act of June 4, 1897, the order was amended so as to include the odd sections.

The Rancho los Prietos is practically surrounded by, and lies within a forest reserve, inasmuch as about 2 or 3 miles only are without the reserve lines.

I do not here go into the question of expediency. That is fully set forth in the papers on file. Learning that the case has been referred to you for an opinion as to whether legal authority exists under which the orders creating the forest reserves, which nearly surround this property, may be amended so as to include within one of the reserves the said rancho, I take the liberty of referring you to the above act, in the belief that you will there find sufficient authority for said purpose.

Very truly, yours, R. WOODLAND GATES,
Private Secretary.

THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, DECEMBER 2, 1902.

DEPARTMENT OF THE INTERIOR,
Washington, December 2, 1902.

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: I have carefully considered the petitions of the city and county of Santa Barbara, in the State of California, for the inclusion within the limits of the existing Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, of the lands embraced in a patented private land claim known as Rancho los Prietos y Najalayegua, lying between and adjoining said existing forest reserve. The lands which are thus sought to be included within one or the other of such reserves are private lands and embrace no public lands whatever. They constitute a tract of over 48,000 acres. Even if these lands were included within the exterior boundaries of one of said forest reserves they would still be private lands, subject to the control and use of the private owners, and the Government would acquire no control whatever over them excepting in the event that the owners would surrender them to the Government and take public lands in their stead, under the lieu-land provision of the act of June 4, 1897 (30 Stat., 36). It is suggested by the papers that these private owners would thus surrender these private lands to the Government upon being granted the right to take public lands of equal area of the class valued by the Government at $2.50 per acre. No agreement can be made with these owners which would secure to them any greater rights than are named in the act of June 4, 1897, as amended by the act of June 6, 1900 (31 Stat., 614). This legislation constitutes the full measure of the authority of the Secretary of the Interior in the premises, and he can not go beyond it. For this reason, and for the further reason that it is doubtful whether the addition to an existing forest reserve of a separate and distinct tract of exclusively private lands containing upwards of 48,000 acres is within the letter or spirit of section 24 of the act of March 3, 1891 (26 Stat., 1095),

authorizing the establishment of forest reserves, I must decline to give the petitions under consideration my favorable recommendation. You will so inform the petitioners.

The papers relating to this matter are herewith returned for the files of your office.

Very respectfully, E. A. HITCHCOCK,
Secretary.

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO SENATOR THOMAS R. BARD, DECEMBER 8, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., December 8, 1902.

Hon. THOMAS R. BARD,
United States Senate.

SIR: Referring to the petitions and other communications presented to the department by you, favoring the inclusion within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve of the private land claim known as Rancho los Prietos y Najalayegua, I now have the honor to send you a copy of a decision by the Secretary of the Interior declining to give said communication his favorable recommendation.

Very respectfully,

BINGER HERMANN, *Commissioner.*

THE COMMISSIONER OF THE GENERAL LAND OFFICE TO SENATOR GEORGE C. PERKINS, DECEMBER 10, 1902.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., December 10, 1902.

Hon. GEORGE C. PERKINS,
United States Senate.

SIR: Referring to the petitions presented by you for the inclusion within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, California, of the private land claim known as Rancho los Prietos y Najalayegua, I now have the honor to inclose a copy of the decision of the Secretary of the Interior, dated December 2, 1902, declining to favorably recommend said petitions.

Very respectfully,

BINGER HERMANN, *Commissioner.*

M. J. McVEAN TO THE ACTING COMMISSIONER OF THE GENERAL LAND OFFICE, JANUARY 26, 1903.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., January 26, 1903.

Honorable ACTING COMMISSIONER.

SIR: In pursuance of the writer's note attached to the typewritten draft of a letter laid before you yesterday in relation to the "Ranch"

case, the attached rough draft of a letter adverse to the proposed action is respectfully submitted, together with convenient copies of adverse recommendations in this matter by Commissioner Richards and Herman, which were approved by the Secretary upon the advice of the Assistant Attorney-General.

Very respectfully,

M. J. McVEAN.

JED L. WASHBURN TO THE SECRETARY OF THE INTERIOR, FEBRUARY 11, 1903.

THE SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: Yielding to the urgent requests of the people of Santa Barbara County, Cal., and the several official and commercial bodies of said county, the undersigned, now and here, as the owner of 31,760 acres of the Rancho los Prietos y Najalayegua in said county, if the same shall be included in either the Pine Mountain and Zaca Lake Forest Reserve or in the Santa Ynez Forest Reserve, or in the consolidation of said reserve, hereby agrees to convey the same to the United States, free from all incumbrances, in consideration of being granted the right to select, in lieu thereof, an equal quantity of the vacant public lands of the United States; and I also agree to restrict such lieu selections to the nontimbered vacant public lands, open to homestead entry; such right of selection to be available to myself, my heirs or assigns, for the selection from time to time of any parcel or parcels of such land in government subdivisions, according to government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned.

I know of no place where there can be selected in a solid body lands of such aggregate acreage, and hence it will be necessary to have such right of selection available in parcels.

It is with reluctance that this proposition is submitted and it is only submitted out of deference to the people of Santa Barbara County.

Dated February 11, 1903.

Respectfully,

JED L. WASHBURN,
Duluth, Minn.

THE PRESIDENT AND THE SECRETARY OF THE SANTA BARBARA WATER COMPANY TO THE SECRETARY OF THE INTERIOR.

THE SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: In obedience to the expressed wishes of the people of Santa Barbara County, Cal., and the various official and commercial bodies of said county, the undersigned, the Santa Barbara Water Company, as the owner of 16,960 acres of the Rancho los Prietos y Najalayegua in said county, if the same shall be included in either the Pine Mountain and Zaca Lake Forest Reserve, or the Santa Ynez Forest Reserve, or in a consolidation of the two reserves, hereby agrees to convey the same to the United States free from all encumbrances, in con-

sideration of being granted the right to select in lieu thereof an equal quantity of the vacant public lands of the United States; and it also agrees to restrict its lieu selection to nontimbered vacant public lands subject to homestead entry; such right of selection to be available to the said Santa Barbara Water Company and its successors and assigns, and for the selection from time to time of any parcel or parcels of such lands, according to the government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned, less the area of the reservoir sites hereinafter mentioned.

The said Santa Barbara Water Company reserves to itself out of said rancho, however, the lands covered by two dam sites and their corresponding reservoir sites, to wit:

The Main River reservoir site and dam site near the western boundary of said tract, containing approximately 195 acres, and the Juncal reservoir and dam site, containing approximately 70 acres, which have already been surveyed for storage reservoirs, together with the privilege of restraining and collecting in said reservoirs the waters of the Santa Ynez River and its tributaries naturally flowing thereto and of covering the necessary lands with water backed up in the said reservoir sites by the dams, and the right of way for the necessary aqueducts (with the right to conduct therein and use on said rancho or away from said rancho the waters aforesaid) and for a road from each of said dams or reservoir sites to the boundary of the said rancho; also the right to take from the lands of said rancho such earth, sand, gravel, and stone as may be required for the construction and maintenance of said dams, reservoirs, aqueducts, and roads.

The said water company further agrees that the lands so reserved for reservoir purposes shall be subject to forest-reserve regulations and to the supervision of the officials and government employees in charge of the forest reserve.

Dated Santa Barbara, Cal., February 4, 1903.

Very respectfully,

SANTA BARBARA WATER CO.,
By R. B. CANFIELD, *President.*

Attest:

[SEAL.] H. C. THOMPSON, *Secretary.*

THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, JUNE 19, 1903.

DEPARTMENT OF THE INTERIOR,
Washington, June 19, 1903.

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: The attorneys for the city and county of Santa Barbara, Cal., filed with the President certain papers relating to the inclusion of the lands embraced in the private land claim known as the Rancho los Prietos y Najalayegua, within the limits of either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, which papers were transmitted to this department for consideration.

Said attorneys have also asked for a reconsideration of departmental decision of December 2, 1902, in this matter.

When that decision was rendered the papers then before the department indicated that the owners of this land would not release or relinquish the same to the Government except upon the condition of being granted the right to select in lieu thereof an equal area of land of the class valued at $2.50 per acre. They now propose that if the land is included in a forest reserve to convey the same to the United States in consideration of being permitted to select in lieu thereof an equal quantity of "nontimbered, vacant public lands subject to homestead entry." This change of attitude upon the part of the owners of said tract removes the principal ground stated in the former departmental decision for refusing to include that land within a reserve.

The papers are submitted to your office for further consideration and report, with recommendation as to the course that should be pursued. If you conclude that the tract in question should be included in a reserve, you will consider whether it should be added to one of the existing reserves or whether those two reserves, with the land lying between them embraced in said private land claim, should be consolidated in one. If you decide to recommend favorable consideration of this application, you will prepare and submit with your report a draft of a proclamation to carry the recommendation into effect. If the decision is for a consolidated reserve you will make the proclamation to supersede the orders creating those reserves and submit suggestions as to an appropriate name for the consolidated reserve.

Very respectfully, E. A. HITCHCOCK, *Secretary.*

THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, JUNE 25, 1903.

DEPARTMENT OF THE INTERIOR,
Washington, June 25, 1903.

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: The department is in receipt of a letter from the President as follows:

WHITE HOUSE, *Washington, June 23, 1903.*

MY DEAR SIR: The President directs me to send you the inclosed telegram from Mayor Edwards, of Santa Barbara, Cal., and to say that he is of the opinion that it is important that prompt action one way or the other be taken in this matter. He would like to be advised as to its status.

Very truly, yours, WM. LOEB, Jr., *Secretary to the President.*

Hon. E. A. HITCHCOCK,
Secretary of the Interior.

The telegram referred to above is in the following words:

SANTA BARBARA, CAL., *June 23, 1903.*

The PRESIDENT OF THE UNITED STATES:

It is of grave importance to our citizens that the Rancho los Prietos y Najalayegua be included in a forest reserve, and that action be taken to this end this week, if practicable and within the wishes of the President. Our municipal authorities have just taken action toward obtaining the capital to perfect a system for utilization and distribution, in accordance with their legal rights, of the waters of the Santa Ynez River

watershed, hoping for its protection by inclusion within a reserve. We respectfully urge this early action, provided the President has considered favorably the application of our people for this needed utility.

GEO. S. EDWARDS,
Mayor of the City of Santa Barbara.

You will please make special the disposition of this question as submitted to you by departmental letter of the 19th instant.

Very respectfully,

E. A. HITCHCOCK, *Secretary.*

M. J. McVEAN TO THE ACTING COMMISSIONER OF THE GENERAL LAND OFFICE, JUNE 25, 1903.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., June 25, 1903.

The honorable ACTING COMMISSIONER.

SIR: The writer (M. J. McV.) of the attached letter does not concur in the views therein expressed, believing that the proposed executive act including the rancho is not authorized by the law.

It was the intention to lay before you, at the same time, letters presenting both sides of the question involved. The attached letter and proclamation were prepared with all possible haste, and the writer is hastening the preparation of an outline of the arguments against the proposed action, which arguments he respectfully recommends to your consideration before acting in this case.

The Secretary has heretofore expressed a doubt as to the legality of the proposed action, and the writer believes that the strong argument against the proposed action, if properly presented to the Secretary, would result in his doubt being resolved into a certainty that there is no authority in the law for the action urged by the parties in interest in this case.

Very respectfully, M. J. McVEAN.

THE ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO TO THE SECRETARY OF THE INTERIOR, JUNE 26, 1903.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., June 26, 1903.

The SECRETARY OF THE INTERIOR.

SIR: I am in receipt of your letter dated June 19, 1903, inclosing papers filed with the President by attorneys for the city and county of Santa Barbara, Cal., relating to the proposed inclusion within the Pine Mountain and Zaca Lake Forest Reserve, the Santa Ynez Forest Reserve, or within a consolidation of those reserves, of the patented private land claim known as Rancho los Prietos y Najalayegua, said papers having been referred to the department for consideration. There was also inclosed with your letter the application by said attorneys for a reconsideration of departmental decision of December 2, 1902, adverse to the proposed inclusion of the

rancho. All the papers are referred by you to this office for further consideration as to whether the rancho should be included within the reserve boundaries, and you direct that, in case its inclusion is recommended, there be submitted with such recommendation the draft of a proclamation to carry such recommendation into effect.

I have carefully considered and examined all the papers submitted in this case, and I am fully convinced from a review of the full and well-presented evidence before me, that the protection and control of this tract by the Government under the forest-reserve régime would be an advantage in the administration of the reserve and an aid in conserving and protecting the water supply to be derived from the Santa Ynez River.

As pointed out by you when the said decision of December 2, 1902, was rendered, the papers before the department indicated that the owners of the rancho would not release or relinquish same to the Government except upon the condition of being granted the right to select in lieu thereof an equal area of land of the class valued by the Government at $2.50 per acre. The owners now propose, however, in case the land is included within the forest reserve boundaries, to convey same to the United States in consideration of being permitted to select in lieu thereof an equal quantity of "nontimbered, vacant public lands subject to homestead entry." As further pointed out by you, this change of attitude upon the part of the owners "removes the principal ground stated" in said departmental decision for refusing to recommend the inclusion of the rancho. It being now clear that the control and protection of the rancho by the Government under the forest-reserve régime would be an advantage to this administration of the reserve, and an aid in conserving and protecting the water supply to be derived from the Santa Ynez River, and the principal ground of objection stated in said adverse decision having been removed, there remains to be considered only one other element of the case, viz, the "further reason" stated in said departmental decision, as follows:

> For this reason (referring to the invalidity of the proposed agreement), and for the further reason that it is doubtful whether the addition to an existing forest reserve of a separate and distinct tract of exclusively private lands containing upwards of 48,000 acres is within the letter or spirit of section 24 of the act of March 3, 1891 (26 Stat., 1095), authorizing the establishment of forest reserves, I must decline to give the petitioners under consideration any favorable recommendation.

As urged by the present commissioner of this office in his letter to the department in this matter dated July 7, 1902, and in the letter from this office to the department dated September 23 and November 10, 1902, all making adverse recommendations in the matter, the proposition to include this rancho within forest-reserve boundaries can be considered favorably by the Government only upon the assumption that the existing legislation constitutes a means whereby the Government may purchase extensive solid areas containing no public lands with a view to reserving such areas for forestry purposes when title thereto is obtained under the purchase. This proposition is too plain to admit of question, and, in fact, it is upon the very contention that the existing legislation does constitute such means of purchase that the desired action in this case has been so earnestly urged. Therefore, the determination as to whether such contention

is correct determines the question of the legality of the proposed action.

In support of their contention that the proposed action is authorized under the law the parties in interest in this case have chiefly urged that this point has been settled by the department in the case of the San Francisco Mountains Forest Reserve, and that the action in that case constitutes a precedent for the desired action in the present case. It is very clear, and the principle has been followed by the Government throughout the period of forest reserve establishment, that the inclusion within forest reserve boundaries of scattered tracts not owned by the Government but intermingled with public lands, with the expectation that such adversely owned tracts will be relinquished to the United States, is authorized when such inclusion is practically unavoidable in reserving the desired public lands and in order to render effective the administration of the reserve. The greater number, if not all, of the forest reserves embrace such scattered tracts, and the odd sections in more or less extensive areas within the boundaries of several of the reserves are railway lands. Experience proved that the "checkerboard" plan, followed in the establishment of the San Francisco Mountains Forest Reserves in order to exclude the intermixed odd sections owned by the railway company, and thus prevent forest reserve lieu selections, was a failure; hence the executive action including the scattered tracts of adversely owned lands within the forest reserve boundaries, which action, under the principle above stated as to the inclusion of scattered tracts of adversely owned lands intermingled with public lands, might properly have been taken originally. The small tracts, not exceeding one section each, of adversely owned lands brought "within the limits of a public forest reserve" by such consolidation, were evenly intermixed with the government lands throughout all the townships named in the original proclamation establishing the San Francisco Mountains Forest Reserves.

But throughout the entire period of forest reserve establishment executive action, including within the forest reserve boundaries lands not owned by the Government, has been confined absolutely, without exception, to the inclusion of only relatively small scattered tracts of adversely owned lands intermingled with public lands. The inclusion of relatively solid areas of adversely owned lands extraneous to the areas of public lands reserved, among which tracts the rancho is numbered, has been uniformly avoided as being entirely different upon reason from the inclusion of relatively small scattered adversely owned tracts dotting the areas of public lands desired to be reserved, and as falling clearly without the principle under which the guarded inclusions of lands not owned by the Government have been limited. While this rancho of 48,000 acres constitutes the point of the large wedge of adversely owned land extending in between the two reserves, it is, nevertheless, and without involving any fine distinctions, a relatively large body of land extraneous to the area of public land reserved, and it is respectfully submitted that the executive action, including the scattered tracts of adversely owned lands intermixed throughout the entire area with the public lands in the case of the San Francisco Mountains Forest Reserve, does not constitute a precedent for the proposed anomoly of extend-

ing the boundaries of the adjoining reserved area around the rancho of 48,000 acres.

It is also respectfully submitted that the existing legislation does not and was not intended to constitute a means for the purchase of tracts of the class of the rancho, as contended by the parties in interest in this case. The department, in the case of F. A. Hyde et al. (28 L. D., 284, 288), in construing the exchange provision of the act of June 4, 1897 (30 Stat., 11, 36), says:

The first general legislation providing for the establishment of forest reservations, and the only general legislation on that subject prior to the act of 1897, supra, is contained in section 24 of the act of March 3, 1891 (26 Stat., 1095, 1103), which reads: "That the President of the United States may, from time to time, set apart and reserve, in any State or Territory having public land bearing forest, in any part of the public lands wholly or in part covered with timber or undergrowth, whether of commercial value or not, as public reservations; and the President shall, by public proclamation, declare the establishment of such reservations and the limits thereof."

By virtue of the authority thus conferred, numerous forest reservations, including the Sierra Forest Reservation, were established in the various States and territories, by executive orders, prior to the act of 1897. By the establishment of these reservations many claimants and owners of lands within the reservation boundaries were placed in a state of greater or less isolation from the market and business centers, and from church, school, and social advantages, and the value of their property for residence and other purposes was thereby impaired. The withdrawal from settlement and other disposition of the surrounding public lands precluded such persons from obtaining the advantages consequent upon the continuing and increasing settlement, which was anticipated when their claims were initiated or their title acquired. In consequence they were clamorous for relief from Congress. Strenuous efforts were made to have the more recent reservations revoked in toto. Instead Congress granted the measure of relief contained in the act of 1897.

The various provisions of that act, relating to lands within the limits of forest reservations, and additional to that hereinbefore set out, need not be recited. Under these provisions the general integrity of the reservations has been maintained, and rules and regulations have been prescribed and promulgated by virtue of authority vested in the Secretary of the Interior to insure the objects for which the reservations are created, which are to protect and improve the forests thereon for the purpose of securing a permanent supply of timber for the people and insuring conditions favorable to its continuous water flow (Rules and Regulations, June 30, 1897, 24 L. D., 589). It is obvious that the accomplishment of these objects would be subserved and promoted by the exclusive government ownership and control of the lands within the reservation boundaries. The extinguishment of the claims, ownership and control of other parties in and over the lands, of the class or classes intended to be reserved, is very desirable on the part of the Government, and when this can be done agreeably to the wishes of such parties under a reasonable construction of the above provision for an exchange of lands, it is believed to be the duty of the land department to place such construction upon the law and thus promote the interests of all concerned.

The provision in question is remedial in character and should, therefore, be so construed as to advance the remedy and compass the objects sought.

That part of the above language favoring a liberal construction must be considered in connection with the point under consideration by the department in the Hyde case, viz, as to whether a certain class of adversely owned lands, certainly properly included within reserve boundaries, come within the designation in the act of what lands so included are subject to be used as basis for selection. While remedial or relief acts are to be liberally construed, they may not properly be held as a means for the unrestricted creation of conditions giving rise to the kind of mischief the acts are intended to remedy.

The courts construe remedial statutes most liberally to effectuate the remedy. This principle operates to exclude as well as to include cases in furtherance of the lawmaker's intention. That which is not within the purpose of meaning, nor within the mischief to be remedied, is not included in the statute, even though it be within the letter. The courts follow the reason and the spirit of the law until they overtake and destroy the mischief which the legislature intended to suppress.

See Sutherland on Statutory Construction, section 411. I can not concur in the view that Congress intended this exchange provision, enacted as a remedy, to be used as a means for the purchase of tracts of the class of the rancho. The causes leading up to the enactment, as reviewed by the department and the common rules of statutory construction, serve to preclude such a contention.

For the reasons heretofore and herein set out, it is respectfully submitted that, under the law, the private land claim in question could not have been properly included originally within the boundaries of either of the adjoining reserves, and its inclusion within either of the reserves, or within a consolidation of said reserves, may not now be properly recommended.

I desire to renew the suggestion heretofore made by this office that in the event of this tract being secured by the Government through donation or legislative purchase, there seems to be no reason why the Government should not include it within the reserves and administer it for forestry purposes.

The papers in the case are herewith returned.

Very respectfully,

——— ———, *Acting Commissioner.*

THE ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JUNE 30, 1903.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
Washington, D. C., June 30, 1903.

The SECRETARY OF THE INTERIOR.

SIR: I am in receipt of your letter dated June 19, 1903, inclosing papers filed with the President by the attorneys for the city and county of Santa Barbara, Cal., relating to the proposed inclusion within the Pine Mountain and Zaca Lake Forest Reserve, the Santa Ynez Forest Reserve, or within a consolidation of those reserves, of the patented private land claim known as Rancho los Prietos y Najalayegua; the said papers having been referred to the department for consideration. There was also inclosed with your letter the application of said attorneys for a reconsideration of departmental decision of December 2, 1902, adverse to the proposed inclusion of the rancho. All the papers are referred by you to this office for further consideration as to whether the rancho should be included within the reserve boundaries, and you direct that, in case its inclusion is recommended, there be submitted with such recommendation the draft of a proclamation to carry such recommendation into effect.

Prior to the departmental decision of December, 1902, the question of including the lands embraced in the rancho within the limits of a forest reservation had been made the subject of three office decisions or reports, to wit, that of Acting Commissioner Richards, July 7, 1902, and those of Commissioner Hermann dated September 23 and November 10, 1902, in which reports adverse to such inclusion were made.

As pointed out in your letter of the 19th instant, the propositions formerly considered by this office and by the department on the part of the alleged owners of the land, were of such a character that it was not deemed advisable to make the change of the boundaries of the reserves applied for. Furthermore, the action of this office was based in part upon the assumption that the inclusion of the tract would not be authorized by law. In reference to the first objection, the proposition of the owners now under consideration to a large extent removes the objections heretofore urged by this office, and after full reconsideration of the question of law involved, this office is now of the opinion that there is full authority for the change of the boundaries of the reserves and for the inclusion within the consolidated reserve of the land in question. It therefore remains to be determined whether the inclusion of this particular tract is desirable or necessary in order to render more efficient the administration of the reserves, effect and to accomplish the purpose had in view in the creation thereof.

In this case, the official reports by Supervisor Slosson, Superintendent Allen, and the Geological Survey, in effect, go to show that the benefits of the two adjoining forest reserves are to a great extent interfered with by the presence between them of this unprotected tract, as it proves an obstacle to forest officers in quickly reaching the source of fires on the reserves; and that the administration of the reserves can not be effective while this central tract is under private ownsership, open to campers, grazing, etc., and particularly subject to the danger of fires. In short, the concensus of official opinion and reports submitted upon this point seem to leave no room for doubt that the control and protection of the tract in question by the Government, under the forest reserve regime, is practically necessary in order to render effective the administration of the adjoining reserves and to accomplish one of the chief purposes had in view in their establishment, viz, to protect and conserve, for the benefit of the public, the water supply to be derived from the Santa Ynez River.

As hereinbefore stated, the propositions submitted by the owners of the tracts now under consideration are free from the principal points of objection to those formerly submitted. It is believed, however, that further modification should be made before the rancho is included within the boundaries of a reserve.

The Santa Barbara Water Company reserves to itself the lands covered by two dam sites and their corresponding reservoir sites, together with such lands as may be submerged by the backing up of the impounded waters, together with the right of way for—

necessary aqueducts (with the right to conduct therein and use on said rancho or away from said rancho the waters aforesaid) and for a road from each of said dams or reservoirs or reservoir sites to the boundary of the said rancho; also the right to take from the lands of said rancho such earth, sand, gravel, and stone as may be required for the construction and maintenance of said dams, reservoirs, aqueducts, and roads.

It is further stipulated that—

it also agrees to restrict its right of lieu selection to nontimbered, vacant, public lands, subject to homestead entry, such right of selection to be available to the Santa Barbara Water Company and its successors and assigns, and for the selection from time to time of any parcel or parcels of such lands according to the government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned, etc.

The stipulation appears in the proposition of Mr. Washburn:

* * * in consideration of being granted the right to select in lieu thereof an equal quantity of the public lands of the United States, and I also agree to restrict such lieu selections to the nontimbered, vacant public lands, open to homestead entry. Such right of selection to be available to myself, my heirs, or assigns for the selection, from time to time, of any parcel or parcels of such land in government subdivisions, according to the government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned.

It is believed that both Mr. Washburn and the Santa Barbara Water Company should be required to make absolute surrenders of the lands owned by them and that the latter should be relegated to its rights under the state laws and to the laws of the United States and the rules and regulations applicable to such matters, adopted by the Secretary of the Interior for such rights as it may choose to exercise in reference to impounding the waters of the Santa Ynez River, to building dams and reservoirs, aqueducts, etc., or the laying of such pipe lines as may be deemed necessary to convey the waters collected within such reservoirs, and the laying out of roads in connection with the use and occupancy of such sites.

It is also recommended that the right of selection in complete satisfaction of the land surrendered to the Government be exercised within one year and that the owners be informed that no patents would issue upon any land selected until there had been a complete satisfaction of the land surrendered or a waiver of right to make further selection in lieu thereof.

The survey of Rancho los Prietos y Najalayegua was approved by the Commissioner of the General Land Office, February 19, 1875, and patent thereto issued the same day. The entire claim was patented as a single tract and contains upward of 48,000 acres of land. In some of the townships, notably T. 6 N., Rs. 27 and 28 W., the lines of government survey have never been extended. It would, therefore, not be practicable for the owner to make isolated selections based on lands in such townships for lands therein in small parcels, because there could not be assigned as bases for such selections any definable tract of land. It would seem that in such cases the owner would have to exhaust the right to select in lieu of such lands by a single selection. This matter might more profitably be considered when the question as to selections based upon such lands are presented (if the reserve is created) and attention is merely drawn thereto in order that the department may give such directions as it deems proper in the premises.

It is also recommended that the terms of the stipulations be modified by agreement on the part of the owners to select in lieu of the lands by them surrendered, nontimbered, vacant, surveyed, and nonmineral public lands which are subject to homestead entry and to appropriation under the provisions of the act of June 4, 1897 (30 Stat., 36), as amended by the act of June 6, 1900 (31 Stat., 614). It has been the experience of this office that in many instances selections have been made under the provisions of the act of June 4, 1897, as amended by the act of June 6, 1900, of lands that, while subject to homestead entry, were opened up to settlement, under laws that specifically directed the manner of their disposition and which, by implication, excluded appropriation under the act of June 4, 1897, and acts amendatory thereof (William C. Quinlan, 30 L. D., 268).

While there is no authority in the land department to extend the provisions of the act of June 4, 1897, as amended by the act of June 6, 1900, as was suggested by the department in its decision of December 2, in this matter, yet it would probably be better, in order to avoid any misunderstanding and any complications that might arise in reference thereto, to more specifically describe the lands which may be taken by the owners of these tracts provided they are included within the limits of a forest reservation.

With the modifications suggested above, this office recommends the inclusion of the tract within the boundaries of a consolidated reserve embracing the lands in question, together with those now within the Pine Mountain and Zaca Lake and the Santa Ynez forest reserves.

I have, accordingly, prepared and submit herewith for your approval, the draft of a proclamation to accomplish this object by consolidating the areas embraced within the Pine Mountain and Zaca Lake and the Santa Ynez forest reserves and the Rancho los Prietos y Najalayegua into one reserve, to be known as the Santa Barbara Forest Reserve.

The papers referred by you are herewith returned.

Very respectfully,

J. H. Fimple,
Acting Commissioner.

NATHAN W. BLACKSHARD, EDWARD S. THACHER, AND THOMAS O. TOLAND TO REPRESENTATIVE C. A. BARLOW.

Hon. C. A. Barlow,
House of Representatives.

Sir: At a joint meeting of committees from the several parts of Ventura County, in the interest of the proposed forest reserve, the undersigned were appointed to present a memorial to accompany the petition to Congress sent by the citizens of Ventura County, in which memorial some statement should be made of the reasons which had moved the residents of this region to desire and ask for the reserve and its efficient protection.

It is needless to recite general considerations bearing on the importance of forest preservation in the semiarid, semitropic regions which depend on irrigation for their industrial success. The effect of the denudation of mountain slopes to make frequent and destructive torrents in stream beds which are sufficient for the innocent conveyances of the rainfall, so long as the watersheds, properly covered with brush and forest, are allowed to perform their moderating function, must also be well known to men accustomed to planning for the general welfare.

We have therefore only to make some exhibit of the local situation in order that our particular need may be more clearly understood.

Much the greater part of Ventura and Santa Barbara counties (for we consider the movements in the two counties as constituting a single effort for one object) is mountain land entirely unfit for cultivation. This mountain area is also of exceedingly little value for pasturage, being covered, when left to itself, with dense brush or with timber, and when brush and timber are destroyed by fire,

offering but the scantiest sustenance per acre to the sheep that are driven about the mountains in search of food. The summers are too hot and dry for any considerable growth of grass on the mountains.

It is apparent, then, that the value of this immense area resides either in its timber or in its service as a reservoir, holding back the winter rains from wasteful and dangerous torrential overflow, and saving a large part to supply the summer streams and springs.

The question of timber is not at present the important one, since probably for many years our farming regions, chiefly accessible to the seacoast, can supply themselves with lumber from the northern forests at less cost than they could move it over the mountains. With the gradual building and improvement of mountain roads, however, the native timber may gain an economic value, if sheep and sheep holders' fires can be turned away from the regular destruction of the forests.

This question is subordinate to the maintenance of the natural reservoirs, and for this purpose the preservation of the brush, here called "chaparral," which covers far greater areas than are occupied by timber forests, is perhaps more important than the preservation of the trees. This "brush" forms a dense covering of the slopes. It grows, when undisturbed, to a height of from 10 to 20 feet, and so closely as to be almost impenetrable, except in lines with difficulty discovered, where a rocky soil or change of exposure leaves a space more thinly covered.

Our mountain region is now yearly visited by Basque shepherds, who make a living by gathering with their sheep the widely scattered sustenance there afforded. The number of the sheep is exceedingly small in proportion to the area over which they range. But it is sufficient to be very destructive of the young trees, which, undisturbed, would reforest the areas formerly burned off. The sheep bite off the young trees, and two or three repetitions of this treatment discourage them from further efforts to grow.

But this form of devastation is not the whole, perhaps not the chief, part of the shepherd's offense. As the mountain pasture season approaches its end the shepherd, before leaving with his flocks, prepares for next season by a systematic and widespread firing of the mountain region. The smoke of his conflagrations is constantly visible from the valleys, where the farmer looks up helplessly to see the destruction of the general reservoirs. The shepherd's object is to widen his scope for the next year, for the sheep can not penetrate the thick brush, and it may be that a scanty show of some edible vegetation will here and there appear in the devastated area.

The value of the sheep and of this yearly product that can thus be sustained on an immense area of mountain land is hideously small if compared with the sacrifice that is made on their behalf. We feel that this sacrifice is intolerable.

Laws exist for the punishment of those who set fire to the mountains. But without a forest guard it is almost impossible to convict an incendiary. It is the chief object of the accompanying petition that such a guard may be maintained as shall effectively protect the mountains from fire and from hurtful pasturing.

We do not seek to have this wide region shut out from settlement. There are narrow valleys among the mountains where hopeful settlers undertake to make a home and a living. We hope that the home-

stead right may be kept open for entries wherever land can be considered agricultural, and we believe the presence of those occasional settlements would be rather helpful than otherwise to the protection of the mountain covering. The right of the miner or of the appropriator of water need not be restricted in any way by the provision for the protection of forest and brush land.

The farming lands of these two counties, outnumbered in acres by the mountain wastes, are nevertheless wide and exceedingly valuable. The product is large and varied, covering such semitropic fruits as the orange, the lemon, the olive, and the apricot, a heavy output of English walnuts, a considerable yield of almonds, and a wide range of field products. The bean fields of this region are doubtless the largest and most fertile in the world, and barley is shipped from here in great quantity. It is a country particularly well worth protecting from the immense injuries arising from forest destruction, and particularly subject to those injuries because its mountain background is so large and because, lying in a region where there is no summer rain, it is largely dependent on the preservation, through the agency of the mountains, of the rains which fall in winter.

It is perhaps unnecessary, sir, for us to make further exhibit of our situation, since you are well acquainted with it, and since you have well assured us of your interest in forwarding the measure for which we move.

Yours, very respectfully,

NATHAN W. BLACKSHARD.
EDWARD S. THACHER.
THOMAS O. TOLAND.

THE FORESTER, BUREAU OF FORESTRY, TO W. A. RICHARDS, SEPTEMBER 3, 1903.

LOS ANGELES, CAL., *September 3, 1903.*

Hon. W. A. RICHARDS,
General Land Office, Washington, D. C.

MY DEAR GOVERNOR: I have just had a look at the water problem of Santa Barbara and I want to send you a word about the situation there and the necessity for the acquisition by the Government of the Rancho Prieta y los Najalehos, if that is the way to spell it. It seems perfectly evident from what I was able to learn that the city of Santa Barbara will be very seriously deficient in water supply within two or three years unless the acquisition of this area by the Government makes it possible for the city to acquire a new source from the headwaters of the Santa Ynez River. Santa Barbara is now drawing upon the water stored in the Santa Ynez Range along the line of a tunnel which the city is pushing into the mountains. Sources of ground water of this character are not permanent, and it becomes extremely desirable for the city to own a safe supply.

You will remember that the difficulty in the case has arisen from the lieu land question. I am informed that Mr. Washburn has agreed to take untimbered land in one of the Dakotas for his holdings back of Santa Barbara. From the condition of the water supply, I am strongly of the opinion that even at the cost of a relatively poor

bargain by the Government, which from the present situation I apprehend is not to be feared, it would be wise to make the exchange. Water is practically the sole output of the forest reserves in this region, and it appears to me that this action on the part of the United States is precisely in line with the policy which has dictated the setting aside of all the reserves in this region.

I expect to be in Meeteetsee for a meeting of cattle and sheep men on September 23, but I shall miss seeing you on your way in for your hunting trip, as I hoped to do. I was sorry not to see Barrett, too, who, I understand, has been doing capital work.

I want to send you my best wishes for the complete recovery of Mrs. Richards, and my hope of seeing you again before long.

Very sincerely yours,

GIFFORD PINCHOT, *Forester.*

THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, DECEMBER 28, 1903, INCLOSING SCHEDULE OF PAPERS.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, *December 28, 1903.*

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: On the 22d instant the President signed the draft of a proclamation creating the Santa Barbara Forest Reserve, Cal., which was submitted to the department with your letter of June 30, 1903, and in view of his action I inclose for the files of your office certain papers relating to the reservation, schedule attached.

Very respectfully,

E. A. HITCHCOCK, *Secretary.*

J. Memorandum.
K. Annual Report of the Commissioner of the General Land Office for the fiscal year ended June 30, 1901.

BRIEF SUBMITTED BY THAYER & RANKIN, ATTORNEYS FOR THE CITY AND COUNTY OF SANTA BARBARA, CAL.

Before the honorable the Secretary of the Interior. In re Rancho los Prietos y Najalayegua. Petition for the inclusion of said rancho within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, or a consolidation of said reservations. Petition for reconsideration of departmental decision of December 2, 1902. Submitted by Thayer & Rankin, attorneys for the city of Santa Barbara.

PETITION: IN RE RANCHO LOS PRIETOS Y NAJALAYEGUA.

Now comes the city of Santa Barbara, petitioners in the above-described cause, by Thayer & Rankin, its attorneys, and petitions the honorable the Secretary of the Interior to reconsider his decision of December 2, 1902, in this cause.

The petitioners represent that the facts in the case are now materially different from what they were upon the date of the decision mentioned. Petitioners also represent that it is believed that the petitions may properly be granted within the law. Petitioners further move that the matter may be reopened and reconsidered as if not heretofore decided, and that counsel for the said city of Santa Barbara be granted an opportunity to present arguments orally.

Inasmuch as this is an ex parte matter, it is hoped that no objection will be raised to the granting of this petition.

Respectfully submitted.

THAYER & RANKIN,
Attorneys for the City and County of Santa Barbara.

APRIL 2, 1903.

IN THE MATTER OF PROPOSED INCLUSION OF THE RANCHO LOS PRIETOS Y NAJALAYEGUA WITHIN EITHER THE PINE MOUNTAIN AND ZACA LAKE FOREST RESERVE OR THE SANTA YNEZ FOREST RESERVE TO CONSERVE THE SOURCES OF WATER SUPPLY.

MARCH 9, 1903.

The PRESIDENT:

We have the honor to invite the President's attention to several petitions to have Rancho los Prietos y Najalayegua included within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, or within a consolidation of said reservations.

These petitions are submitted by numerous citizens of Santa Barbara County, Cal., by the mayor and corporation of the city of Santa Barbara, the board of supervisors of said county, and the chamber of commerce of said city and county, and will be found in (Exhibits B, C, D, and R, herewith).

These petitions were submitted to the honorable, the Secretary of the Interior, and by him denied (Exhibit T), so that it is now necessary for the petitioners to present their case to the President, inasmuch as it is the President in whom the statutes vest full authority in such matters (sec. 24 Mar. 3, 1891 Stats., 1103).

The farmers of Lompoc, Santa Rita, and Santa Ynez valleys, in their petitions (Exhibits B and C), say—

Agricultural enterprises have not prospered for several years last past owing to the deficiency of rainfall, and it has become apparent that for its future prosperity it must depend upon the irrigation of these lands, especially with the waters of the Santa Ynez River. An examination of the map which accompanies this petition will show the great importance of the forest reserves above mentioned for the protection of the watershed upon which the Santa Ynez River mostly depends for its flow and the urgent need of completing that protection by including the lands which extend from the boundaries of the reserves down to the channel of the river. These lands while partly covered with woods and brush afford more attractive range for live stock than the higher slopes of the mountains and have been used, and are being used, much for the grazing of sheep, whose ravages threaten the destruction of the natural protection to the watershed which, but for their presence, would thrive and be readily improved.

Moreover, the value of these lands for grazing purposes is an inducement for the burning off of the brush for the purpose of still further extending the growth of grass. Besides, unauthorized parties have been cutting down trees which protect the water sources, all of which menaces to the flow of the river would be averted by having these lands placed in a government forest reserve under the guardianship of the forest supervisors and rangers. Extensive schemes for the irrigation of our valley lands from the river have been projected, and surveys and calculations therefor made, and one irrigation canal has been constructed at a large outlay of capital, but further execution has been delayed and their realization, we fear, will be long postponed unless the sources of supply are assured by that effective protection which the government forest reserve system seems alone competent to afford.

The board of supervisors of Santa Barbara County (Exhibit D) base their petition on the same grounds, as does also the chamber of commerce of Santa Barbara County (Exhibit D).

Other petitioners (Exhibit R) represent the importance of this matter to the city of Santa Barbara and to the farming community.

In view of the great importance of this question to the interests represented by the petitioners, we deem it to be our duty to present this matter to the President very fully, in order that the final action in the premises may be based upon a complete knowledge of the facts and the law.

Before presenting the facts and our view of the law, we desire to call the President's especial attention to the accompanying map (Exhibit G). This map, prepared by the surveyor-general of California, discloses the fact that Rancho los Prietos is a narrow strip or tongue of land wedged in between the two forest reservations, and completely surrounded by them, except on the west.

THE FACTS.

Rancho los Prietos y Najalayegua is a Mexican private grant owned by the Santa Barbara Water Company, a private corporation, and Mr. Jed L. Washburn. It comprises some 48,000 acres of land, chiefly mountainous in character. Within its boundaries the Santa Ynez River and a number of its tributaries have their sources and secure the major part of their volume. Some 40,000 acres of its area are covered by heavy brush (see Exhibit G), the best conservator of moisture and water flow. The rancho is used as a sheep range, 900 goats and 1,500 sheep having been pastured there during the past season. The sheep and goats foul the water and denude the hills of the brush. In addition, the shepherds frequently start fires that burn over and destroy large areas of the brush, thus causing a constant and permanent injury to the sources of water supply. This condition of affairs constitutes a living menace to the surrounding forest reservations.

Water is exceedingly scarce and very valuable in Santa Barbara County. In the city of Santa Barbara an inch of water (a flow of 9 gallons per minute) will earn 5 per cent on a value of $6,000, while in the adjacent valleys an inch will sell for irrigation purposes alone at $2,000. Yet at these valuations the supply does not approach the demand (Exhibit L). The city of Santa Barbara is dependent upon the Santa Ynez River for its water for domestic uses, and is now driving a tunnel, which will be 4 miles long when completed, to reach reservoir sites within this rancho (Exhibit L).

It is of vital importance to the city of Santa Barbara, therefore, as well as to the farming interests of the county, that the waters of the

Santa Ynez River and its tributaries be protected from waste and kept pure.

This is of special importance to the farmers in the valleys to the west as they are dependent upon irrigation, and the Santa Ynez River is their only source of supply.

The owners of Ranch los Prietos are willing to surrender their title to the United States if the rancho be included within a forest reservation, and have agreed to select in lieu thereof an equal area of "non-timbered vacant public land subject to homestead entry." (See Exhibits 1 and 2.)

The question of fact in issue, therefore, is whether the public interest will be the better subserved by allowing this rancho to remain a sheep range or by including it within a forest reservation, so that its supply of water may be protected and fostered for the use of the people of Santa Barbara County.

We assure the President that the material interests of the community are vitally involved in the final decision in the premises.

The foregoing is only a brief statement of the facts.

Exhibit A, herewith, sets forth all of the facts and the reasons why these petitions should be granted very forcefully, and we commend it to the special attention of the President.

OFFICIAL REPORTS.

This matter has been reported upon by the following-named officials of the Government: (1) Forest Supervisor Willis M. Slosson, two reports; (2) Forest Superintendent B. F Allen. (3) Mr. Henry Gannett, U. S. Geological Survey. (4) Mr. J. B. Lippincott, hydrographic engineer, U. S. Geological Survey (see Exhibits G, J, K, O, P, and U herewith). It has also been reported on by Mr. E. S. Sheffield, water commissioner of the city of Santa Barbara (Exhibit L).

Each of these reports recommends favorable action on these petitions.

Forest Supervisor Slosson's report is based chiefly upon the ground that the rancho is a serious "menace to the successful and economical administration" of the two reservations by which it is surrounded.

Forest Superintendent Allen bases his recommendation on the same ground, and adds, as a further ground, that the presence of the rancho in private hands "is also dangerous on account of fire, making it necessary to patrol all its boundaries (about 60 miles in extent), as a fire started on said rancho would very soon reach one or the other of the reserves which surround it."

Mr. Gannett bases his recommendation on the benefits to enure to the people of the city and county of Santa Barbara. He says:

The reservation of this tract, which includes the headwaters of the Santa Ynez River, is needed by the people of Santa Barbara for the protection of their prospective water supply. At present water for the use of that city, as well as for the irrigation of the neighboring country, is derived from the short streams and springs upon the south slope of the Santa Ynez Range. This is entirely insufficient in quantity, the supply for the city being inadequate at present, and as the city is growing rapidly it will become constantly less and less adequate for its requirements. Foreseeing this the city has commenced a tunnel through the Santa Ynez Mountains, which is now in some 4,700 feet and which will be approximately 4 miles in length when completed, for the purpose of tapping the Santa Ynez River and bringing its waters into the city and the country immediately surrounding it. This tunnel, with the reservoirs contemplated in the basin of the Santa Ynez, will entail a heavy expense for

the people of Santa Barbara, but apparently an inevitable one. It seems to me that the city should be aided in every proper way by the Government, and certainly the inclusion of this region within the reserve, with the accompanying prohibition of grazing within its areas, might be effected.

Mr. Lippincott rests upon the same broad view entertained by Mr. Gannett.

In short, every person who has examined this ground and who is familiar with local conditions, and is skilled in the science of forestry and water protection and propagation, believes that the petitions should be granted, and has so recommended.

THE INTERIOR DEPARTMENT'S DENIAL.

But the honorable the Secretary of the Interior (Exhibit T) has denied the petition. While the honorable Secretary does not so state in his decision, it is evident, after reading Exhibits H, M, and Q, that his action was materially influenced by the fear that the owners of said rancho would select valuable timber land in lieu. His expressed ground of denial is that "it is doubtful whether the addition to an existing forest reserve of a separate and distinct tract of exclusively private lands, containing upwards of 48,000 acres, is within the letter or spirit of section 24 of the act of March 3, 1891 (26 Stats., 1095), authorizing the establishment of forest reserves."

In order to remove the first objection and assure the President that the owners of the rancho entertain no ulterior motives and are not seeking any undue or improper advantage in their proposition to exchange the rancho for other land, the interests involved have secured an agreement with the owners (Exhibits 1 and 2 herewith) by the terms of which they obligate themselves, if the petitions are granted, to convey the rancho to the United States free of all encumbrances. And in lieu thereof they agree to restrict their selections to "nontimbered vacant public land subject to homestead entry."

When the case was first under consideration there was no such agreement present, but one the wording of which evidently created suspicion in the mind of the honorable Secretary of the Interior (Exhibit E). It is submitted that this present agreement should remove all objection heretofore existing, based on an indisposition to subject a large tract of the valuable forest lands of the United States to selection in lieu of this rancho.

In order to arrive at a correct solution of the question raised by the honorable Secretary in respect to the law of the case, it appears to us that we should first examine the law itself and then ascertain how it has been heretofore construed and applied.

Forest reserves are authorized by section 24 of the act of March 3, 1891 (26 Stats., 1103):

> That the President of the United States may, from time to time, set apart and reserve, in any State or Territory, having public land bearing forests, in any part of the public lands wholly or in part covered with timber or undergrowth, whether of commercial value or not, as public reservations, and the President shall, by public proclamation, declare the establishment of such reservations and the limits thereof.

By the terms of the act of June 4, 1897, it is provided:

> That in cases in which a tract covered by an unperfected bona fide claim or by a patent is included within the limits of a public forest reservation, the settler or owner

thereof may, if he desires to do so, relinquish the tract to the Government, and may select in lieu thereof a tract of vacant land open to settlement not exceeding in area the tract covered by his claim or patent. (30 Stats., 36.)

By the terms of the same act it is provided:

No public forest reservation shall be established, except to improve and protect the forest within the reservation, or for the purpose of securing favorable conditions of water flows * * *.

And a subsequent paragraph of the same act provides:

All waters on such reservations may be used for domestic * * * purposes * * *.

The final paragraph of said act of 1897 provides:

The President is hereby authorized at any time to modify any Executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary lines of such reserve, or may vacate altogether any order creating such reserve.

It is seen, therefore, that the President is authorized to include within a forest reservation land covered only with undergrowth, and that one of the chief objects of the forest reservation laws is to secure and protect "favorable conditions of water flows." And, finally, it is seen that the President is authorized to enlarge or contract the boundaries of any such reservation. In short, the President is clothed with complete power and authority and is subject to no limitations or restrictions. His action must depend solely upon his view of the necessities and proprieties in each case. Therefore if the President considers that, on the showing here made, the public interests involved are sufficient to justify the inclusion of this rancho within a forest reservation, he has the authority to so include it.

The doubt expressed by the honorable Secretary of the Interior does not find support in his action in similar cases. It is doubtful whether there has ever been a forest reservation created that has not included large areas of land belonging to private owners, and it is only necessary to cite the action in two cases to show that brush-covered land may be properly so included, and that the boundaries of an established reservation may be enlarged so as to include private holdings.

The first is the case of the Sierra Forest Reserve, in California. It is well known that many hundred thousand acres of this reserve were absolutely barren desert, while an equally large area was covered only by a moderate growth of brush. These lands were largely held by private owners and the only possible public benefit to be derived from their inclusion in said reserve was in the direction of "securing favorable conditions of water flows." No city or farming community was immediately or vitally interested in their reservation, as in the case of the reservation we are urging, but the benefits to flow from their inclusion were entirely in future.

The second case we have in mind is that of the San Francisco Mountain Forest Reserve, in Arizona. That reserve, as originally created, included only the even-numbered sections—that is, only the public lands within its boundaries. The odd-numbered sections, containing about 1,000,000 acres, belonged to the Atlantic and Pacific Railway Company, and were originally excluded from the reservation. Subsequently, however, and, as we understand, upon the petition of the said railway company, and for sound administra-

tive reasons, the President, on the recommendation of the honorable Secretary of the Interior, issued a proclamation modifying the boundaries of the said reserve so as to include all of the lands owned by the railway company.

There is precedent, therefore, for the inclusion of brush-covered land for water protection, and for the enlargement of an existing reserve for the purpose of including lands in private ownership.

There are five forest reserves in southern California, viz: The Pine Mountain and Zaca Lake, the Santa Ynez, the San Gabriel, the San Bernardino, and the San Jacinto, and there is no timber worth mentioning on any of them. They are, however, well covered by a growth of brush, and the chief object in creating them was to protect the brush and thereby protect the water sources, so that the water should inure to the uses of the farmers below. As Rancho los Prietos is identical in character, and as such extensive farming interests are dependent upon the protection and conservation of the waters thereof, identical reasons exist for its reservation and the authority of the President to extend existing reservations so as to include this rancho is not open to reasonable question.

In view of the foregoing, it can not be doubted that the lands of this rancho might lawfully have been included within either of these reserves when they were originally created. Otherwise, very few of the existing reserves are within the provisions of the law, because nearly all of them included private lands. If, then, these lands could have been included in the first instance, it seems obvious, the President being authorized to change the boundaries of any established reserve, that they may now be included. At least either or both of the existing reserves may be vacated or abolished and a new reservation, including these lands, created. In fact, it is quite obvious that the Secretary of the Interior was not greatly influenced in his adverse action on this matter by the construction of the statute adopted by the Commissioner of the General Land Office. The utmost said by him was that "it was doubtful" whether such action would be within the letter or spirit of the law. It is quite apparent, we submit, that his adverse action was chiefly induced by his disapproval of the then existing proposition for exchange under which the owners might have selected valuable timber lands in lieu. We believe that these prejudicial considerations have now been wholly removed by the present agreement of the owners to limit their lieu selections to "nontimbered lands."

It is therefore, we submit, entirely proper to reconsider this matter under its changed aspect and to carefully reexamine the statutes and definitely determine whether any real doubt exists respecting the authority of the President in the premises.

We believe that such reexamination will lead to a certain conclusion that the President's authority is ample, and we are equally certain, also, that the facts of this particular case will be found to be so strong as to command the willing approval of the Secretary of the Interior.

The only objection remaining to be disposed of is merely hinted at by the Secretary of the Interior, but we desire to meet and dispose of it. It is the suggestion that the land of Rancho los Prietos is of little value, and that the owners, in the contemplated exchange, will necessarily be greatly benefited.

Even if this fear had foundation, Mr. President, it does not constitute a sound reason for refusing to meet a public necessity. In order to reach the true and correct solution of the question involved, the matter of gain to the individual, if any, may properly be made entirely subservient and secondary to the public interest involved.

However, Mr. President, there appears to be no substantial ground upon which to rest such a suggestion. While the land itself may be of little value, the water is of great value, and the latter being appurtenant to the land its value may be fairly accepted as the value of the land.

On this basis it is certain that the owners, under their present proposition to select nontimbered public land, will not surrender less than they will receive.

We are in doubt as to the exact volume of water flowing in the Santa Ynez River within the rancho. In his report (p. 10 of Exhibit G) Forest Supervisor Slosson does not make it clear whether there are 150 or 271 miner's inches of water in the river within the rancho; but whichever it is its total value is far in excess of the total value of any 48,000 acres of "nontimbered" land the owners may select. For it is shown (Exhibits L and U) that 1 miner's inch of water, when sold in Santa Barbara for domestic use, will earn 5 per cent interest on $6,000, and that even "at these valuations the supply does not approach the demand," and that a miner's inch sells readily for $2,000 for irrigation uses.

If there are only 150 inches they are worth, on their interest-earning capacity, $900,000, while if there are 271 inches they are worth $1,626,000. Or if sold for agricultural uses they are worth $300,000 or $542,000. It will, we believe, be admitted that "nontimbered public land subject to homestead entry" can not reasonably be given an average value in excess of $3 per acre. On this basis, then, these owners are offering to accept for their property only a fraction of its actual value.

The accompanying exhibits conclusively establish the fact that this water supply can not be protected and fostered unless this rancho is included within a forest reserve.

Succinctly stated it may be said:

First. Situated as it is, Rancho los Prietos forms a natural part of the forest reserve in Santa Barbara County and without it the system is utterly incomplete and must fail to accomplish the chief end of its existence. Every expert who has examined the property sustains this proposition. This embraces proper conservation of waters at their sources and the practical solution of problems of administration.

Second. The farming interests of Santa Barbara County and the interests of the City of Santa Barbara are vitally concerned in this matter, since there is involved in it not only the volume but the purity and permanency of their water supply. It is a public question of great importance and should justly command the attention and cooperation of the Government within the clear lines of the statute authorizing the selection of lands for the specific purposes asked for.

Third. The modified proposition submitted by the owners is well within the provisions of existing law and regulations respecting selections of lieu lands, and also specifically provides that no timber lands shall be selected. It would thus appear that the owners have given

abundant proof of their disposition to consult the urgent wishes and necessities of the citizens of Santa Barbara and the country to be affected by the proposed reservation.

In view of the foregoing, it is submitted that these petitions should be granted upon the basis of the modified propositions.

Respectfully submitted.

THAYER & RANKIN,
Attorneys for the City and County of Santa Barbara.

EXHIBIT A.—STATEMENT OF FACTS, AND REASONS WHY THE LOS PRIETOS RANCHO SHOULD BE EMBRACED WITHIN A GOVERNMENT FOREST RESERVE, AND MIGHT BE ADDED TO THE PINE MOUNTAIN AND ZACA LAKE RESERVE.

THE RESERVES.

The Pine Mountain and Zaca Lake Forest Reserve is situated in the counties of Santa Barbara, Ventura, and Los Angeles. It was established by executive order of March 2, 1898, and enlarged by a like order on June 29, 1898, and contains 1,114,594 acres of land, and includes within its limits the San Rafael Mountain Range.

The Santa Ynez Forest Reserve is located chiefly in Santa Barbara County, south of Pine Mountain and Zaca Lake Reserve, and extending in an easterly direction until it approaches and joins the latter across the east boundary line of Santa Barbara, in the county of Ventura. It was established by executive order of October 2, 1899. It contains 145,000 acres of land, and includes the Santa Ynez Range of mountains, which extend along the coast, throughout the length of the reserve, and trend toward the larger San Rafael Range, which they join just across the east boundary of Santa Barbara County, in the county of Ventura, where the two reserves come together.

THE SANTA YNEZ RIVER.

The Santa Ynez River, one of the largest in southern California, takes its rise in the high valleys where the two ranges join, and flows in a general westerly direction, parallel with the Santa Ynez Range, for a distance of about 80 miles until it empties into the Pacific Ocean.

In its course it passes through lower and gradually widening levels, and waters three rich farming districts in Santa Barbara County—the Santa Ynez Valley, embracing more than 20,000 acres, Buell Flat, of more than 1,000 acres, and Lompoc Valley, of more than 30,000 acres—all farming land susceptible of irrigation and a large proportion of rare fertility, capable of supporting a dense population when brought under irrigation.

The Santa Ynez Valley, branching into the valley of Los Olivos and Buell Flat, extends along the river for nearly 35 miles to the Santa Rosa Valley, which, with the Santa Rita, extends on down the river about 15 miles, joining the Lompoc Valley, which continues down the river to near its mouth, more than 10 miles farther.

The principal head tributary branches of the river, which constitute its chief sources of supply and drain much the largest area of the watershed, rise and most of their courses are embraced within the Pine Mountain and Zaca Lake Reserve, on the north side of the river, while a few tributary streams which supply the river from the

south head on the north side of Santa Ynez Range, within the boundaries of the reserve of that name. All these supplying sources flow out of the reserves and converge toward the main channel of the river and unite with it within the boundaries of the rancho, through which its course is continued as the main body of the stream, about midway between the north and south boundaries of the eastern wedge-shaped half of the grant. The river then meanders across the other half of the rancho, and when it flows off this ranch it has acquired its permanent or fixed character as a stream, for throughout the remainder of its length of more than 50 miles it receives no substantial accession, with the single exception of the Santa Cruz Creek, which rises in the San Rafael Mountain Range and flows into the main channel within about 8 miles of the western boundary of the Los Prietos Rancho.

The city of Santa Barbara lies on the shore of the Pacific Ocean, across the Santa Ynez Range, directly opposite the headwaters of the river. It has now a population of 5,000 inhabitants within the city limits, and with its environs—Montecito, Summerland, and Patera—will include a population of 12,000 residents.

This whole region or neighborhood has no other adequate water supply and must eventually depend upon the Santa Ynez River to supply its needs. This will permanently withdraw a large amount of water from the Santa Ynez River.

The irrigation of more than 60,000 acres of level land bordering upon the lower channel of the river, and the domestic uses of the inhabitants thereof, will depend upon the constancy of its flow.

THE LOS PRIETOS RANCHO.

The Rancho Los Prietos y Najalayegua is a Spanish grant containing 48,728 acres of land of a narrow wedge-shaped form, lying on both sides of the main channel of the Santa Ynez River, at the head of the stream.

It is bounded on the north by the Pine Mountain and Zaca Lake Forest Reserve; on the south by the Santa Ynez Forest Reserve; and on the east the narrow end of the wedge terminates at the boundary line between Santa Barbara and Ventura counties, where the two reserves and mountain ranges join together.

An examination of the map of the State of California, compiled by the Interior Department and displaying the forest reserves within the State, shows that this rancho penetrates into the heart of this reserved territory—the two reserves uniting at its east end now constitute, for all purposes, one reservation.

The river here takes a substantially east and west course and flows nearly through the center of the rancho, which stretches along the main stream for a distance of about 22 miles, in an easterly and westerly direction. Throughout the eastern half of this distance the ranch is long and narrow, being only 2 miles across from north to south; the western half is more nearly quadrangular, having a north and south diameter of from 6 to 8 miles.

The official survey by which the grant was located and segregated from the public domain, as is usually the case in all Spanish grants, embraced the main stream, principal fountain heads or springs, and sources of water supply of the Santa Ynez River, the watershed of

that stream being entirely controlled, though not embraced within its boundaries. Its surface is rugged and broken. It includes throughout its length the main valley of the Santa Ynez River, having a level breadth of from 2 to 4 miles at its western boundary, but as you ascend the stream this narrows very rapidly, until through more than half the length of the rancho the foothills approach the banks of the stream and no considerable areas remain. Steep, narrow canyons branch out at frequent intervals and these are hedged in by bold mountain spurs, springing from the main ridges which surround the rancho on all sides.

REASONS FOR INCLUDING THE RANCHO IN THE RESERVE.

The main purpose of the Federal Government in establishing forest reserves in a semitropic climate like southern California is to protect existing and increase the future water supply. The slow growth of timber in those regions makes the returns from forest culture to supply timber too remote for present consideration, and the effect of forest growth upon climate is too problematical as yet for serious consideration. But the influence of increased forest areas on the conservation of the water supply is plainly apparent. It has passed the stage of theory and experiment, and its practical application has become a prominent feature of governmental policy. In a climate like southern California, where the rainfall is always limited, frequently scanty, and on occasions almost wanting, any artificial means whereby the water which falls in rain may be conserved and prevented from waste is always an object of supreme public interest.

INCREASING THE AREA OF THE FOREST FLOOR INCREASES THE CONSTANT VOLUME OF THE WATER IN THE STREAMS FLOWING THEREFROM.

The advantage of a forest cover upon the earth's surface in conserving the water supply is well known to all who have given attention to the subject. This can only be had by protection and guardianship. If a given territory can be protected from the wanton and careless depredations of man and the natural invasion of animals and guarded against fire—that greatest destroyer of forest growth—then nature will soon adorn her face with a delicate tracery of trees, shrubs, vines, and vegetation, which will retain moisture, lower the temperature of the surface atmosphere, and lessen the absorbing influence of the sun—that greatest consumer of water—which the cultivation of the earth's surface requires.

In order that the natural storage capacity of the earth's surface may be increased and moisture spared from waste, a dense undergrowth of shrubs, vines, and herbaceous plants is essential as a protecting mantle against the sun's rays. Where a growth of timber is maintained and the ground is covered with a mat of fallen leaves and vegetable mold, a large proportion of the rainfall is absorbed by the surface soil and then stored, to be gradually distributed by springs, streams, and percolating channels. The cover acts as a protection to the existing soil to prevent its waste by erosion and also constantly adds new layers of soil, and thus increases the capacity of the area to sustain vegetable growth.

INCREASING THE AREA OF FOREST FLOOR CHECKS EROSION.

A highly important element to be considered, and one which frequently is not given due weight, is the protection which a forest cover gives to the mountain sides against erosion of the soil through torrential waters, which gather at each heavy rainfall. Many of the mountains in California, and the ranges mentioned are not exceptional, exhibit vast spaces completely denuded of every species of vegetation and exposing to the glaring rays of the sun the underlying strata of bare rock. These spaces act as cast heat radiators, which visibly reflect the heat of the sun and perceptibly raise the temperature of the superjacent atmosphere, while they act as unrestrained gutters and conduits to accelerate the flow of an accumulated head of water on the foothills and plains below, where the soil is more and more disturbed and carried off by the turbid and roily streams. On the other hand, in a region where the mountain sides are well protected by a forest growth the rain descending upon this floor, which nature provides to this very end, is largely absorbed, and when the whole soil is saturated the surplus taking a more gentle and gradual descent, percolating through the soil and detritus, reaches the streams so quietly and undisturbed that only natural channels are occupied, and the creeks and rivers flow on, clear and limpid, in the midst of the storm.

The truth of these natural phenomena has for ages, perhaps unconsciously, been taught to every traveler that gazed upon the blending of the waters of the Mississippi and the Missouri. The former drains a comparatively well-wooded section where forest influences have had their effects, while the other flows through a vast treeless region. "In one, erosion was at a minimum, in the other at a maximum."

DANGERS FROM FIRE.

The great adversary of the forest is fire. Not only does it destroy the present existing woody cover, but after it has done this it exposes the area visited to the new destructive force of falling water and unfits it to utilize the benefits of the raindrops by staying their course and storing their energy. That fluid, which when regulated by the natural restraints of forest cover becomes a lasting blessing that feeds and sustains the vegetable life of the region, becomes when unrestrained a destroying and uncontrolled power of evil. The goodly friend has become a bitter foe.

The danger from exposure to fire arises almost exclusively from human intervention.

The susceptibility to fire and the increased risk may, however, arise from destruction of herbage and increased litter by pasturing animals; but the chief and most disastrous damage to which forest cover is exposed from animals is in the disturbance and breaking up of the mat by cattle paths and sheep trails, as well as by their trampling. These causes increase the liability to erosion and washing during the rainy season. Besides, stock browse upon the budding twigs and sprouting plants and destroy the greenage or verdure of the forest, so that it is less resistant to sparks or the intense heat of fire.

If the dense thickets of low growth known as "chaparal," which cover all these mountains, can be protected against fires which periodically sweep clean the mountain sides and leave them exposed and

bare to weather, the water-carrying capacity of these mountains will be immeasurably increased, the constancy of the springs and streams will be maintained throughout the year when otherwise they would be exhausted by the early summer, and the mountains themselves will escape the denuding effects of torrential waters. These thickets when undisturbed for a few years are so dense, fresh, and green that they form a shady canopy, under which the air is cool and the soil humid, protected by a cover of decaying leaves. A perfect windbreak and sunshade is afforded, and the whole forms a certain barrier to check the devouring flames of a mountain fire.

THE SOURCES OF A STREAM REQUIRE THE MOST PROVIDENT GUARDING.

So great an authority upon the subject as the Hon. John R. Noble, who, while Secretary of the Interior, identified himself forever with the inauguration of the system, in an address before the Forestry Congress at Chicago, in 1893, summarized the whole government plan as "the policy of reserving the forests at the fountain heads of our rivers."

The upper mountain valleys are the nurseries of the fountains which supply the rivers of the plains.

The greatest necessity exists for the protection of the radiating branches, brooks, rills, and rivulets, where the waters are divided into small and shallow streams and the proportional exposure to evaporation and disturbance is far greater than after the accumulated waters have reached the main channel and flow between fixed banks with an accelerated current.

That eminent expert, B. E. Fernow, in an interesting paper on "Relations of forests to water supply," Bulletin No. 7, Department of Agriculture, Forest Divisions, thus states an important principle affecting the subject in hand: "The surface exposed determines the amount of evaporation from water courses, but if the amount of evaporation is related to the available volume of water it will appear that the smaller and slower run loses proportionately more than the larger, which thus exhibits the value of the protective character of accumulation."

It will thus be seen that in the radial rivulets which trickle down from the fountain springheads to form the main channel of the river the ratio of evaporation is destructive of their very existence, while after they have united together and formed the main stream flowing in a well-defined channel with an increased depth and velocity the loss by evaporation is greatly reduced.

It is therefore of chief importance to protect a river at its sources until its headwaters have united in a main channel. These delicate and sensitive rills require all the fostering care and protection that the most perfect forest cover can supply—shade, low temperature, relative humidity, protection against air currents and mechanical disturbance.

THE ADVANTAGES OF THE RANCHO TO THE RESERVE.

Situated as it is, the Los Prietos rancho forms a natural part of the forest reserve in Santa Barbara County. Without it the system is utterly incomplete and must fail to accomplish the chief end of its existence locally.

The northern part of the Pine Mountain and Zaca Lake Reserve, largely, and the entire Santa Ynez Reserve, almost exclusively, is subservient to the protection of the water supply of the Santa Ynez River, which is a chief object for which it was established. The benefits which the public should derive from these forest reserves just mentioned are substantially neutralized by the injection into their midst at the most vital part of the watershed of this unprotected territory.

This rancho was located by its grantees to control the watershed of the Santa Ynez River, and the Government should control it in order to make the protection of that watershed effectual.

It has been wisely said, "Without forest management, no national water management is possible," and it will readily be seen that all the benefits which might arise from the protected areas in question would, without doubt, be destroyed through the exposures, dangers, and waste brought about by the unprotected area within the boundaries of the rancho.

The protection of the reserves can not be effective while the long central strip within the rancho is under private ownership, open to campers, cattle, sheep, and goats, exposing them to dangers from fire through the carelessness of men and destroying the forest cover by the inroads of browsing cattle, sheep, and goats. In addition to these perils from intrusion into the reservation there would remain the constant risk of fires originating on the rancho and spreading into the accumulated undergrowth which will be always found upon the reserves.

The construction of trails for rangers to reach exposed points when fighting fires and for maintaining patrol to guard and supervise the protected areas depends for its success upon concentration and system. The Los Prietos rancho now acts as an insuperable obstacle against these necessary purposes.

Occupying the very heart of the region to be protected, the stations of the rangers should be upon that strip, and the trails should all cross it so that distance may be saved and effective inspection promoted. From that strip the north side of Santa Ynez and the south side of the San Rafael Range are both visible and can be reached by easy access. By this means efficiency in guarding against danger and economy of management will both be promoted.

The difficulties of keeping the reserves free from domestic animals—cattle, horses, sheep, and goats—is vastly increased by the situation of the rancho since, instead of guarding a uniform frontage, the long and narrow strip, upon which it is difficult if not impossible to keep animals confined, must be closely watched, and more than 40 miles of added frontage must be guarded.

On June 4, 1897, Congress provided for the topographic survey of the forest reserves under the supervision of the Director of the United States Geological Survey, and authorized that department to gather necessary data for the information of the President and Land Department, and forest experts were put into the field to study the subject, and the results appear in the official reports.

A notable contribution to the literature upon the subject is the fifth part of the Nineteenth Annual Report of the United States Geological Survey, Charles D. Walcott, Director.

Director Walcott, in an article on the subject of "The United States Forest Reserves," published in the Popular Science Monthly in

November, 1897, reviewing the whole work of the department, says: "Private ownership of forest lands within or adjoining forest reserves can not but be detrimental to the interests of the forests and to the people to whom they are tributary."

If the area embraced within the boundaries of the Los Prietos Rancho should remain in private ownership, unprotected from the natural dangers which oppose the conservation of the water supply, the benefits resulting from the guardianship in the reserves would be completely offset, and in at least one instance—that of erosion—liability would be increased.

The conservation of the water supply at the springheads of the tributary branches of the main river which flow through the reserves would be rendered unavailing if a considerable length of these tributaries, before they reach the main channel, are exposed to the exhaustive influences of evaporation by sun and wind and the countless dangers of an unprotected area. These losses would more than make up for the saving above.

On this rancho is the ganglionic center of the river, where the radiating branches concentrate to form the main body of the stream, which does not attain its greatest resistant power until it flows on past its western boundary.

The Santa Ynez River represents in that local watershed the main arterial system, while the outspreading branches, taking their sources within the area of the reserves, resemble the veins which distribute the fluid from the extremities.

The higher mountain summits are all within the reserves, while the more gentle slopes of the foothills are included in the rancho.

The effect of protecting the heads of the streams is to increase their flow and conserve the water which falls, but if this is precipitated upon barren hillsides lower down before the water reaches a comparatively easy flow over gentle gradients, it will be only increasing the quantity to work erosions, denuding the steeper hillsides of soil, and rendering them incapable of sustaining vegetation. This condition will encroach year by year, working higher up the elevations, and invading the reserves by a like natural process that exposes them to fires.

The peculiar configuration of this watershed makes the practical working out of the problem a very instructive example in forestation.

The benefits to 12,000 residents of the coast side of the Santa Ynez Range when served with the water for drinking and domestic purposes, and the advantages to the occupants of the 60,000 acres of irrigable land situated on the borders of the Santa Ynez River on its course to the sea, make the public interests of sufficient magnitude to deserve consideration. In addition to that, it is conceived that no more suitably situated watershed can well be found—all within a public forest reserve, which this would be after the desired action—in which exact and scientific experiments, testing the effects of this public policy, can be studied to such advantage.

EXHIBIT B.—PETITION OF SUNDRY CITIZENS OF SANTA BARBARA COUNTY, CAL. (LOMPOC AND SANTA RITA VALLEY), TO SENATOR GEORGE C. PERKINS.

Hon. GEORGE C. PERKINS,
United States Senator, State of California:

The undersigned, residents and landholders in the Lompoc and Santa Rita Valley, in the county of Santa Barbara, State of California, respectfully petition you to promote such congressional legislation and such executive action as may be required to effect the acquisition by the Government of the United States of the lands covering the headwaters of the Santa Ynez River, in said Santa Barbara County, and the watershed of that river immediately adjacent to the main stream, and particularly the lands included in the Rancho los Prietos y Najalayegua, and the inclusion of said lands within one of the forest reservations already created by proclamation of the President and named the "Pine Mountain and Zaca Lake Forest Reserve," which was set apart as such reserve by the proclamation of the President dated the 2d day of March, A. D. 1898, and enlarged by proclamation of the President dated the 29th day of June, 1898, and the Santa Ynez Forest Reserve, created by proclamation of the President of the United States dated the 2d day of October, 1899.

Lompoc and Santa Rita valleys, properly so called, is that part of the county of Santa Barbara which lies along either bank of the Santa Ynez River below the Santa Ynez Valley, extending for a length westward along the course of the stream for a distance of about 20 miles to the Pacific Ocean, with an extreme width of about 5 miles, including the sites of Stewart post-office and the town of Lompoc and embracing about 30,000 acres of agricultural land.

This region, although now sparsely settled, is capable with the development of its natural resources of supporting a numerous and prosperous population. Its agricultural enterprises have not prospered for several years last past owing to the deficiency of rainfall, and it has become apparent that for its future prosperity it must depend upon the irrigation of these lands, especially with the waters of the Santa Ynez River. An examination of the map which accompanies this petition will show the great importance of the forest reserves above mentioned for the protection of the watershed upon which the Santa Ynez River mostly depends for its flow and urgent need of completing that protection by including the lands which extend from the boundaries of the reserves down to the channel of the river. These lands, while partly covered with woods and brush, afford more attractive range for live stock than the higher slopes of the mountains, and have been used and are being used much for the grazing of sheep, whose ravages threaten the destruction of the natural protection to the watershed, which but for their presence would thrive and be readily improved. Moreover, the value of these lands for grazing purposes is an inducement for the burning off of the brush for the purpose of still further extending the growth of grass, besides unauthorized parties have been cutting down trees which protect the water sources, all of which menaces to the flow of the river would be averted by having these lands placed in a government forest reserve under the guardianship of the forest supervisors and rangers. Extensive schemes for the irrigation of our valley lands from the river have been projected, and surveys and calculations therefor

made, and one irrigation canal has been constructed at a large outlay of capital, but further execution has been delayed and their realization, we fear, will be long postponed unless the sources of supply are assured by that effective protection which the government forest-reserve system seems alone competent to afford.

We therefore urgently solicit your efforts in Congress and with the President for the securing that protection for us and the many who then will come to live with us in a region whose agricultural prosperity will be assured.

EXHIBIT D.—CHAIRMAN OF THE COMMITTEE ON PUBLIC UTILITIES, SANTA BARBARA, CAL., TO THE SECRETARY OF THE AMERICAN FORESTRY ASSOCIATION, INCLOSING RESOLUTIONS OF THE BOARD OF SUPERVISORS AND THE CHAMBER OF COMMERCE OF THE COUNTY OF SANTA BARBARA, CAL.

SANTA BARBARA, CAL., *December 6, 1901.*

F. H. NEWELL, Esq.,
Secretary of the American Forestry Association,
Washington, D. C.

DEAR SIR: I inclose you copy of resolution passed by the board of directors of the chamber of commerce of Santa Barbara County, Cal., on the 4th instant, with reference to the extension of the boundaries of the Santa Ynez Reserve or the Pine Mountain and Zaca Lake Reserve so as to include in the one or the other (more probably in the Santa Ynez Reserve) the Rancho Los Prietos y Najalayegua, and a copy of the resolution passed by the board of supervisors of the county of Santa Barbara, to which the resolution of the chamber of commerce refers. After the passage of the resolution by the chamber of commerce the matter was referred to the committee on public utilities, of which I am chairman, to correspond with your association and earnestly solicit your support and aid in prompting such legislation and executive action as will accomplish this perfecting and protection of these reserves and the conserving and controlling of the waters of this important stream, the source of supply for irrigation of a large territory.

What is asked is in direct line with the policy of the President, as displayed in his message, and with that of your association as we understand it. This Rancho of Los Prietos y Najalayegua, consisting of 48,000 acres, is surrounded by the two reserves, except on the west side, and is a great obstruction wedged between them, menacing them with danger from fires.

It is as valuable to this extent for forest-reservation purposes as the two existing reserves, embracing as it does the headwaters and greater flow of the stream.

Independent of the economic importance of bringing this territory within the police rules and regulations of a reservation to the owners of lands dependent upon this river for water supply, it is necessary for the protection of the game upon the surrounding forest reserves that it be included in one or the other of them.

This tract of land or rancho would have been included in one of the reserves had it been deemed to be the subject of reservation by proclamation of the President, but being held by private ownership under Mexican grant, it was thought necessary to exclude it.

If action be taken to make it part of a reservation an appropriation for the purchase of this property will not be required, as the present owners have given assurances that they will accept government land in exchange.

Information in detail concerning the physical character of this tract of land and the adjoining reserves can be obtained from Gen. B. F. Allen, superintendent of these reserves, who is now in Washington.

We sincerely hope that your association will feel justified in furthering this public utility.

I remain, respectfully, yours,

CHARLES F. CARRIER, *Chairman.*

RESOLUTION BY THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA BARBARA., CAL., DECEMBER 2, 1901.

Whereas a very large part of the county of Santa Barbara is embraced within a succession of valleys lying along the course of the Santa Ynez River and called locally the Santa Ynez Valley, which extends from the western boundary of the Rancho Los Prietos y Najalayegua westwardly to the Santa Rosa rancho, a distance of about 35 miles, the Santa Rosa and Santa Rita valleys extending a distance of about 15 miles along the river to the immediate neighborhood of the town of Lompoc; and the Lompoc Valley, which extends from the west boundary to the Santa Rita rancho to the the Pacific Ocean, a distance of 10 miles, making a total length of about 60 miles from the Rancho Los Prietos y Najalayegua to the ocean, which valleys contain a vast extent of farming lands of excellent quality, a careful estimate of which gives for the Santa Ynez Valley 30,000 acres of farming land and for the Lompoc Valley 13,000 acres of very rich nearly level alluvial deposit; and

Whereas a large portion of this great territory can be conveniently irrigated from the Santa Ynez River, which traverses its entire length, and although now but thinly populated, may through the development of its natural resources and particularly by the establishment of extensive streams of irrigation from the river become the home of a large and prosperous agricultural community; and

Whereas it is of the greatest importance for the encouragement and success of irrigation enterprise that the sources of water supply should have all the natural protection which can be secured from them, and the most efficient means of securing such protection hitherto devised is by having the watersheds supplying the streams, upon which the irrigation must depend, embraced within Government forest reservations, so that the coverings of forest and brushwood, which check the wasteful floods and maintain a copious flow of the streams, may be preserved and improved; and

Whereas the headwaters of the Santa Ynez River, including over 20 miles in length of the beginning of its course (one-fourth of the entire length of the stream), and many important tributaries are embraced within the Rancho Los Prietos y Najalayegua, which has intruded like one enormous wedge between the Pine Mountain and Zaca Lake Forest Reservation and the Santa Ynez Forest Reservation, rendering more difficult the effective management of those reservations and exposing them to serious danger from fires originating on the rancho and the inroads of browsing sheep and cattle; and it is the earnest desire of the supervisors of Santa Barbara County, who have at heart the advancement of the interests of every part of the county, that the conservation of the waters of the Santa Ynez River should be made more effectual by including within the forest reserves mentioned the whole of the Rancho Los Prietos y Najalayegua.

Be it resolved by the board of supervisors of Santa Barbara County, That the United States Senators from California and our Representative in Congress from this congressional district be earnestly solicited to promote such congressional legislation and to urge such executive action on the part of the President as may be required to effect the inclusion within a forest reservation of the rancho above named; and a copy of this resolution be forwarded to each of them.

Passed and adopted by the board of supervisors of the county of Santa Barbara, State of California, at a regular meeting of said board this 2d day of December, A. D. 1901.

E. C. TALLANT, *Chairman of the Board.*

Attest:

[SEAL.] C. A. HUNT, *Clerk.*

Filed December 2, 1901, C. A. Hunt, clerk.

STATE OF CALIFORNIA,
County of Santa Barbara, ss:

I, C. A. Hunt, county clerk and ex officio clerk of the board of supervisors of the county of Santa Barbara, State of California, do hereby certify that the foregoing resolution was passed by the board of supervisors of said county and State at a meeting of said board duly held on Monday, the 2d day of December, 1901, and that the same appears of record on the minutes of said board of said date.

Witness my hand and seal of said board, this 6th day of December, A. D. 1901.

C. A. HUNT, *Clerk.*

RESOLUTION BY THE CHAMBER OF COMMERCE OF THE COUNTY OF SANTA BARBARA, CAL., DECEMBER 4, 1901.

Whereas the policy of the United States Government, in harmony with which are the President and the Department of the Interior, of protecting, conserving, and controlling streams that are the genius of the agricultural wealth of regions where the rainfall is limited, by the creation and maintenance of forest reserves, has proved a success in a greater degree than was anticipated, is illustrated in our own State; and

Whereas the Santa Ynez River is one of the most important of all the streams upon which are dependent irrigable lands of the county of Santa Barbara; and

Whereas the headwaters and the great volume of this stream are embraced within the boundaries of a tract of land held in private ownership known as the Rancho los Prietos y Najalayegua resting as a great obstruction between the two forest reserves, the Pine Mountain and Zaca Lake Reserve and the Santa Ynez Reserve, and which should be included in one or the other of the reserves in order to insure the benefits the incidents of these reserves; and

Whereas the citizens of the valleys tributary to and dependent for their productiveness and development upon this stream have memorialized our Senators and Representatives to promote such legislation and secure such executive action as will secure the inclusion of said rancho within the boundaries of one of the existing forest reserves, and the board of supervisors of this county, guided by the voice of the people, has by resolution displayed the necessity of such action and solicited of our Senators and Representatives the furtherance of this project for the public benefit; and

Whereas the extension of the boundaries of the forest reserve so as to include this property is in harmony with the policy and economy of the American Forestry Association:

Be it resolved, That the chamber of commerce of Santa Barbara County is heartily in accord with the board of supervisors of the

county of Santa Barbara in its efforts to secure the inclusion of the Rancho los Prietos y Najalayegua within one or the other of the existing forest reserves, and indorses its action in the matter; that it, the chamber of commerce of Santa Barbara, solicits the earnest effort of our Senators and Representatives in Congress and the American Forestry Association to secure, if possible, the perfecting of our forest reserves by the inclusion within the boundaries of the one or other thereof of the Rancho los Prietos y Najalayegua; and that a committee of three is appointed by the president of the chamber to have the matter in charge and take such action as may be best for the promotion of this public benefit.

That a copy of this resolution be transmitted to each of our honorable Senators and Representatives in Congress and to the American Forestry Association.

The foregoing resolutions were unanimously adopted at a regular meeting of the board of directors of the chamber of commerce of Santa Barbara County, held Wednesday evening, December 4, 1901.

Attest:

[SEAL.] C. M. GIDNEY,
Secretary of the Chamber of Commerce of Santa Barbara County.

EXHIBIT E.—JED L. WASHBURN AND THE SANTA BARBARA WATER COMPANY TO THE SECRETARY OF THE INTERIOR, FEBRUARY 19, 1902.

The SECRETARY OF THE INTERIOR OF THE UNITED STATES.

SIR: In obedience to the expressed wishes of the people of Santa Barbara County, Cal., and various official and commerical bodies of said county, the undersigned, Jed L. Washburn, as the owner of 31,760 acres and the Santa Barbara Water Company as the owner of 16,960 acres of the Rancho los Prietos y Najalayegua in said county, if the same shall be with reasonable promptness included within one of the government forest reserves, hereby offer to convey the same to the United States free from all encumbrances in consideration of being granted the right to take lands of the Government domain, not otherwise appropriated, of equal area of the class of land valued by the Government for disposition under the homestead and timber and stone acts, at $2.50 per acre, deeming said rancho to be of equal value, and to select the same within one year from the time such right is so vested, reserving, however, to said water company the lands covering two dam sites which have already been surveyed for storage reservoirs, aggregating not over 160 acres, provided said water company is secured the privilege of covering the necessary lands with water backed up in the reservoir sites by the dams and the right of way for the aqueduct and for a road from each dam site to the boundary of the rancho.

The said water company further consents that the land so reserved be made subject to forest reserve regulations and to the supervision of the officials and government employees in charge of the reserve.

Very respectfully,

JED L. WASHBURN,
SANTA BARBARA WATER COMPANY,
By R. C. CANFIELD, *President.*
H. C. THOMPSON, *Secretary.*

Dated February 19, 1902.

EXHIBIT F.—SENATOR THOMAS R. BARD TO THE SECRETARY OF THE INTERIOR, MARCH 6, 1902.

UNITED STATES SENATE,
COMMITTEE ON FISHERIES,
Washington, D. C., March 6, 1902.

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: I beg to present to you herewith the formal application of the citizens of Santa Barbara County, made through their duly authorized agent, Jarrett T. Richards, to have the boundaries of either the Pine Mountain and Zaca Lake Forest Reserve or of the Santa Ynez Forest Reserve extended so as to include within them what is known as the Rancho los Prietos y Najalayegua, appended to which application is the offer of the sole owners of the property to accept, in exchange for it, lands of the United States Government domain, not otherwise appropriated, of equal area, of the class of land valued by the Government for disposition under the homestead and timber and stone acts, at $2.50 per acre, which the owners believe to represent the value of the property to be surrendered.

The honorable the Commissioner of the General Land Office, in his letter of January 11, 1902, forming part of his report upon this matter, as informally presented by Senator Perkins and myself, and in which report you concurred, says:

6. The owners have made no offer of any kind, and there is no assurance, therefore, that they will accept any kind of proposition.

* * * * * * *

8. If it is to be embodied in the reserve, then it would appear best to try to buy the land from the proper owners, but to guard against any "option" speculation, and also against the retention of the lands by the owners in such a form as to create a serious obstacle to the management and usefulness of the reserve.

9. Until a willingness of the owners themselves is assured by offer of contract, a costly investigation of the case by this office does not seem to warrant.

The offer of the owners, accompanying the present application, meets these objections and certainly displays the transaction to be free from the most objectionable character of a speculation by the owners at the expense of the Government.

I sincerely trust that the department will now consider favorably this application, the granting of which the citizens of Santa Barbara deem of vital importance to them, and which they urge with such great importunity through their representatives; and that it will, at as early a date as practicable, take the preliminary steps toward ascertaining the true value of the lands offered to be surrendered, and toward effecting, if possible, the acquisition of it for forest reserve purposes.

Yours,

THOMAS R. BARD,
United States Senator.

EXHIBIT G.—WILLIS S. SLOSSON, FOREST SUPERVISOR, TO B. F. ALLEN, FOREST SUPERINTENDENT, JUNE 8, 1902.

Hon. B. F. ALLEN,
Forest Superintendent, Los Angeles, Cal.

SIR: I herewith have the honor to submit report of examination of the "Rancho los Prietos y Najalayegua," made by your direction, as per commissioner's letter "R" L. M. S. of April 5, 1902.

I found it a physical impossibility to cross the land every 400 yards as per instructions, but went along the divide so that I could look over the whole grant; went down the Santa Ynez River from its source to the San Marcus grant; up every canyon passable, and onto the mountains, so that I could make as thorough an examination as possible. I have divided the rancho into tracts to report on suitable to said examination. The map attached hereto was furnished me by the United States surveyor-general, W. S. Graham, San Francisco.

TRACT A.

1. Topography:
(*a*) All mountainous.
(*b*) All steep.
(*c*) Not any level.
(*d*) All rough.
(*e*) The Santa Ynez, this tract being about the source of said stream. There is a good spring about where the red x is on map, and there is water in one canyon on the north side.
2. Soil:
(*a*) What there is is shallow; covers about one-half the tract.
(*b*) It is all sand, or decomposed sandstone.
(*c*) One-half stony, and stones very close to surface of the other half.
(*d*) Not any swampy land.
3. Character of the land:
(*a*) Only a few fir trees in one canyon on south side of tract.
(*b*) All covered with a rough brush growth, not considered useless in this country. All burned over a few years ago.
(*c*) Not any bare land.
(*d*) Not any grazing land.
4. No use made of it.
5. Not any improvements on it.

TRACT B.

1. Topography:
(*a*) One-half mountainous.
(*b*) One-quarter steep.
(*c*) Two hundred acres level.
(*d*) One-quarter rough.
(*e*) The Santa Ynez River crosses tract from east to west. The Najalayegua Creek parallels the Santa Ynez on south side of tract. On the north side, the North Fork, which has two branches, empties into the Santa Ynez.
2. Soil:
(*a*) Two-thirds of the tract is covered with a shallow soil, from 2 inches to 2 feet deep.
(*b*) All a sandy gravel soil.

(*c*) Stone crops out and is close to surface over whole tract.

(*d*) Not any swampy soil.

3. Character of the land:

(*a*) Live oak trees are to be found along the Santa Ynez, Najalayegua, and North Fork canyons, but there is not what might be called a stand of timber on over 10 acres.

(*b*) That portion of tract lying south of Ynez River has a heavy brush cover. On the north side the cover is lighter, having been burned off a few years ago. Two-thirds of tract is covered with brush.

(*c*) Five hundred acres bare, with exception of live oak trees scattered around.

(*d*) Feed grows on one-half of the tract, I should judge, as bunch grass is found in the brush.

4. Used for sheep grazing, and is a camping place for hunters; is known as the Juncal. The Juncal reservoir site is located just west of the junction of North Fork and Santa Ynez rivers.

5. The Santa Barbara Water Company have built a small log cabin near dam site, and have done some work on the dam; also built a road or trail on a road grade for some distance southwest of dam site.

TRACT C.

1. Topography:

(*a*) All mountainous.

(*b*) Nearly all quite steep.

(*c*) About 50 acres level.

(*d*) One-quarter rough.

(*e*) The Santa Ynez crosses from east to west. The Najalayegua Creek empties into the Santa Ynez on this tract, and three other streams empty into the Santa Ynez from the south, all having water. Three canyons on the north side, but not any water.

2. Soil:

(*a*) All quite shallow.

(*b*) All of a sandy gravel nature.

(*c*) Stone crops out and is close to surface all over tract.

(*d*) No swampy land.

3. Character of land:

(*a*) Not any stand of timber; scattering live oak along the Santa Ynez.

(*b*) That portion of the Santa Ynez has a good heavy brush growth. North of the Santa Ynez it has a light cover, having been burned over a few years ago.

(*c*) About 100 acres bare land.

(*d*) Grazing on about one-quarter of tract—sheep grazing.

4. Sheep grazing.

5. No improvements.

TRACT D.

1. Topography:

(*a*) All mountainous.

(*b*) Three-quarters steep.

(*c*) About 200 hundred acres fairly level.

(*d*) One-half pretty rough.

(*e*) The Santa Ynez River crosses tract from east to west. The Big Caliente Creek empties into the Santa Ynez from the north.

There is a hot spring and a camping place in this canyon. Blue Canyon parallels the Santa Ynez on the south side of this tract, the junction being the west side of tract, and here the river site reservoir is located.

2. Soil:

(*a*) All shallow, none over 2 feet deep.

(*b*) All of a sandy gravel nature.

(*c*) Stone close to surface where it doesn't crop out.

(*d*) Not swampy soil.

3. Character of the land:

(*a*) On southwest corner of section 21 there is quite a stand of live-oak timber, but it was burned over two years ago and injured more or less. Also, scattering live oak along the Santa Ynez and in Blue Canyon.

(*b*) That portion of tract lying south of the Santa Ynez has a good brush cover. North of the Santa Ynez it is lighter, having been burned over a few years ago.

(*c*) About 200 acres bare land.

(*d*) There is feed on possibly one-quarter of this tract, but it is light.

4. Used for grazing sheep.

5. There is an old cabin on the Santa Ynez, about the center of tract. No improvements at reservoir site or work done; only survey. The Romero trail from Monticito or Santa Barbara strikes the Santa Ynez at junction of Blue Canyon.

TRACT E.

1. Topography:

(*a*) All mountainous.

(*b*) One-half of tract steep.

(*c*) Two hundred acres fairly level.

(*d*) One-third of tract rough.

(*e*) The Santa Ynez runs from east to west. Indian and Mono creeks empty into the Santa Ynez from the north.

About 1 mile up Mono Creek a camping place is located on what is known as Mono Flats, and about 1½ miles from there, up the little Caliente Canyon, is a hot spring and camping place. The main trail from Santa Barbara north to the Cuyama crosses this tract in the Mono and Indian canyons.

2. Soil:

(*a*) All shallow, from 2 inches to 2 feet deep.

(*b*) All of a sandy gravel nature.

(*c*) Stone the prevailing feature; close to surface where it doesn't crop out.

(*d*) No swampy land.

3. Character of the land:

(*a*) South of the Santa Ynez the live-oak timber stands quite thick well up the mountain slope. Along the Santa Ynez and in Mono and Indian canyons a good many live-oak trees are found.

(*b*) That part of the tract lying south of the Santa Ynez is well covered with brush outside the tracts covered with live oak. North of the Santa Ynez and east and west of the Mono, the brush is lighter, owing to fire.

(*c*) About 300 acres might be called bare land.

(*d*) There is feed on about one-half the tract.
4. Used for grazing goats and a few cattle and horses.
5. No improvements.

TRACT F.

1. Topography:
(*a*) All mountainous.
(*b*) All pretty steep and broken.
(*c*) Not any level, except small places where the Santa Ynez widens.
(*d*) All pretty rough. On the north side of tract there are some open places, but generally rough.
(*e*) The Santa Ynez crosses tract from east to west. Two of three small canyons from the south have some water; none from the north. There has been some mining done south of the Santa Ynez, cinnabar cropping out in places.
2. Soil:
(*a*) All shallow.
(*b*) All of sandy gravel nature.
(*c*) Stone close to surface all over.
(*d*) No swampy land.
3. Character of land:
(*a*) Along the Santa Ynez and south of same there is considerable live-oak timber extending well up mountain slope.
(*b*) The whole tract is thinly covered with brush.
(*c*) Small patches of bare land in the mountains and along the river.
(*d*) Feed on about one-tenth of tract that could be grazed.
4. Used for grazing goats.
5. No improvements.

TRACT G.

Same as last tract, except improvements.
5. At the quicksilver mine marked with red x on map attached, extensive improvements were made twenty-five or thirty years ago in the shape of reduction works, retorts, boiler and engine house, boarding houses, etc., all except boarding houses being built of stone, brick, and iron, necessitating a large outlay of money. The same have been abandoned of late years, owing, I understand, to the expense of production.

TRACT H.

1. Topography:
(*a*) All mountainous.
(*b*) All pretty steep.
(*c*) Not any level.
(*d*) One-third rough.
(*e*) Three canyons from the north, not on running streams.
2. Soil:
(*a*) All rather shallow.
(*b*) All of a sandy gravel nature.
(*c*) The stone does not show through quite as plain on this tract, but it is there.
(*d*) No swampy land
3. Character of land:
(*a*) Not any covered with timber.
(*b*) Twenty-one covered with light brush.

(*c*) One-fourth bare mountain land.
(*d*) One-half is fair grazing land.
4. Used for grazing goats, cattle, and horses.
5. A little cabin for goat herder on mountain top.

TRACT I.

1. Topography:
(*a*) About one-half of this tract is mountainous.
(*b*) Five hundred acres steep.
(*c*) About one-half of tract is fairly level and low foothills.
(*d*) One hundred acres rough.
(*e*) The Santa Ynez crosses from east to west and there is water in three or four of the canyons from the south.
2. Soil:
(*a*) A fair soil covers this tract, though not very deep.
(*b*) It is sand and adobe mixed.
(*c*) Three-fourths of tract is stony.
(*d*) A little swampy land along the river.
3. Character of land:
(*a*) About one-fourth of tract is fairly covered with live-oak timber.
(*b*) About one-half of tract has a good brush cover.
(*c*) Four hundred or 500 acres bare land.
(*d*) Nearly all grazing land.
4. Fifty acres have been cultivated; cattle, horses, and goats graze on tract.
5. Two board houses on land; one occupied by George Owen and family, the other empty; cost about $200 each.

GENERAL REPORT ON RANCHO AS A WHOLE.

1. Topography:
(*a*) As a whole it would be considered mountainous, it being part of the watershed of the Santa Ynez River.
(*b*) One-half steep.
(*c*) About 2,500 acres fairly level land.
(*d*) One-third of tract is rough.
(*e*) The Santa Ynez River. Its source is at east end of rancho, and it flows westerly the full length of rancho, about 25 miles.

The North Fork: Source in the San Rafael Mountains and it flows into the Santa Ynez; is about 3 miles in length.

The Najalayegua or Alder Creek: Source in the Santa Ynez Mountains; flows westerly into the Santa Ynez River; is about 3 miles in length.

The Big Caliente: Source in the San Rafael Mountains; flows southerly into the Santa Ynez River; about 5 miles in length.

The Blue River: Source in the Santa Ynez Mountains; flows northwesterly into the Santa Ynez; about 4 miles in length.

Mono and Indian rivers: Source in the San Rafael Mountains; flow southerly into the Santa Ynez; about 10 miles in length.

2. Soil:
(*a*) As a whole, the soil is shallow. In a few places along the river it reaches a fair depth, but there is no deep soil.
(*b*) Not much loam. Soil mostly of a sandy gravel nature, enriched in places by a mold of leaves and ashes. Some adobe in tract.

(*c*) All more or less stony, as rock is the prevailing feature, being either on top or close beneath surface.

(*d*) No swampy land, except possibly a few small places along the river early in the season.

3. Importance of the tract for forest uses:

(*a*) There is a fair stand of live-oak timber on about 2,000 acres, and live-oak trees are scattered along the Santa Ynez and in the main side canyons. Also some mountain maple, white oak, and sycamore, and a few fir and ash trees.

(*b*) Probably 40,000 acres of the rancho is covered with brush, and the benefit therefrom is shown in tracts B and C, where there is a heavy brush cover on the south side of the river and a good water flow from all the small canyons.

(*c*) About 5,000 acres is bare, counting river bottom.

(*d*) There is more or less feed on about 10,000 acres which could be grazed.

(*e*) Fifty acres have been cultivated, and probably 1,000 acres more could be.

4. Water flow:

(*a*) The Santa Ynez at Juncal dam site, about 40 miner's inches; at west line of rancho, about 150 miner's inches.

The Najalayagua Creek or Alder Creek flows about 10 miner's inches at junction with Santa Ynez. From a canyon west of the Najalayagua on south side of the Santa Ynez, about 10 miner's inches flows, and from another still farther west about 6 miner's inches flows. The mountains back of these canyons are densely covered with brush.

The Big Caliente, about 5 miner's inches.

The Blue River is dry at junction with the Santa Ynez, but there is water up the canyon.

About 50 miner's inches of water flows into the Santa Ynez from Mono and Indian canyons.

(*b*) Water not used for irrigation on the rancho.

(*c*) I do not consider that the water rights have any special value now. It will cost too much to get it where it can be used.

(*d*) Santa Barbara Water Company (a corporation), Jed L. Washburn.

(*e*) Not over $1,000 under present circumstances.

(*f*) No.

(*g*) My estimate on the Juncal reservoir site was 100 acres, and on the river site 200 acres. Mr. Poate, a civil engineer, figures it out from the water company's survey, and the overflow is, Juncal $70\frac{86}{100}$ acres; river, $195\frac{20}{100}$ acres.

Herewith attached you will find map of this rancho, subdivided into the tracts as used in this report.

Respectfully submitted.

WILLIS S. SLOSSON,
Forest Supervisor, Nordhoff, Cal.

JUNE 8, 1902.

EXHIBIT H.—ACTING COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, JULY 7, 1902.

JULY 7, 1902.

The SECRETARY OF THE INTERIOR.

SIR: By letter of April 4, 1902, I acknowledged the receipt, by reference from the department, for consideration and appropriate action, of a letter from Hon. Thomas R. Bard (United States Senate), presenting a petition by citizens of Santa Barbara County, Cal., by their agent, Mr. Jarrett T. Richards, to have the private land claim known as Rancho Los Prietos y Najalayegua included within the limits of a forest reservation; and I reported that Senator Bard had been advised that Forest Superintendent B. F. Allen had been called upon to make full report as to the character of the land proposed to be included within a reservation, and as to the advisability of such action, and that as soon as said report should be received the matter would be referred to you with my recommendation.

I now have the honor to advise you that full report upon the character of the lands within the said private land claim, prepared by Forest Supervisor Willis M. Slosson, after his thorough examination of said land, was transmitted to this office by Superintendent Allen on June 14, 1902. The said report, and all the other papers in the case, including a plat of said private land claim showing its location, topography, and area, are inclosed herewith.

Rancho Los Prietos y Najalayegua, embracing 48,729 acres, is situated between and adjoining the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve. The application for the inclusion of this tract within one or the other of the said forest reserves is made by Mr. Jarrett T. Richards, on behalf of the people of Santa Barbara County, Mr. Richards being authorized to so act by the representative bodies of the county—the board of supervisors and the chamber of commerce.

Appended to the said application for the inclusion of the rancho within a forest reserve is a joint offer of Jed L. Washburn and the Santa Barbara Water Company, as the owners of the rancho—

to convey the same to the United States free of all incumbrances in consideration of being granted the right to take lands of the government domain, not otherwise appropriated, of equal area, of the class of land valued by the Government for disposition under the homestead and timber and stone acts, at $2.50 per acre, and to select the same within one year from the time such right is so vested; reserving, however, to said water company the lands covering two dam sites which have already been surveyed for storage reservoirs aggregating not over 160 acres; provided said water company is secured the privilege of covering the necessary lands with water backed up in the reservoir sites by the dams, and the right of way for the aqueduct and for a road from each dam site to the boundary of the rancho.

Supervisor Slosson, in his report herewith, after specifically reporting upon each of the divisions of the rancho as divided by him for purposes of examination, concludes with a general report or summing up. Paragraph No. 3 of this résumé treats of the importance of the rancho for forest uses, and is as follows:

(*a*) There is a fair stand of live oak timber on about 2,000 acres, and live oak trees are scattered along the Santa Ynez and in the main side canyons; also some mountain maple, white oak, and sycamore, and a few fir and ash trees. (*b*) Probably 40,000 acres of the rancho is covered with brush, and the benefit therefrom is shown in Tracts B and C, where there is a heavy brush cover on the south side of the river and a good flow from all the small canyons. (*c*) About 5,000 acres is bare, counting river bottom.

These lands would be of very small use for forest purposes, and there would hardly be sufficient reason for their reservation for such purposes, even if the area were owned by the Government. The general benefits already insured by the reservation, extensive surrounding areas—the lands now within the Pine Mountain and Zaca Lake Forest Reserve and the Santa Ynez Forest Reserve—would not in my opinion be increased by the inclusion within reserve limits of the narrow strip comprising this rancho. The sources of practically all the streams flowing into and through the rancho are included in the two forest reserves mentioned.

It has been deemed advisable, as one of the basic principles of forest reservation, that towns and communities should be assisted by the reservation of lands for the protection of their water supply in all cases where the lands desired to be reserved are of such character and status as to warrant their reservation. In the present case, however, it appears not only that the character of the lands is such that no increased benefits would result from their inclusion within a reservation, but also that the status of the land with regard to ownership is such that under existing legislation their inclusion within a forest reserve may not properly be recommended. No portion of the area in question is owned by the Government.

After careful consideration of the matter I am of the opinion that there is no authority for an executive act including within a forest reserve only lands which are not owned by the Government. In this case it is proposed that, by executive proclamation, the boundaries of one or the other of the above-mentioned reserves shall be extended to take in these lands which, as indicated, constitute a continuous area containing no public lands.

Public forest reserves are created under the authority contained in section 24 of the act of March 3, 1891 (26 Stat., 1095), which provides—

> That the President of the United States may, from time to time, set apart and reserve, in any State or Territory having public land-bearing forests, in any part of the public lands wholly or in part covered with timber or undergrowth, whether of commercial value or not, as public reservations; and the President shall, by public proclamation, declare the establishment of such reservations and the limits thereof.

Provision is made in the act of June 4, 1897 (30 Stat., 34–36), relating to forest reserves created under the act of March 3, 1891, authorizing the President—

> to invoke, modify, or suspend any and all executive orders and proclamations, or any part thereof, from time to time, as he shall deem best for the public interests.

While it is clear that the above-mentioned legislation authorizes the reservation by the Executive, for the purposes named, of "any part of the public lands" of the character designated, it is as clear that the Government, excepting in cases requiring the exercise of its eminent domain, can no more reserve or set aside, for its own use, lands which it does not own, than can one individual reserve or set aside for his own use lands owned by another.

It is true that in the establishment of reservations of public lands under the said act of March 3, 1891, many instances have arisen in which the reservation boundaries have necessarily been so drawn as to embrace some lands not owned by the Government, but such lands, while within the limits of the reservations, constitute no part thereof, the proclamation in itself in no way affecting either the title to said lands or the possessory rights of the owners or claimants with regard thereto.

This inclusion within forest reserves of lands not owned by the Government, which, as stated, was found practically unavoidable in some instances, so decreased the value and desirability of such lands that owners and claimants whose lands were so affected demanded relief; and it was this demand that gave rise to the exchange provision of the act of June 4, 1897 (30 Stat., 36), allowing the owner or claimant of lands "within a forest reservation" to exchange such lands for public lands "outside of the reservation." This provision, however, is purely remedial, and was not intended to prepare the way for the unlimited inclusion within forest reservation boundaries of lands not owned by the Government. On the other hand, the causes which led to the enactment of the law just referred to was, in part, indicative of the inadvisability of the inclusion within forest reservation of any public lands.

Reasonably construing the existing legislation in the matter, it seems clear that in the establishment of forest reserve boundaries the inclusion therein of lands not owned by the Government, excepting in cases where such inclusion is practically unavoidable in order to include the desired public lands, is neither authorized nor contemplated.

Proposal that the rancho be included within a forest reserve could be favorably considered by the Government only upon the assumption that the existing legislation constitutes a means whereby the Government may purchase areas containing no public lands, with a view to reserving such areas for forest purposes when title thereto is obtained under the purchase. The inclusion within a forest reserve of this area of 48,729 acres, as proposed, with the resultant exchanges or lieu selections which the owners of the lands stand ready to make would amount, in effect, to the purchase by the Government of the lands in question, the price to be paid by the Government being an equal quantity of double minimum public lands, valuable for settlement, to be selected wherever the selector might desire.

For the reasons hereinbefore set forth, I respectfully submit that the inclusion of the rancho within a forest reserve in accordance with the said proposition which has been presented to the department may not properly be recommended.

Very respectfully,

W. A. RICHARDS, *Acting Commissioner.*

EXHIBIT 1.—SENATOR THOMAS R. BARD TO THE DIRECTOR OF THE GEOLOGICAL SURVEY, AUGUST 12, 1902.

HUENEME, CAL., *August 12, 1902.*

Hon. CHARLES D. WALCOTT,
Director, United States Geological Survey,
Washington, D. C.

SIR: Understanding that the Secretary of the Interior has referred to you the adverse report of the Commissioner of the General Land Office in respect to the petition of citizens of Santa Barbara County, Cal., to have the Rancho los Prietos y Najalayegua included within the limits of the Santa Ynez or the Pine Mountain and Zaca Lake Forest Reserve, I ask the privilege of laying before you for consideration the following information and suggestions:

I have recently met Mr. Willis M. Slosson, forest supervisor, who made a thorough examination of the lands and report thereon, show-

ing the location, topography, and area. His report was limited by his instructions to these points, and it did not attempt to fix valuations for the land or to express any opinion as to the desirability of including them in a forest reserve. He is an intelligent and practical man, and in my estimation one of the most devoted men in the forestry work in California. I learned from my conversation with him that, while he has not considered the question as to the actual value of the lands in question, he would, if asked to give his opinion as to the desirability of having them included in the reserve, say that their inclusion is actually necessary for carrying out the purposes of the reservation.

I desire also to state that the people residing in the Lompoc Valley have for over twenty years attempted to farm that splendid body of lands, estimated at about 7,500 acres, without irrigation, and with most unsatisfactory results, until about four years ago when a project for utilizing the waters of the Santa Ynez River for the irrigation of a few hundred acres was put into operation and resulted in multiplying the net ordinary returns of the soil several times. This object lesson led the people with one accord to recognize the great advantage of irrigation, and they have united to secure an irrigating system which will utilize all the available water in the river. There is no other source of supply. They are of the opinion that their valley, which is composed of very rich alluvial soil, will become when put under irrigation one of the most fruitful and prosperous valleys in the world, but that without it it will remain a most indifferent place. They realize that it is of the greatest importance to them that the source of their water supply should be protected and that all of the rainfall should be conserved. Their engineers are doubtful as to the practicability of impounding the flood water, owing to the topography and character of the soil where it would be possible to construct a reservoir, and therefore, as they must depend upon the natural flow of the water, it is important that the natural reservoirs should be protected. Much of the watershed of the river is included within the Rancho Najalayegua, and it matters very much whether the rainfall during the winter months is held back and allowed under natural conditions to supply the river throughout the year or whether it be permitted to rush down and form ungovernable torrents for a short time and leave no reserve for the rest of the year. They know that the protection and encouragement of the timber and undergrowth on the rancho will conserve their water supply, and that the destruction of the cover will certainly deprive them of water eventually. They expect to expend $150,000 in the construction of their irrigating plant, provided their petition is favorably acted upon.

I note that the honorable acting commissioner, in his report, questions the power of the department to take action petitioned for, but the department gave Hon. Jarrett T. Richards, the representative of the board of supervisors and of the chamber of commerce of Santa Barbara, informally to understand in the beginning that an act of Congress was not necessary and that the department had power to act. The honorable Commissioner of the General Land Office, by his letter of June 11, 1902, and his supplemental letter of June 27, 1902, to the Secretary of the Interior, reported adversely to the petition on the ground that no offer had been made by the owners. Mr. Richards then obtained an offer from the owners to surrender the

rancho in exchange for public land of double-minimum class, acre for acre, and on March 6, 1902, on behalf of the people, he renewed the application, with offer of owners of the rancho attached.

Upon this latter application, the examination of the property was had by the honorable commissioner, and there seemed to be no question at that time as to the power of the executive department to act, and the impression was given that the only thing needed for the department to act was an agreement with the owners to accept public land of equal value in exchange. It would seem that the commissioner acted upon the theory that the Executive had power to take private lands in exchange for grant of public lands of equal value, as there would in reality be no diminution of the area or in the value of the public domain, and that after the Government has so acquired the new territory it could under the law and by executive order include the granted land in the forest reserve. In view of the circumstances that, after the opinion of the acting commissioner had been given that under existing legislation there is no authority for an executive act to include only private lands in a forest reserve, the honorable Secretary of the Interior has referred the matter to the Director of the Geological Survey, it is inferred that he desires to be informed particularly as to the advantages and necessity of including the rancho lands in the reserve, and that he finds in the opinion of the assistant commissioner no insuperable difficulty. The order for examination of the character of the lands in question implied that the honorable commissioner considered the basis of the proposed exchange as probably fair, but that before accepting the offer it was necessary to protect the interests of the Government by appraising the land in order that there should be given only value for value.

Now, if the report of the examiner has failed to impress the officers of the department with the fairness of the offer, the people who are so vitally interested in the conservation of the waters are not without hope that the owners of the rancho will yet make concessions satisfactory to the Interior Department, or that they themselves, being so informed, may be able through their negotiations with the owners to induce them to make all needed concessions and to adjust the difference between their views and those of the department; and they are very anxious that before the matter shall be finally disposed of by the honorable Secretary of the Interior an investigation may be made, under direction of the Government, with the view of determining as to the importance and necessity of including the lands of the rancho in a forest reserve, or else that they may be given an opportunity to submit testimony of recognized experts on this branch of the subject.

By an inadvertence, for which I am myself alone responsible, a letter, almost identical with this, was addressed to Hon. Gifford Pinchot, Chief, Bureau of Forestry in the Agricultural Department, instead of to yourself, and it was preceded by a telegram of the same tenor also addressed to Mr. Pinchot. The blunder is inexcusable, but I hope it may be corrected in time for your consideration of this appeal in behalf of the petitioners, who I am sure are sincerely convinced that the decision of the Secretary of the Interior in the matter is of vital consequence to them.

Yours,

THOMAS R. BARD,
United States Senator.

EXHIBIT J.—WILLIS M. SLOSSON, FOREST SUPERVISOR, TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, AUGUST 30, 1902.

NORDHOFF, CAL., *August 30, 1902.*

Hon. COMMISSIONER GENERAL LAND OFFICE,
Washington, D. C.

SIR: In reply to the honorable commissioner's letter "R"—M. J. McV. of August 14, 1902—requesting recommendation relative to adding the Rancho Los Prietos y Najalayegua to either the Pine Mountain and Zaca Lake or the Santa Ynez forest reserves, I would state that I did not make a recommendation with the report for the reason that I did not understand that it was desired; but now that it is requested I would recommend that the lands of the Rancho Los Prietos Najalayegua be added to either the Pine Mountain and Zaca Lake or the Santa Ynez Forest Reserve, for the following reasons:

The Rancho los Prietos y Najalayegua is a strip of land from 2 to 6 miles wide between the Pine Mountain and Zaca Lake Forest Reserve on the north, and the Santa Ynez Forest Reserve on the south; from the San Marcos Rancho on the west to the Ventura and Santa Barbara County land on the east, and is a menace to the successful and economical administration of said reserves.

This rancho is used for grazing goats and sheep, there being a band of 900 goats and a band of 1,500 sheep on the rancho when I made the examination, and the herders stated to me that there would be feed and browsing enough to last until September, and as the rancho is not subject to the forest-reserve regulations this grazing makes a boundary line of about 60 miles that has to be watched by the rangers to avoid trespass of said bands of sheep and goats.

The rancho is the mountain portion of the watershed of the Santa Ynez River, and its addition to the reserves would not add to the expense of the administration thereof, as the rangers necessarily have to cover this territory now in making their patrol of the north slope of the Santa Ynez Reserve and the south slope of the Pine Mountain and Zaca Lake Reserve, also three of the main trails to the Pine Mountain and Zaca Lake Reserve cross this rancho from north to south, and are used by the rangers. Therefore I think it a necessary addition.

Respectfully submitted.

WILLIS M. SLOSSON,
Forest Supervisor.

EXHIBIT K.—B. F. ALLEN, FOREST SUPERINTENDENT TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, SEPTEMBER 13, 1902.

LOS ANGELES, CAL., *September 13, 1902.*

Hon. COMMISSIONER GENERAL LAND OFFICE,
Washington, D. C.

SIR: In compliance with instructions contained in your letter "R"—M. J. McV., dated August 14, 1902, in which you say "It is desired that you advise this office, at the earliest possible date, of your opinion and that of Supervisor Slosson as to the advisability of including the rancho within a forest reservation, making specific recommendation and giving your reasons therefor."

I have the honor to report that I am personally acquainted with the location of the Rancho los Prietos y Najalayegua, situated as it is between the Santa Ynez and Pine Mountain and Zaca Lake reserves,

which separates these two reserves, making it necessary to cross over said rancho in order to get from one reserve to the other, and as stated in the report of Supervisor Slosson "is a menace to the successful and economical administration of said reserves."

The owners of said rancho have been leasing the same to sheep and goat men for pasturage. In order to get to the land they have had to drive the sheep and goats over the Santa Ynez reserve, giving the supervisor and rangers considerable trouble with crossing and making it necessary to keep constant watch to keep the sheep and goats from grazing on the reserves that surround said rancho. It is also dangerous on account of fire, making it necessary to patrol all its boundaries, as a fire started on said rancho would very soon reach one or the other of the reserves which surround it.

In consideration of the location of said Rancho los Prietos Najalayegua, lying as it does between the Santa Ynez and Pine Mountain and Zaca Lake reserves, and being a long, irregular, and narrow strip of land, almost surrounded by the two reserves, my opinion is that it would be advisable to include the rancho within the forest reserves.

I herewith inclose a report from Supervisor Slosson, given in response to your letter "R" of August 14, 1902. I fully indorse what Mr. Slosson says relative to including the Rancho los Prietos Najalayegua within the forest reserves.

Very respectfully,

B. F. ALLEN,
Forest Superintendent.

EXHIBIT L.—COMMISSIONER OF THE WATERWORKS DEPARTMENT OF SANTA BARBARA, CAL., TO SENATOR THOMAS R. BARD, SEPTEMBER 15, 1902.

SANTA BARBARA, CAL., *September 15, 1902.*

Hon. THOMAS R. BARD,
Hueneme, Cal.

SIR: The value of water in the State of California is greater than in any other State in the Union. In Santa Barbara and vicinity its value is greater than at any other point in California.

In the city of Santa Barbara an inch of water (a flow of 9 gallons per minute) will earn 5 per cent interest on a value of $6,000. In the adjacent valleys an inch will sell for irrigation purposes alone at $2,000. Yet at these valuations the supply does not approach the demand.

The town of Santa Barbara has 10,000 people requiring water. The adjacent valleys, Carpinteria, Montecito, and Goleta, have 15,000 acres of land needing irrigation. Together they occupy the narrow strip of coast lying between the ocean and the Santa Ynez Range of mountains. This range rises to a height sufficient to direct the drainage of the extensive watershed immediately north into the Pacific Ocean, 65 miles west. To correct this unkindness in nature, the city of Santa Barbara has undertaken to drive a tunnel a distance of 4 miles through the range in order to divert a portion of the drainage at a point where 300 square miles of watershed contribute to it.

The magnitude of the task undertaken, stupendous though it seems, is not the chief obstacle encountered in the endeavor to secure, a water supply.

The lands to which the tunnel will emerge in the Santa Ynez Valley are held in private ownership and are subject to the monopoly, and

from a water concerning standpoint, to the misuse and wreck incident to it. These private lands comprising the Rancho los Prietos y Najalayegua—some 50,000 acres—and occupy the heart of the drainage basin of the forest reserves by which they are surrounded. These reserves, established for the express purpose of conserving the water for public use, can not deliver them to that portion of the intended beneficiaries residing on the south side of the range until they have passed through this private domain and paid tribute to its owners whose consent must first be secured.

This statement of the existing conditions and the extensive work undertaken to remedy them I trust will make evident the wish, or, more incisively stating it, the anxiety of the people of Santa Barbara and vicinity that, in order to free them from private obstruction and insure the protection, extension, and deepening of the forest cover, by means of which the waters are conserved, these private lands, upon which they must forever depend for water, be acquired by the Government and included in its reserves.

Very respectfully, yours,

E. S. SHEFFIELD, *Commissioner.*

EXHIBIT M.—COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, SEPTEMBER 23, 1902.

SEPTEMBER 23, 1902.

The SECRETARY OF THE INTERIOR.

SIR: Referring to office letter of July 7, 1902, inclosing papers and making report in the matter of Rancho los Prietos Najalayegua within the limits of either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, in California, I now have the honor to transmit further reports in the matter, containing definite recommendations, with reasons therefor, by Forest Superintendent B. F. Allen and Forest Supervisor Willis M. Slosson, favorable to the proposed inclusion of the rancho within one of the said reserves.

The original report by Supervisor Slosson, transmitted to the department on July 7, 1902, while fully describing the lands within the rancho, contained no definite recommendation regarding the proposed inclusion of the rancho within one of the said reserves, and the supplemental reports herewith were called for by this office on July 14, 1902, upon the oral request of the Geological Survey, made through Hon. Thomas R. Bard's private secretary, the matter having been referred by the department to the Geological Survey for consideration.

It will be noted that the supplemental reports herewith, favoring the inclusion of the rancho in one of the said reserves, is based entirely upon the argument that such action would render the administration of both said reserves more successful and economical by lessening the distance of reserve boundaries now necessary to be patrolled and by eliminating danger to the reserve now liable to result from fires and from the grazing of stock which is permitted upon the rancho by its owners.

While it is true, in a sense, that the inclusion of the rancho would probably result in some advantage in facilitating the administration

of the reserves for the reasons stated in the said supplementary reports, the question as to what effect the proposed action would have upon the reserves to be affected thereby has not been an elemental consideration with the department in the matter of making additions to or eliminations from forest reserves. Instead, such action has in each case been governed by the actual character of the land proposed to be added to or taken from the reserve.

For instance, in the case of the recent extensive elimination of lands from the White River Forest Reserve said elimination has added very largely to the distance of the boundaries of said reserve and has increased the difficulties in its administration; but this fact constituted no important consideration in the matter, for the reason that the lands eliminated were of such a character that they should not be retained within the reserve limits, being in this instance more valuable for agricultural than for forestry purposes.

In the case of the rancho it appears clearly that the lands are of little or no value in themselves for forestry purposes.

I do not concur in the recommendation favoring the inclusion of the rancho within a reserve. Said office letter of July 7, 1902, fully discusses the reasons why the proposed inclusion of the rancho, regardless of its situation or character, may not, in the opinion of this office, be recommended, such reasons being that no part of the tract is owned by the Government, and the proposition made by the owners of the rancho contemplates the attempt to make the exchange provision of the act of June 4, 1897 (30 Stat., 36), serve as a means whereby the Government shall, in effect, purchase the rancho from its owners with a view to reserving it thereafter for forestry purposes.

Very respectfully,

BINGER HERMANN, *Commissioner.*

EXHIBIT N.—JARRETT T. RICHARDS TO THE SECRETARY OF THE INTERIOR, OCTOBER 4, 1902.

SANTA BARBARA, CAL., *October 4, 1902.*

The SECRETARY OF THE INTERIOR.

SIR: Representing the citizens of Santa Barbara County, Cal., in the matter of the application, through their representative bodies, to have included within one or the other of the forest reserves in the county of Santa Barbara the Rancho los Prietos y Najalayegua, I beg to respectfully except to the report in this matter of Acting Commissioner of the General Land Office, W. A. Richards, to the honorable Secretary of the Interior, bearing date the 7th day of July, 1902, wherein the opinion is advanced that there is no authority for an executive act enlarging the boundaries of one of these reserves so as to embrace this territory held in private ownership under United States patent.

The acting commissioner in drawing his conclusions as to such want of authority is evidently influenced by his opinion previously referred to, that it is not a needed utility, which opinion is based alone upon the first report of Forest Supervisor Slosson, who examined the territory sought to be included, as to its naked physical features; Mr. Slosson made no reference to the practical effect the protection by forest reserve rules and regulations in the preserving of the timber and undergrowth upon the rancho would have in the conserving of

the flow of water in the Santa Ynez River, and the necessity of this stream to supply, with a sufficiency of water, a large area of fertile land and a numerous and ever-increasing population, and his report did not display directly the incompleteness of the existing reserves, with this separating wedge between them, and the menace of this foreign territory to their beneficial operation.

The acting commissioner seems to have viewed this petition of a community seeking the aid of the Government in its humanitarian and economic policy of conserving by guarded preserves and making of universal use in arid regions the limited sources of water supply, to protect, by perfecting the reserves, the stream, the most important in this county, so far as fertile lands and population are affected, as an attempt to create a new and isolated reservation out of land held in private ownership whose waters are already perfected by forest reserves.

The actual information now before this department and the further examinations made and facts ascertained since the making of this report, I feel, will justify the consideration of this question from a broader standpoint.

The Pine Mountain and Zaca Lake and the Santa Ynez forest reserves embrace a very extensive area, particularly of land which was vested in the United States Government at the time of their creation; but within its boundaries are many tracts of land held in private ownership under United States and state patents. To make perfect these reserves the Rancho los Prietos y Najalayegua should have been and could now be included within the boundaries with the same legal effect, and we believe with the same propriety, as other patented lands were taken in. One of the particular purposes of the establishment of forest reserves is "of securing favorable conditions of water flow" (act of June 4, 1897, 30 Stat., 34–36), or, as stated in Compiled Laws, etc., relating to creation and administration of public forest reserves, issued from the General Land Office September 6, 1900, page 15, "insuring conditions favorable to continuous water flow." And, using the language of the acting commissioner in his report, "it has been deemed advisable, as one of the basic principles of forest reservation, that towns and communities should be assisted by the reservation of land for the protection of their water supply."

Had this rancho been included within one or the other of these two forest reserves and subjected to their laws, this main purpose of their establishment would have been fully carried out in the county of Santa Barbara and the continuous flow of its streams insured. As these reserves now stand they afford protection (not perfect, as this rancho is a constant menace and obstruction) to the water courses other than the Santa Ynez River, and yet this latter stream is a great factor in the growth and development of the community and holds dependent upon it a larger area of land protected through irrigation and is essential to the needs of a more numerous population than any of the others, and its integrity depends absolutely upon the conservation of the timber and undergrowth upon the Rancho los Prietos y Najalayegua.

If this statement of facts be true, and I feel that the information now in the possession of the department will verify it, the perfecting of this reservation consisting of the two forest reserves referred to, by including this tract of land, will be directly within the purpose and

policy of the Government in establishing these great public safeguards and utilities, and falling within this policy and purpose, there is no legal or moral impediment to the reestablishment of the boundaries of one of these reserves so as to include this property.

This rancho, as has been said, is held under United States patent. Had the boundaries of one of the reserves been such as to embrace it, it would have set in the same position as other patented land within them, and would have been exchangeable for vacant lands of the United States outside of the reserves.

In cases in which a tract covered by unperfected bona fide claim or by a patent is included within the limits of a public forest reservation, the settler or owner thereof may, if he desires to do so, relinquish the tract to the Government, and may select in lieu thereof a tract of vacant land open to settlement, not exceeding in area the tract covered by his claim or patent. (Circular, Department of the Interior, Dec. 18, 1899—Com. Laws of Forest Reservation, Nov. 6, 1900, p. 24.)

The law does not require that the title perfected by patent, to invoke the right, must have been initiated under the settlement laws of the United States. After patent evidence complete private ownership, independent of any interest or estate vested in the United States, whatever may have been the foundation of title, the right of relinquishment and selection of lieu land exists. (Ib.)

The words "tract covered * * * by a patent," as used in said act (June 4, 1897), embrace and include a tract to which the full legal title has passed out of the Government and beyond the control of the Land Department by any means which is the full legal equivalent to a patent. (F. A. Hyde et al.; 28 L. D., 284, ib., p. 27.)

The right of relinquishment under said act is not limited to claims initiated or title acquired under laws that require personal settlement and residence on the land, but includes any tract * * * to which the full legal title has passed out of the Government and beyond the control of the Land Department, by any means which is the full legal equivalent to a patent. (Instructions, 28 L. D., ib., p. 28.)

Land acquired under a grant made to a State or railroad company by act of Congress, is a proper basis for lieu locations under said act, provided that the full legal title thereto has passed out of the Government and beyond the control of the Land Department by patent, or some means the full equivalent thereof. (Instructions, 28 L. D., 328, ib.)

The grant of the lands constituting the Rancho los Prietos y Najalayegua, as shown by the United States patent on file in the Department of the Interior with the papers in this matter, was confirmed by act of Congress, and thereafter patent issued to the grantor and predecessor of the present owners, by which all claim and interest of the United States passed out of the Government to the grantee under private ownership.

The act of June 4, 1897, with respect to lieu-land selection, was extended to provide for extinguishing private title to such lands only as would be a part of an established forest reservation if it were not for their private ownership. (Santa Fe Ry. Co., 29 L. D., 597, ib.)

It will be seen that the main and really only thing to be assured so as to invoke and entitle to recognition the right of relinquishment and lieu selection, is that the land is actually held in private ownership with title equivalent to what a patent would confer or evidence, in which the United States has no interest, and this whatever may be foundation of title, initiative settlement, United States, state, or Mexican grant.

The law, as construed by the department, thus recognizes the bar to include, by executive act, in forest reserves patented lands held in private ownership, and also permits by relinquishment, selection, and exchange for vacant lands of the United States, the acquiring by the Government of such private property, so as to make it a constituent part of its forest reservation.

As before stated, it is not required and it is not asked that the Rancho los Prietos y Najalayegua be established as an independent forest reserve; but what is requested is that the boundaries of one of the present forest reserves be extended so as to include and the powers of the department used to acquire this property in order that the flow of the important stream, the Santa Ynez River, be protected, that the system of forest reservation established in this part of southern California be perfected, and that this tract of land, held in private ownership, cease to be a menace to its effectiveness.

In addition to the general authority to establish forest reserves given to the President by act of March 3, 1891, the act of Congress of June 4, 1897, provides:

> The President is hereby authorized at any time to modify any executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary lines of such reserve, or may vacate altogether any order creating such reserve.

Under this act ample authority is conferred to do what is petitioned for, by executive action.

I beg to cite as a precedent an instance of a much more complicated nature than characterizes the present matter, where the powers of the department and the Executive were recognized in their action as broad and flexible in the promotion of the beneficial purposes of forest reservation, the change of the boundaries of the San Francisco Mountains Forest Reserve, in Arizona, so as to include large areas of land held in private ownership. (See proclamation of the President, April 12, 1902.)

In the proclamation referred to the President recites as the foundation of his authority the act of March 3, 1891, by which the general authority to establish forest reserves is conferred, and the provision of the act of June 4, 1897, quoted above, under which the boundaries of existing reserves may be changed.

Respectfully submitted.

JARRETT T. RICHARDS.

EXHIBIT O.—THE ACTING DIRECTOR OF THE GEOLOGICAL SURVEY TO THE SECRETARY OF THE INTERIOR, OCTOBER 13, 1902.

OCTOBER 13, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have before me the papers relating to the proposed addition to the Santa Ynez or the Pine Mountain and Zaca Lake Forest Reserve of a tract of land lying between them and including the headwaters of the Santa Ynez River, known as the Rancho los Prietos y Najalayegua, petitioned for by the people of Santa Barbara, through Mr. Jarrett T. Richards as their attorney.

The proposition involves the exchange of these lands, amounting to some 48,000 acres, and this I understand has been arranged on terms satisfactory to the department. The tract has been examined by Mr. Willis M. Slosson of the General Land Office, and a thorough report made upon it.

During the past summer Mr. Henry Gannett, geographer of this office, visited Santa Barbara in order to acquaint himself with the local conditions and the needs of the case. He made no examina-

tion of the tract in question as it had been thoroughly examined by Mr. Slosson.

The reservation of this tract, which includes the headwaters of the Santa Ynez River, is needed by the people of Santa Barbara for the protection of their prospective water supply. At present, water for the use of that city, as well as for the irrigation of the neighboring country, is derived from the short streams and springs upon the south slope of the Santa Ynez Range. This is entirely insufficient in quantity, the supply for the city being inadequate at present, and as the city is growing rapidly it will become constantly less and less adequate for its requirements. Foreseeing this, the city has commenced a tunnel through the Santa Ynez Mountains, which is now in some 4,700 feet, and which will be approximately 4 miles in length when completed, for the purpose of tapping the Santa Ynez River, and bringing its waters into the city and the country immediately surrounding it. This tunnel, with the reservoirs contemplated in the basin of the Santa Ynez, will entail a heavy expense for the people of Santa Barbara, but apparently an inevitable one. It seems to me that the city should be aided in every proper way by the Government, and certainly the inclusion of this region within the reserve, with the accompanying prohibition of grazing within its areas, might be effected.

I can not agree with the Acting Commissioner of the General Land Office in his agrument that the department has no authority for making the proposed exchange of lands. Similar exchanges were made upon a large scale recently in the case of the San Francisco Mountain Forest Reserve, by which most of the railroad sections were exchanged for other lands and added to the reserve.

I recommend that the exchange be effected and that the lands be added to one or the other of the two reserves.

I herewith return the following papers connected with the case:

Map and report of Willis M. Slosson, Nordhoff, Cal., under date of June 8, 1902; letter of W. A. Richards, acting commissioner, to the Secretary of the Interior, July 7, 1902; letters of B. F. Allen, Thomas R. Bard, Jarrett T. Richards, and petition of the Santa Barbara Water Company, signed by Mr. Jed. L. Washburn, R. B. Canfield, and H. C. Thompson; letter of E. S. Sheffield, of Santa Barbara, to Hon. Thomas R. Bard; letter of Thomas R. Bard to the Director of the United States Geological Survey; letter of R. Woodland Gates, addressed to the Director of the Survey; letter of the Commissioner of the General Land Office, addressed to the Secretary of the Interior; and letter of Willis M. Slosson to the commissioner.

Very respectfully,

H. C. Rizer, *Acting Director.*

EXHIBIT P.—THE ACTING DIRECTOR OF THE GEOLOGICAL SURVEY TO THE SECRETARY OF THE INTERIOR, OCTOBER 16, 1902.

Washington, D. C., *October 16, 1902.*

The Secretary of the Interior.

Sir: I have the honor to acknowledge the receipt, by reference from your office, of a letter from Mr. Jarrett T. Richards concerning the Rancho los Prietos y Najalayegua, forwarded by Hon. Thomas R. Bard, United States Senate.

As stated substantially to you in my letter of October 13, I am quite in accord with Mr. Richards in the position he takes concerning this matter.

The letter of Mr. Richards is herewith returned.

Very respectfully,

H. C. RIZER, *Acting Director.*

EXHIBIT Q.—THE COMMISSIONER OF THE GENERAL LAND OFFICE TO THE SECRETARY OF THE INTERIOR, NOVEMBER 10, 1902.

NOVEMBER 10, 1902.

The SECRETARY OF THE INTERIOR.

SIR: I have the honor to acknowledge receipt, by reference from the department, for consideration, report, and recommendation, of a letter dated October 13, 1902, from the Acting Director of the Geological Survey, returning papers and making favorable report and recommendation upon the proposition to include within either the Pine Mountain and Zaca Lake Forest Reserve or the Santa Ynez Forest Reserve, in California, the private land claim known as Rancho los Prietos y Najalayegua, containing 48,000 acres and lying between and adjoining the said forest reserves, in Santa Barbara County.

The acting director states that during the past summer Mr. Henry Gannett, geographer of the Geological Survey, visited Santa Barbara in order to acquaint himself with the local conditions and needs in regard to this case, but that he made no examination of the tract in question, as same had been thoroughly examined by Forest Supervisor Willis M. Slosson of this office.

It is also stated that the water supply of the city of Santa Barbara and vicinity is insufficient in quantity; that certain improvements are being made to increase this water supply; and that the inclusion within a forest reserve of the lands forming part of the drainage basin supplying the water would be of material assistance to the town by protecting the lands against grazing.

The acting director is of the opinion that the Government should assist the community in the manner proposed by the owners of the rancho, and does not agree with the argument contained in the acting commissioner's letter to the department, dated July 7, 1902, concurred in by me in my letter to the department dated September 23, 1902, that under existing legislation the proposed action may not be properly recommended. The acting director refers to the recent consolidation of the San Francisco Mountains Forest Reserves into one reserve as a precedent for the action proposed to be taken regarding the rancho.

Accordingly the acting director recommends that the rancho be included within a reserve and that the exchange be effected as proposed.

Aside from the statements relating to the improvements being made by the people of Santa Barbara to increase their water supply, the said report appears to furnish no further information regarding the circumstances of the case, for, as stated therein, the lands in question were not examined by Mr. Gannett. Neither does the report furnish any further light upon the question of the legality of the proposed action, for the case of the San Francisco Mountains Forest Reserve, the action in which is cited by the acting director as a precedent for the proposed inclusion of the rancho within a reserve, is

readily distinguishable from the case at bar. The department will recognize the distinguishing features in the two cases.

The consolidation of the San Francisco Mountains Forest Reserves into one reserve comes clearly and directly within the principle that the inclusion within a forest reserve of scattered tracts not owned by the Government, with the expectation that they will be relinquished, is justified where such inclusion is practically unavoidable in order to include the desired public lands and render efficient the administration of the reserve.

The small tracts, not exceeding one section each, of adversely owned lands brought "within the limits of a public forest reserve" by such consolidation were evenly intermixed with the government lands throughout all the townships named in the original proclamation establishing the San Francisco Mountains Forest Reserves, and it had become clear in the course of administration of the San Francisco Mountains Forest Reserve that the purpose had in view in reserving lands within the region could not be successfully accomplished while small tracts of land scattered throughout the entire general area remained under adverse ownership.

In making the consolidation there were included no lands outside the ulterior boundaries embracing the sections constituting the San Francisco Mountains Forest Reserves.

The circumstances regarding the rancho, however, are so entirely different that its inclusion within one of the adjoining reserves clearly would not be justified under the principle above mentioned, the rancho being an extensive solid tract of adversely owned lands entirely extraneous from the reserved area to which it is proposed to be added. An executive act extending the boundaries of a forest reserve to include such an area would be, in my opinion, not only anomalous but entirely outside the authority given under the act of March 3, 1891 (26 Stat., 1095), to reserve "any part of the public lands."

Before the rancho proposition came to the attention of this office a proposition on all fours therewith was presented to me by parties in Oregon who desired me to recommend to the department the inclusion with the Cascade Range Forest Reserve of a solid area of adversely owned lands. On precisely the same grounds as mentioned by the acting commissioner in his said letter of July 7, 1902, in the rancho case, I declined to make the recommendation requested in the Oregon case.

I see no reasons for departing from the conclusions already expressed by this office upon the question.

The acting director states that it is his understanding that the exchange has been arranged on terms satisfactory to the department. I am not aware that the department has yet expressed itself in the matter.

Laying aside the question of the legality of the proposed action, the value placed upon the rancho by its owners is plainly exorbitant. As shown by the report of Supervisor Slosson, it is simply a barren waste of no value excepting for grazing, and of little value for that. The proposition made by the owners of this 48,000 acres of waste lands contemplates the unrestricted selection in lieu thereof of the highest grade of lands now owned by the Government.

The original report by Supervisor Slosson made no recommendation in the matter whatever, and the supplemental report by the forest officers recommended the inclusion of the rancho on no other ground than that such action would render easier the administration of the adjoining reserves. No claim is made by the forest officers that the rancho is, in itself, of any value to the Government for forest reserve purposes.

If the protection of this 48,000 acres of desert land be as necessary to the town and district as it is alleged to be it would seem entirely practicable for the community to purchase the rancho and donate same to the Government, in which case I see no reason why the Government should not include the lands within one of the forest reserves named. It is believed that the rancho could be purchased outright for probably less than 10 per cent of the price contemplated to be paid by the Government under the proposition as presented.

For the reasons heretofore and herein set out I again respectfully submit that the inclusion of the rancho within forest reserve boundaries in accordance with the proposition which has been presented to the department may not be properly recommended.

The papers in the matter are herewith returned, as directed.

Very respectfully,

BINGER HERMANN, *Commissioner.*

EXHIBIT R.—PETITION OF THE MAYOR AND OTHERS OF SANTA BARBARA, CAL., TO THE SECRETARY OF THE INTERIOR, NOVEMBER 12, 1902.

SANTA BARBARA, CAL., *November 12, 1902.*

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: Owing to the grave importance to the people of our county, which is increasing in population with great rapidity, in having the waters of the Santa Ynez River protected and preserved and obstructions to their use for public purposes removed by bringing under forest reservation control and administration the territory embracing the sources and great volume of this stream, we have taken the liberty to telegraph you to-day as follows:

> We, as representatives of the people of Santa Barbara County, respectfully urge the inclusion of the Rancho los Prietos y Najalayegua in the Santa Ynez, or Pine Mountain and Zaca Lake Forest Reserve. Fully two-thirds of the inhabitants of Santa Barbara County will ultimately be dependent upon waters derived from the streams flowing through said rancho, and government ownership and protection through forest reservation are absolutely necessary.

Precedent, as shown in brief of Jarrett T. Richards, our representative, filed in this matter with the Department of the Interior, establishes beyond question the authority to include by executive order in one of the present forest reserves this property held in private ownership, and the only question apparently remaining to be considered by the department is, "Do the public interests regarded in the light of the declared policy of the Government as to forest reservation protection and utility, demand the action prayed for?" The department has caused this question to be investigated upon the ground, through the United States Geological Survey, and one of the resident supervisors of the adjacent forest reserves and their

reports, we understand, display what we have endeavored to show by means of written data of record, that the inclusion within the reserves of this tract of land is essential to the integrity and perfection of the existing reserves, and is a necessity to assure to the people of our city and the population of large farming and garden districts of a needed water supply, and that it is a case peculiarly and forcibly within the object and scope of forest reservation. It would seem to us, therefore, that this question has been already answered in favor of granting our application, and we can hardly volunteer further information or argument, though we are prepared to furnish any facts in reference to the matter which the department may require and demand of us.

We earnestly urge that the department grant us the benefits of this great public utility afforded by the Government in its forest reserves, feeling that we are asking nothing beyond the scope of the law and the policy and purposes of forest reservations.

Respectfully,

GEO. S. EDWARDS,
Mayor of the City of Santa Barbara.
E. S. SHEFFIELD,
Water Commissioner of the City of Santa Barbara.
CHARLES F. CANIER,
Committee on Public Utilities, Santa Barbara Chamber of Commerce.
E. C. TALLANT,
President Board of Supervisors, Santa Barbara County.

EXHIBIT S.—R. WOODLAND GATES TO THE ASSISTANT ATTORNEY-GENERAL OF THE INTERIOR DEPARTMENT, NOVEMBER 28, 1902.

WASHINGTON, D. C., *November 28, 1902.*

Hon. WILLIS VAN DEVANTER,
Assistant Attorney-General, Department of the Interior.

DEAR SIR: I desire to submit for your consideration, in connection with the petition of citizens of Santa Barbara, Cal., praying for the inclusion within an existing forest reserve of the Rancho los Prietos y Najalayegua, by amendment of the boundary lines thereof, the following:

The act of June 4, 1897 (30 Stat. L., p. 36), provides:

> The President is hereby authorized at any time to modify any executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary lines of such reserve, or may vacate altogether any order creating such reserve.

A forest reserve has been created upon both sides of the said rancho; and in fact said reserves nearly surround the property.

At the time of the creation of these reserves it clearly would have been within the power of the Executive to have included the land now proposed to be reserved, and the proposition now is to amend the act of reservation so as to include what the Executive would have had power to include in the first instance. It being clearly within the power of the Executive to have included this land in the first instance, it seems to me to naturally follow that under the authority of the particular portion of the act of June 4, 1897, above quoted, empowering the Executive to amend or modify any executive order,

or change the boundary lines of any reserve, authority is now given to include the land in question.

This case is, it seems to me, analogous to the case of the San Francisco Mountain Reserve, where, if I am correctly informed, the even sections were reserved, and the odd sections, being held in private ownership, were not at first included within the reserve. But afterwards, and under the authority conferred by said act of June 4, 1897, the order was amended so as to include the odd sections.

The Rancho los Prietos is practically surrounded by, and lies within, a forest reserve, inasmuch as about 2 or 3 miles only are without the reserve lines.

I do not go into the question of expediency. That is fully set forth in the papers on file. Learning that the case has been referred to you for an opinion as to whether legal authority exists under which the orders creating the forest reserves which nearly surround this property may be amended so as to include within one of the reserves the said rancho, I take the liberty of referring you to the above act, in the belief that you will there find sufficient authority for said purpose.

Very truly, yours, R. WOODLAND GATES,
Private Secretary.

EXHIBIT T.—THE SECRETARY OF THE INTERIOR TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, DECEMBER 2, 1902.

DECEMBER 2, 1902.

The COMMISSIONER OF THE GENERAL LAND OFFICE.

SIR: I have carefully considered the petitions of the city and county of Santa Barbara, in the State of California, for the inclusion within the limits of the existing Pine Mountain and Zaca Lake Forest Reserve, or the Santa Ynez Forest Reserve, of the lands embraced in a patented private land claim known as Rancho los Prietos y Najalayegua, lying between and adjoining said existing forest reserves. The lands which are thus sought to be included within one or the other of said reserves are private lands and embrace no public lands whatever. They constitute a tract of over 48,000 acres. Even if these lands were included within the exterior boundaries of one of said forest reserves they would still be private lands, subject to the control and use of the private owners, and the Government would acquire no control whatever over them excepting in the event that the owners would surrender them to the Government and take out lands in their stead, under the lieu-land provisions of the act of June 4, 1897 (30 Stat., 36). It is suggested by the papers that these private owners would thus surrender these private lands to the Government upon being granted the right to take out lands of equal area of the class valued by the Government at $2.50 per acre. No agreement can be made with these owners which would secure to them any greater rights than was named in the act of June 4, 1897, as amended by the act of June 6, 1900 (31 Stat., 614).

This legislation constitutes the full measure of the authority of the Secretary of the Interior in the premises, and he can not go beyond it. For this reason, and for the further reason that it is doubtful whether the addition to an existing forest reserve of a separate and distinct tract of exclusively private lands containing upward of

48,000 acres is within the letter and spirit of section 24 of the act of March 3, 1891 (26 Stat., 1095), authorizing the establishment of forest reserves, I must decline to give the petitions under consideration my favorable recommendation. You will so inform the petitioners.

The papers relating to this matter are herewith returned for the files of your office.

Very respectfully,

E. A. HITCHCOCK, *Secretary.*

EXHIBIT U.—J. B. LIPPINCOTT TO THE FORESTER, BUREAU OF FORESTRY, JANUARY 30, 1903.

JANUARY 30, 1903.

Mr. GIFFORD PINCHOT,
Chief Forester, Agricultural Department,
Washington, D. C.

MY DEAR SIR: Last fall Doctor Porter of your department was assigned to an investigation of certain lands in Santa Barbara County, Cal., which were proposed to be included in the Santa Ynez or Zaca Lake Forest Reserve. Doctor Porter made a report on this subject, I believe favorably. Mr. Henry Gannett, for the United States Geological Survey, also made an investigation of the same lands last fall, and made report thereon, which I am informed was also favorable.

The situation is practically this—there is no place in the State of California, or anywhere in the United States for that matter, where water is as valuable as it is near the city of Santa Barbara. A miner's inch of water, or one-fiftieth of a cubic foot per second, earns interest on a valuation of $5,000. This is because of the great scarcity of the supply. Now, the city of Santa Barbara in order to augment the water supply available for this locality has started a tunnel through the Santa Ynez range of mountains, which tunnel will be 4 miles in length. They also propose building storage reservoirs on the northern side of the range from which water will be led by means of this tunnel to the coast side of the range. These reservoir sites will be situated on a private land grant known as the Rancho los Prietos y Najalayegua. You will see from your map that this is a narrow grant running up the Santa Ynez River previously excluded, because of private ownership, from these forest reserves. Now this water is to be used largely for domestic purposes, and this grant is now being pastured to sheep and goats. The result is that the water will be impure and charged with silt. Another difficulty lies in the fact that experience has shown that the sheepmen set out fires on their lands that extend into neighboring forest reserves. The Santa Barbara people wish to get rid of this grant. They propose purchasing a considerable body of land where the reservoir sites are to be situated, but they can not afford to purchase the entire ground. If it is included within the reserve, and the owners can get other lands of equal value elsewhere for grazing purposes they can be thus gotten rid of. I am requested to present this matter to you, which I am doing.

Yours, very truly,

J. B. LIPPINCOTT,
Hydrographic Engineer, United States Geological Survey.

EXHIBIT 1.—JED L. WASHBURN TO THE SECRETARY OF THE INTERIOR, FEBRUARY 11, 1903.

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: Yielding to the urgent requests of the people of Santa Barbara County, Cal., and the several official and commercial bodies of said county, the undersigned, now and here, as the owner of 31,760 acres of the Rancho los Prietos y Najalayegua in said county, if the same shall be included in either the Pine Mountain and Zaca Lake Forest Reserve or in the Santa Ynez Forest Reserve, or in the consolidation of said reserves, hereby agrees to convey the same to the United States, free from all incumbrances, in consideration of being granted the right to select, in lieu thereof, an equal quantity of the vacant public lands of the United States, and I also agree to restrict such lieu selections to the nontimbered vacant public lands, open to homestead entry, such right of selection to be available to myself, my heirs or assigns, for the selection from time to time of any parcel or parcels of such land in government subdivisions, according to government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned.

I know of no place where there can be selected in a solid body lands of such aggregate acreage, and hence it will be necessary to have such right of selection available in parcels.

It is with reluctance that this proposition is submitted, and it is only submitted out of deference to the people of Santa Barbara County.

Duluth, Minn., February 11, 1903.

Respectfully, JED L. WASHBURN.

EXHIBIT 2.—PRESIDENT AND SECRETARY OF THE SANTA BARBARA WATER COMPANY TO THE SECRETARY OF THE INTERIOR.

The SECRETARY OF THE INTERIOR,
Washington, D. C.

SIR: In obedience to the expressed wishes of the people of Santa Barbara County, Cal., and the various official and commercial bodies of said county, the undersigned, the Santa Barbara Water Company, as the owner of 16,960 acres of the Rancho los Prietos y Najalayegua in said county, if the same shall be included in either the Pine Mountain and Zaca Lake Forest Reserve, or the Santa Ynez Forest Reserve, or in a consolidation of the two reserves, hereby agrees to convey the same to the United States free from all incumbrances, in consideration of being granted the right to select in lieu thereof an equal quantity of the vacant public lands of the United States; and it also agrees to restrict its lieu selections to nontimbered vacant public lands subject to homestead entry; such right of selection to be available to the said Santa Barbara Water Company and its successors and assigns, and for the selection from time to time of any parcel or parcels of such lands, according to the government surveys of the public lands of the United States, not exceeding in the aggregate the quantity above mentioned, less the area of the reservoir sites hereinafter mentioned.

The said Santa Barbara Water Company reserves to itself out of said rancho, however, the lands covered by two dam sites and their corresponding reservoir sites, to wit:

The Main River reservoir site and dam site near the Western boundary of said tract, containing approximately 195 acres, and the Juncal reservoir and dam site, containing approximately 70 acres, which have already been surveyed for storage reservoirs, together with the privilege of restraining and collecting in said reservoirs the waters of the Santa Ynez River and its tributaries naturally flowing thereto and of covering the necessary lands with water backed up in the said reservoir sites by the dams, and the right of way for the necessary aqueducts (with the right to conduct therein and use on said rancho or away from said rancho the waters aforesaid), and for a road from each of said dams or reservoir sites to the boundary of the said rancho; also the right to take from the lands of said rancho such earth, sand, gravel, and stone as may be required for the construction and maintenance of said dams, reservoirs, aqueducts, and roads.

The said water company further agrees that the lands so reserved for reservoir purposes shall be subject to forest reserve regulations and to the supervision of the officials and government employees in charge of the forest reserve.

Dated Santa Barbara, Cal., February 4, 1903.

Very respectfully,

SANTA BARBARA WATER CO.
By R. B. CANFIELD, *President.*

Attest:

[SEAL.] H. C. THOMPSON, *Secretary.*
